G. T. P. MAKE NICE SHOWING OF GRAHAM ID. VEGETABLES

PRODUCTS OF LAWN HILL SOIL ON DISPLAY IN G. T. P. TICKET OFFICE WINDOW ARE ATTRACTING MUCH FAVORABLE COMMENT—GOOD LAND.

Occupying the entire window of one side of the G. T. P. ticket office on Centre street is a fine exhibit of vegetables that have been grown this summer in the neighborhood of Queen Charlotte City, on Graham Island. The display, which consists of a portion of the exhibits that were shown at the Lawn Hill exhibition a week ago, though necessarily having suffered somewhat from repeated handling and transit, are in excellent shape, and rivals anything that could be shown by farmers in any part of the Dominion. Sizing up the exhibit and noticing the size and quality of the varied display, which includes potatoes, cabbage, cauliflower, beets, carrots, turnips, parsnips, mangels, horse-radish, together with grain and timothy grass, two things are impressed upon one's mind—first, the undoubted richness and fertility of the soil of the islands, and, secondly, the excellent and intelligent class of settler that must be there to produce such results. Exhibits such as this one, and others from the fertile valleys of the Skeena, prove indubitably that we have a vast agricultural country tributary to Prince Rupert, which, in the very near future, and upon the completion of the railroad, when settlers will throng in to take up the land and get ready for farming operations, will put us upon a par from an agricultural standpoint with any portion of the Dominion. Prince Rupert is in a fair way to have the local market supplied entirely with farm products grown in the surrounding district. The fact that such an excellent start has been made will ensure numerous other settlers coming in right away seeking to emulate the successes achieved by these early pioneers.

RETURNS FROM SURVEY CRUISE

Dominion Government Steamer Lilloet Finishes Work of Season in Chartering Coast

The Dominion hydrographic steamer Lilloet, Captain Musgrave in charge as head of the party, arrived in port on Saturday, having completed her season's work in the waters of this northern district.

After having taken on a supply of coal for her trip down she will leave for Esquimalt to go into winter quarters. Captain Musgrave states that the work this summer has been most satisfactory, the task of charting the shore line of Heceta Straits on the Queen Charlotte side, having been the main work proceeded with. On account of the tremendous shore line it will take several seasons for one boat to complete the survey. The most recent work done was by a party at the entrance to the harbor of Paoof and Skincuttle Inlet.

ROOSEVELT IS REMOVED HOME

Special Train Bearing Colonel, Doctors and Newspapermen Left Chicago Today.

Chicago, Oct. 21.—Colonel Roosevelt was removed today to his private train and started on his journey to Oyster Bay, his home. In taking the ex-President to the train it was necessary for him to walk two or three steps, which almost exhausted him. Other than for the exhaustion caused through this effort, the Colonel felt, as he expressed it, like a "bull moose." Two doctors accompany him on his trip, while a special car had to be attached to the train to provide for the corps of newspaper reporters. The doctors declare that all danger is now past.

DARROW'S TRIAL IS DELAYED

Unwillingness of Witnesses to Return and Give Evidence Delays Lawyer's Trial.

(Special to Daily News.)
Los Angeles, Oct. 21.—More difficulties face the prosecution in the second trial of Clarence Darrow, when it was discovered today that Eastern witnesses whose evidence is considered important would not return and testify. The Federal government will be asked to make them appear and give evidence, but in any case it has caused a long delay in the trial.

BISHOP CARPENTER ADDRESSED TWO LARGE METINGS YESTERDAY

RT. REV. BOYD CARPENTER, BISHOP OF RIPON, PREACHED AT BOTH SERVICES YESTERDAY AT THE ANGLICAN CHURCH TO VERY LARGE CONGREGATIONS.

Sermons of a most eloquent and impressive character were delivered yesterday at both morning and evening services at the Anglican Church by the Rt. Rev. W. Boyd Carpenter, bishop of Ripon. The aged and benevolent divine, who is one of the leading ecclesiastical dignitaries of the Episcopal Church of England, in quiet, musical tones, using the simplest of English, almost in a conversational tone, held the congregation spellbound during the all too short period of his address. Of a material rather than doctrinal character, his sermons expounded the truth and the great lessons to be learned today, as two thousand years ago from the teachings of Our Savior. Despite the bad weather, large congregations attended upon each occasion.

