REPEATING SHOTGUNS UNDER GAME LAWS

Only One Shell in Magazine Permitted This Season.

Hunters are worrying over the new game laws of the province, which permit only one shell in the magazines of repeating shotguns. It is all in the interpretation of the act. The section of the code dealing with the point reads:

"It shall be unlawful for any person to use or have in his possession a pump or repeating shotgun of any kind with a magazine capable of holding more than one cartridge."

Therefore, according to the reading of the act the standard repeating shotgun is lawful providing the magazine is blocked so that it will accommodate only one shell. The same law is in force at the present time in the state of New Jersey and a number of sportsmen there still stick to their favorite repeating gun but have made the change to conform with the act by blocking the magazine so that only one shell can be inserted.

A firearms license shall be granted only by such persons as may be authorized by the department, and shall be in force from the date of issue until March 31 following. Licenses shall not be transferable. For feathered game and deer the license fee is $2.50, for game birds and all kinds of animals the license is $5 and a special license to carry firearms and trap is $10. Visitors shooting in clay pigeon competitions are exempt from these licenses.

CANNOT FIND TIME TO LENGTHEN MARY

Work of Adding Forty Feet to the Length Will be Done Next Fall

Owing to the fact that her services are required for the northern trade, the proposed alterations in the C.P.R. steamer Prin- cess Mary will not be carried out until next winter. It was reported early in the year that the Mary was to be cut in two and lengthened 40 feet. The C.P.R., however, has been unable to find time to lay the vessel up, and now the company announces that the work will not be carried out until late next fall, when the northern business begins to slacken off and the company can afford to withdraw her.

The lengthening of the Mary will be a big undertaking, and probably the B. C. Marine Railway will be awarded the contract for the work. Some time will be consumed in stretching out the Mary, and it is understood that while this is being carried out the steamer will be converted into an oil burner. It is probable that she will be out of service for three months.

Last fall it was the intention of the C.P.R. to change both the Princess Sophia and Princess Mary, but time would only permit of the former having the oil system installed.

ALL-NIGHT ORGIES IN NEW YORK AT AN END

Mayor Gaynor Orders All Restaurants in Lobster District Closed Hour After 12.

New York, April 1.—Curfew for the "White Light" district now rings promptly at 1 o'clock in the morning, according to orders issued by Mayor Gaynor. The mayor notified the police commissioner that he revoked all the 46 all-night liquor licenses now in existence in the city and directed the commissioner to see that liquors were not sold after the closing hour in the restaurants and cafes hitherto permitted to remain open and that the places were promptly closed.

"Experience has shown the result of keeping places where liquor is sold open all night to be most pernicious," said the mayor in his order.

Ashville, N. C., April 1.—Called out of church by an usher while attending services at Waynesville, N. C., yesterday, Henry Sorrells walked into a fusilade of bullets said to have been fired by his cousin, Hardy Sorrells. Three of the bullets took effect, the victim dying almost instantly.

SUGGESTS DEPORTING GUILTY SUFFRAGETTES

Lord Cecil Advocates Their Transportation to Lonely Island.

London, April 2.—Lord Robert Cecil, member of the House of Commons for the Hitchin division of Herts, and son of the late Lord Salisbury, advocates in a letter to the London papers this morning the deportation of suffragettes convicted of militancy. Forcible feeding, he says, is futile; so, the courts should be empowered to sentence the women to deportation to some distant island. Once there they could be left at large. Food and lodging would be offered to them, but no compulsion put upon them to accept it.

Lord Robert Cecil says that the women would have no right to object, because this would be treating them like prisoners of war and would be identical with a special kind of treatment adopted for certain criminals.

"Why should not appropriate treatment," he asked, "be selected for women, who, with all their faluts and follies, have shown that they possess characteristics of sincerity, endurance and courage which the ordinary criminal lacks?"
