GREAT PUGILIST'S WHITE WIFE DIES IN SADDEST POSSIBLE MANNER BY HER OWN HAND

SPLENDID PROSPECTS OF THE HIDDEN CREEK MINE, GRANBY, PORTLAND CANAL

On July 25th, the Granby Consolidated M. S. & P. Co.'s copper mines at Phoenix, Boundary district, shipped about 4,500 tons of ore, which is said to be very nearly if not quite a record.

Recently the output of the Granby Consolidated M. S. & P. Co.'s big mines at Phoenix reached an aggregate of 8,000,000 tons of ore.

Mr. T. P. Graves, vice president and general manager of the Granby Company, considers that at the Hidden Creek mine, situated on Observatory Inlet, near Portland Canal, the company has a property that will surpass the company's Boundary district mines, both in tonnage of available ore and its value.—Canadian Finance.

COLOSSAL RAILWAY PLAN MAY OPEN WIDE THE DOOR OF THE ORIENT FOR RUPERT

(Special to Daily News.)

Pekin, Sept. 13.—A project for a great scheme of Chinese railways, which holds the foremost place in Dr. Sun Yat Sen's programme for the modernization of China, has commanded support on the asking from the government and may involve great extension of the privileges of foreigners in the country and greatly extend foreign trade with China.

BIG BOOST FOR PRINCE RUPERT

M. Ledwidge, of the Vancouver Saturday Sunset, who has been in the city for the last ten days, left today on the Prince George for the south well armed with material for the annual development number that is to be issued by that paper shortly. Mr. Ledwidge was full of praise for the great advances this city has made since his last visit, and Prince Rupert is assured of prominent place in the forthcoming special number.

CHINK WAS FINED FIFTY

In the police court this morning the seventeen Chinamen, headed by Lee Bo, surrendered to their bail and appeared before their worshipful Magistrate Carrs to answer a charge of having opium in their possession. The case was of a somewhat involved character and finally terminated in the conviction of Lee Bo, who was fined \$50. The cases against the others were dismissed.

Threaten Big Telegraph Strike.

Winnipeg, Sept. 13.—The mandate has gone forth that unless the demands of the C. P. R. telegraphers for the increase of 45 per cent. in wages is not granted by Sunday a strike is to be declared. This will affect 2,000 men from coast to coast.

"PRINCE RUPERT---CANADA'S PACIFIC PORT OF PROGRESS"

Official Publicity Pamphlet of the Board of Trade Makes Good, as These Letters Received by the Secretary Will Prove

To J. Lorne McLaren, Esq.,
Secretary Board of Trade,
Prince Rupert B. C.

Dear Sir: With reference to the recent publication by the Board of Trade of booklet "Prince Rupert."

I sent a copy of this booklet to Mr. W. P. Hinton, our general passenger agent, and I am now in receipt of his letter, which reads as follows:

"As stated to you verbally, I think this book is excellently prepared; in fact, is the first publication of a reasonably convincing nature which I have seen of Prince Rupert. The booklet is prepared on proper lines, and I think as a result of this educational policy you will find that far different views will be held by those who have access to the information than have generally prevailed heretofore."

Yours truly,
Sept. 13, 1912.
A. E. McMASTER, General Agent.

In a letter addressed to The Daily News office and dated September 7th, 1912, F. H. Mobley, president of the Board of Trade of Prince Rupert, says:

"I have pleasure in expressing the thorough satisfaction of the Prince Rupert Board of Trade with its official publicity pamphlet for 1912, entitled 'Prince Rupert, Canada's Pacific Port of Progress.'"

A second edition of the booklet has been ordered to meet the demand for it for publicity purposes by the Board of Trade and the Real Estate Exchange of Prince Rupert.

PRESENCE OF COAL AND IRON ON THE PACIFIC COAST MEAN IMMENSE PROSPERITY HERE

Groundhog Has the Coal, Queen Charlotte Islands and Mainland Mountains Have the Iron---Prince Rupert Will Have the Industries as the Days of Development Proceed

The greatest of national assets are coal and iron. It is these that are mainly conducive to industrial supremacy. England, Lord Ramsey asserts, will have exhausted her coal supplies in two hundred years, calculating on the present rate of production alone. Without coal England would not only cease to be the greatest manufacturing country in the world, but she would be out of the race altogether. Much may, however, happen in two hundred years, and the problem and its solution will concern more immediately succeeding generations. Long before, however, any such catastrophe can occur from the cause mentioned the whole trade conditions of the world may be changed by events now developing.

