Victoria, Sept. 4.—The annual convention of the Canadian Forestry Association opened this evening. Men from every province gathered to take part in the deliberations. A. C. Flumerfelt, chairman of the citizens' committee for arrangements, was in the chair, and on the platform were Sir Richard McBride, Alderman Cuthbert, representing the city; J. J. Shallcross, president of the Board of Trade; the Hon. Colin H. Campbell, attorney general of Manitoba; J. K. Fleming, premier of New Brunswick, and the Hon. Jules Allard, minister of lands of Quebec. The welcome of the province and the capital city was voiced by the Premier.

#### ORIGINATOR OF THE GREAT "GOLD MOUNTAIN" BOOM AT STEWART IS IN DISTRICT

Amongst the arrivals in the district yesterday on the Prince Rupert was Mr. James Cullins, a well known newspaper man of the province, lately on the staff of the Vancouver Sun. Mr. Cullins, who is connected in a business way with D. R. Young, who owned the paper at Masset, is going to start up immediately a paper, to be called the Masset Leader.

There is ever indication that a great deal of development is going to take place in the near future on Graham Island, and the venture ought to prove in every way a success. Mr. Cullins is one great claim to fame—the fact that he was the acting manager and editor of the Portland Canal Miner when, two years ago last June, that paper came with its historic special on the paper heralding the discovery of the famous "Big Reef," twenty miles in extent, of free milling gold, that came as boom upon the unsuspecting world as nothing had done since the Klondike excitement of '97.

#### SCIENCE CLIMBING TO GOD-POWER

Dundee, Sept. 5.—The most interesting feature of the opening of the session of the British Association shows a great advancement. In his presidential address Prof. E. A. Schaeffer of Edinburgh University dealt with nature, origin and maintenance of life. In his address he said: "We may fairly conclude that all changes in living substance are brought about by ordinary chemical and physical forces." Further on he said: "We may even hope some day to see the material which composes the nucleus of cell life prepared by some combination of proper substances." In summing up his remarks he said that research "seems to point to the conclusion that there is a possibility of the production of life that is of living material. Not so remote as has been generally assumed."

## PRINCE RUPERT AS SEEN IN PERSPECTIVE FROM POINTS THROUGHOUT ALL CANADA

Travelling Editor of "Canada-Illustrated" Pays Special Visit to Prince Rupert for Purpose of Recording Fresh Impressions in the Light of Far Spread Comment

### THE MOST TALKED OF CITY IN THE DOMINION

Prince Rupert is Known to and Spoken of by Leading Business Men in Every Centre of Importance All Over Continent

High compliment has been paid Prince Rupert by the vigorous interest taken in the city's growth since last year by Mr. J. R. Cogger, travelling editor of Canada Illustrated, who on his annual tour of the Dominion, this year a particularly extended one, has made a special trip to this city. Mr. Cogger spared a day or two for this visit because of the keen interest he took in Prince Rupert on his visit a year ago. He desired to see what the terminal city could do in twelve months and to compare its progress with many other go ahead cities with which he is familiar throughout Canada.

Vivid and lasting, he readily admits, has been his impression of the changes made. First and foremost he finds new wharfage extending along the waterfront, graded streets where he saw rough plankways, the hotel sprang up around to a new location, the dry dock works striding along through the shallows at Hays Creek and booming ahead ashore. "Prince Rupert," says Mr. Cogger, "is the most talked of city in all Canada." This means something when you realize that Mr. Cogger has toured every possible centre of interest and population in the Dominion, and that with the express purpose of talking about Canada's cities and other developments with the business men who know.

Mr. Cogger is today visiting the cold storage and viewing points of interest in the city's surroundings for the purposes of his paper. On his return east he has an itinerary embracing every well established and rising centre accessible by railway. He secures information and retains the services of informative sources in all centres, and has arranged for further special articles on Prince Rupert and district to appear in Canada Illustrated from his own pen and others.

#### Last Interview with C. M. Hays.

Very interesting is Mr. Cogger's account of his last interview with the late C. M. Hays, for it throws a strong light on the ill-fated president's keen concern for and admiration of Prince Rupert. To Mr. Cogger, not long before he left on his ill-starred sea journey, Mr. Hays in conversation expressed the view that Prince Rupert was destined to be not only

#### HEARWATER REVISITS RUPERT

M. S. Shearwater arrived in the district last evening on her return after making her annual tour of the islands to the north extending as far as the Behring Sea. During the voyage good weather prevailed the whole time and the trip partook the nature of a regular summer outing. All the sailors boys looked exceedingly fat and jolly, as if they all had the very best of times. Number of them were on shore last night on leave, taking in the sights of the city. Anchor was weighed this morning at 7 o'clock, when the Shearwater left for Captains Cove, where some fishing and hunting is going to be indulged in before returning headquarters at Nanaimo.

Portland, Sept. 5.—The passing of worthless cheques loses much of its criminality when the victim is a bartender is the opinion of Circuit Judge Morrow, who has admitted to parole Harry Williams and John Kentland. #### PREPARING FOR POPULATION, HEAD OF WEALTHY SYNDICATE INSPECTS LOCAL HOLDINGS

There arrived in the city yesterday on the Prince George from Vancouver Mr. Albert Dollenmayer, accompanied by his son, Mr. Stacey Dollenmayer. Mr. Dollenmayer Sr., who is the head of the Dollenmayer Advertising Syndicate of Minneapolis and Vancouver, B. C., is a wealthy capitalist and has acquired large interests in this province, owning the townsite of Masset and also big blocks of property in Fort George.

Mr. Dollenmayer left last evening with his party for Masset, where they expect to remain for a week or so. In conversation with The News yesterday, Mr. Dollenmayer, who is decidedly a man of conservative views, expressed the greatest faith and confidence in the future of this entire northern country and particularly of the possibilities of Graham Island as the coming agricultural country tributary to Prince Rupert. Mr. Dollenmayer does not expect, however, any very great stir or rush of settlers until about the time of the completion of the G. T. P.

The main object of their present visit to Masset to look into a proposition for reclaiming some tidelands adjacent to the town of Masset, which, if found feasible, would furnish a large area of rich cleared land, ready for the plough, and prove of great value. Upon their return here they will proceed to Hazelton, thence with saddle and pack horses make the trip overland to Fort George to look over their properties in that district.

A special general meeting of the Prince Rupert Rowing Club will be held on Friday evening at the court house at 8 p. m. 210

#### MORE HUNTING PROWESS IS DISCOVERED

A very small and select little hunting party, consisting of two men only, Messrs. Walter Clayton, son of J. L. Clayton of the cold storage plant, and Robert Mathieson, probably brought in the best bag that was got on Labor Day last. Only their natural modesty precluded the possibility of obtaining wind of it earlier. The two of them left Seal Cove on Sunday evening, going some way up the inlet and camping for the night. The next day they were lucky enough to bag four deer, one a buck weighing over 180 pounds. Great rejoicing and hiyu mowich at the cold storage mess.

Sir George Doughty will address the Canadian Club at a dinner to be given in the G. T. P. Inn on Thursday evening, September 5, at 8:30 p. m., on matters appertaining to the Empire. Tickets can be procured at the Inn. Dr. Clayton, Sec. 209

(Special to Daily News.)