In the morning the Rev. F. W. Kerr, of the Presbyterian Church, instead of holding his own usual Sunday morning service, repaired with a large number of his congregation to the Anglican Church to take advantage of the visit of the famous divine. The right reverend gentleman, together with his wife, son and daughter, left on the Prince Rupert this morning for the South.

The deceased, who was an Odd Fellow and well known in the city, had been chef at the G. T. P. Inn for some time. It was at first the intention to have the interment at Garden Island cemetery, but communication having been established with relatives, the body was shipped on the Prince Rupert this morning to Portland, Oregon, where relations will take charge of it. Despite the inclement weather yesterday afternoon, there was a large turnout of Odd Fellows and friends of the deceased at the funeral services, the Rev. W. H. McLeod officiating.

ANGRY CROWD ATTEMPT TO LYNCH JACK JOHNSON FOR ABDUCTING YOUNG LADY

Colored Champion Narrowly Escapes With His Life When Infuriated Mob Chase Him With the Intention of Lynching Him ---Defense Fund Raised in Five Minutes

(Special to Daily News.)
Chicago, Ill., Oct. 21.—A howling mob of several hundred infuriated white men blocked traffic for several hours on Saturday in front of the First National Bank in an effort to reach Jack Johnson, the champion pugilist of the world, and lynch him for the abduction of a young girl, Lucille Cameron, for which he was arrested earlier in the day and was released on bail of \$1,500. He escaped through the rear door of the bank and made his getaway, but later the mob surrounded him again and it was only after a desperate struggle between the citizens and the six strong pugilists who acted as a bodyguard for him and the coming of the police reserves that he escaped a horrible death. His "golden smile" has vanished and he is wearing a furtive, hunted look. The Cameron girl was released on \$25,000 bonds to appear as a witness against Johnson and Jeanette Door, who will both be arraigned on charges of engaging in the white slave traffic.

Poplar Bluff, Mo., Oct. 21.—When the report reached here yesterday that Jack Johnson had been killed by the mother of the girl whom, it is alleged, he abducted, \$1,000 was raised in five minutes to forward to the woman to help her fight the case. The report of the killing proved incorrect and general sorrow was expressed on all sides, as the girl lived in this city and feeling runs very high.

Chicago, Oct. 21.—Jack Johnson and the girl whom he is accused of abducting both say that they will marry in spite of what the law may do.

PASSENGERS EAT ALL THE FOOD ON SOPHIA

Four Hundred Passengers Southbound on Princess Sophia Ate All the Provisions and More Bread Was Ordered by Wireless

Loaded down with outgoing passengers from Alaska and the Yukon, the Princess Sophia called in here on Saturday afternoon about four o'clock. She had over three hundred and fifty first class passengers, her accommodation only being sufficient for two hundred and fifty. This fact necessitated fixing up quarters on the lower freight deck for the surplus. Sleeping places having been provided for the returning Alaskans and Klondikers, the next thing to be considered was how to feed such a horde. Bread completely ran out before reaching Prince Rupert. A wireless reaching the city about 11 a.m. on the day they reached here, Mr. Clifton, of Clifton's Bakery had the task of rustling 600 loaves before the ship reached port. He performed this Herculean task, a wagon load of bread being on the dock to greet them. After being held on board some little time, whilst the doctor and the customs officer performed their official duties, the big good natured crowd were let loose and swarmed up town to take in the sights of the city. Although being given fair warning to look out for the quarter hour whistle, the Sophia pulled out, leaving six passengers behind, the latter rushing pell mell down to the wharf just a few minutes too late. It looked at first as if they would have to be enforced visitors to Prince Rupert for a few days, but the good natured and ever obliging Captain Campbell, although having to contend with a strong outgoing tide, made another landing, much to the rejoicing and delight of the stranded ones and the spectators both on the wharf and the ship.

LOCAL JOTTINGS

Mrs. John Black, wife of John Black, an old time Klondyker of many years' standing, and at present holding the position of clerk of the Territorial Court of the Yukon, was a passenger south on Saturday on the Princess Sophia. Mr. John Black is the uncle of George Black, governor of the Yukon Territory.

Fred R. Chute, for fourteen years in the Yukon, and one of the first men to take up quartz mining in the territory, passed through on Saturday afternoon on the Princess Sophia on his way to England. Mr. Chute will return again in the spring to the North.