Among these are the building of the Panama Canal and, more momentous still, the awakening of China. In a paper on the subject of "International Coal Competition," contributed recently to the Canadian Mining Institute, Mr. Allan Greenwell, editor of the Colliery Guardian, it was shown that if the natural course of trade is allowed free play, a country will inevitably produce for itself and for other countries that in which it has the greatest relative advantage (or least disadvantage). If this product be coal, it will tend toward monopolizing the production of coal, and to causing the countries which previously produced it to direct their labor and capital toward the production of something else in which they have an advantage. Again, "the value of a commodity is a matter of supply and demand; so if a country possesses an unlimited supply and can export cheaply a commodity for which there is a considerable demand, it may be said to be on the high road to commercial prosperity." It is a fundamental law that a coal driven industry tends to follow the fuel, and not the fuel the industry. Thus a country possessing an unlimited supply of cheap coal can send out its surplus coal to fetch raw materials.

RUPERT'S FIRST HOLD-UP CASE

Joe Simmons, a colored man, was arraigned before Magistrate Carrs this morning in the police court on the serious charge of holding up at the point of a huge 45-calibre, six-chamber revolver two men of the names of Robert Partridge and Charles McDonald and extracting from them money to the amount of \$55. The affair took place at the Empress Hotel in the early hours of the morning of the day before yesterday, but it was some little time before the authorities were able to locate the accused. The man under arrest has been following the calling of a shoe shine artist here. After a short preliminary hearing the case was adjourned until tomorrow morning.

HEAVYWEIGHT CHAMPION IS BEREAVED

(Special to Daily News.)

Chicago, Sept. 13.—Mrs. Jack Johnson, white wife of the world's champion pugilist, attempted to commit suicide tonight in a room over her husband's cafe on the South Side, by shooting. She was removed to a hospital and physicians thought she might recover. Johnson is with her at the hospital.

Chicago, Sept. 13.—At an inquest into the death of Mrs. Jack Johnson, the championship pugilist said not domestic trouble but worry and nervous breakdown had caused the act. He said that after his fight with Jeffries he himself was a physical wreck. Rather than let the public know, his wife nursed him for a year to health.

"ROAD IS NOW IN OPERATION AS FAR AS HAZELTON." WHAT? NOT YET, NOT YET, BUT SOON

The Grand Trunk Pacific party, consisting of the president, E. J. Chamberlin; A. W. Smithers, chairman of the board of directors; W. P. Hinton, general passenger agent, and other officials, has returned from a western inspection tour extending as far as Prince Rupert.

Mr. Smithers and Mr. Chamberlin both expressed satisfaction with the work done on the coast section of the G. T. P., except that acute labor shortage is still delaying matters seriously. The road is now in operation as far as Hazelton, a distance of 175 miles, and a satisfactory service is being provided between the two centres.—Canadian Finance.

The G. T. P. is expected to be open to Hazelton early this month.—Daily News.

DIVIDEND PAYING MINES OF BRITISH COLUMBIA ARE THESE, WITH MORE TO FOLLOW

It is interesting to note that several British Columbia mines are now dividend paying, while two or three others are likely to come into the dividend ranks very shortly. The best showing made for years was made in the period from June 9th to July 15th. It was as follows, according to Mr. E. Jacobs, of Victoria:

June 9—Dividend on 2 1/2c a share on 2,000,000 shares, paid by the Standard Silver-Lead Mining Company, Slocan, \$50,000.

June 29—Dividend of 50c a share on 120,000 issued shares, paid by the Hedley Gold Mining Company, Similameen, \$60,000.

July 1—Dividend of one shilling a share on 120,000 shares, paid by the Le Roi, No. 2, Ltd., Rossland, say, \$29,400.

July 9—Dividend of 2 1/2c a share on 2,000,000 shares, paid by the Standard Silver-Lead Mining Company, Slocan, \$50,000.

July 15—Dividend of 15c a share on 591,709 issued shares, paid by the British Columbia Copper Co., Ltd., Boundary, \$88,756.35.

Total of profits distributed in six weeks, \$278,156.35.

The foregoing statement by no means shows the total of earned profits—only the proportion that quite recently has been divided among the shareholders in the several companies appearing on the above list.

The first shipment of ore from the Red Cliff mine, Portland Canal district, consisting of 511 tons, to the Tacoma smelter, gave a gross return of \$15 a ton in copper and gold. A second shipment of 750 tons was forwarded last week.
