RUMORED VISIT OF BRITISH PRINCES TO RUPERT

S.S. CITY OF SEATTLE SAFE: CALLIES WIN SERIES: GROUNDHOG RAILWAY: THEATRE PARTY

CANADA COUNTS ON RUPERT AS AN IMPORTANT OUTLET FOR WHEAT IN THE NEAR FUTURE

As usual at this time of year there is some anxiety as to how the different railway companies are prepared to remove the crop. The general opinion is that there will be another blockade this fall and winter. The railways have been exceptionally busy constructing and improving branches and main lines, but it is felt that the large amount of construction work done will not prevent congestion, without the facilities for carrying the grain east from the lake terminals being correspondingly improved. The amount of work being carried on by the railways now will become more noticeable when the Grand Trunk Pacific and the Canadian Northern are transcontinental railways. Then Canada will have three all year around outlets to the Atlantic seaboard instead of one, as at the present.

The tenders for the government elevator at Fort William were in hand at the first of the month, and at this writing are being considered by the board of grain commissioners. It is not expected that the big house, which will have a capacity of 3,250,000 bushels, will be completed in time to be of much

DELAY BUT NOTHING ELSE TO SEATTLE

Mr. Harold J. White of Pasadena, California, who was a former visitor to Prince Rupert, passed through the city today on his way south by the steamer City of Seattle. Mr. White mentioned that the stranding of the steamer near Ketchikan, while occasioning tedious delay during the lighterening process, was not accompanied by any shock or the slightest alarm to the passengers.

It is stated that there is accommodation at Duluth for between 35,000,000 and 37,000,000 bushels, and that there will be no trouble in taking care of as much Canadian grain as was handled last spring at that port.

As a step toward opening all available channels for the moving of the grain this fall, it is announced that an order in council has been made requiring the Grand Trunk Pacific, within 30 days from August 1st, to lease the stretch of the transcontinental from Lake Superior Junction to Transcona, a short distance east of Winnipeg. As the Grand Trunk Pacific line from Port Arthur to Lake Superior is already in operation, this would mean a line from Transcona to Thunder Bay, in full operation, under the control of the Railway Commission—Canadian Finance.

FIRST FOOTBALL LEAGUE SERIES IN PRINCE RUPERT ENDS IN WIN FOR CALLIES

For the season football is over on the Spartan sort of park the lucky boys of Prince Rupert have played on so heroically on second avenue. Last night's match, the concluding one of the series, did the Prince Rupert Football Association, the base club and the Callies, credit. The game was a good one. The boys showed splendid self-restraint. The Callies won and lead the league. The score was 5 goals to 2 in their favor. Roses played a splendid game all through, but were outplayed on combination, the Callies being very well tuned to work together. The Roses played a game of attack, and vigorously, too. At first, in fact, they looked like pressing the Cal-

BRIGHT SHOW IS PROMISED FOR TONIGHT

The Friday night amateur vaudeville entertainment to be given this evening at the Westholme Opera House is sure to have a big house, which is always accorded to the local amateurs when they endeavor to entertain the Prince Rupert public. A good programme is promised and despite the fact that a blank has been produced in the lives of many of us since the departure of the Juvenile Bostonians most of us are recovering our cheerfulness and will be prepared to laugh and applaud the efforts of our local comedians.

LONDON AND CANADIAN SECURITIES

As far as Canadian securities are concerned, London still remains unresponsive. On his return from England last week, Sir William Mackenzie said that the present state of the London market was due to a two-fold cause. In the first place, that market was congested with Canadian securities; in the second place, Canadian securities did not yield the income return which British investors were now demanding.

Sir William denied that he had gone to London to secure more capital for his various projects. "We had all the money we needed for all our undertakings. We forestalled this market." Sir William would say nothing concerning the reported hitch in his purchase of the Dominion Power and Transmission Company, of Hamilton.

COST OF A GRAVE IN NEW CEMETERY

A grim subject came up before the Park Commissioners at a meeting held the other evening, the cost of graves, in fact, in the new cemetery. The Commissioners decided that a plot of graves for half a dozen burials should be rated at \$45.00, half such a plot \$25.00, one-third of a plot \$17.00, and for each single grave \$10.00.
