#### GREEKS GAIN IMPORTANT POINT FROM TURKS AND OCCUPY ISLAND

AFTER BLOCKADING PORT AND OPERATING AGAINST TURKS FOR SEVERAL DAYS GREEK NAVAL FORCE COMPLETELY OCCUPIES ISLAND OF LEMNOS

(Special to Daily News.)  
London, Oct. 23.—The occupation of the Turkish island of Lemnos by the Greeks is complete, according to advices received here by the Greek legation and the press.

This is the first success of the allied detachment of the allied armies of the Balkans, and while the Greek ships cannot be said to have taken an active part in the fight, it was the sailors and soldiers landed from the fleet that occupied the island and forced the Turks to surrender.

meeting of the Turkish and Greek squadrons is watched with interest by naval experts here. The island of Lemnos is considered to be a very valuable possession from a strategic point of view, for it will serve as a base for further operations by the fleet.

Admiral Countouriotis, commander of the Egean squadron, who had charge of the operations against the capital of Lemnos, Kastro, immediately sent tidings of the occupation of the island to King George of Greece, who communicated to his fellow monarchs the news of the success.

Gen. Diaz Captured by Federal Forces When City Falls into Their Hands Yesterday.

(Special to Daily News.)  
Mexico City, Oct. 23.—The capture of Vera Cruz by the Federal forces has been confirmed by official circles and President Madero has telegraphed all the governors of the states to the effect that the loyal troops have been successful in defeating the rebels and capturing their leader, General Diaz. Word was also sent to the foreign consuls of the success of the Federal forces.

The capture of General Diaz, the nephew of the former dictator, crushes all hope of the old dynasty regaining hold of the government, for the present at least.

#### EXCELLENT COAL ON GRAHAM ISLAND STATES GEOLOGIST

PROMINENT MINING MEN FROM WASHINGTON, D. C. ARE DELIGHTED WITH PROSPECTS OF COAL ON GRAHAM ISLAND—WILL DEVELOP PROPERTIES THERE IN SPRING.

Messrs. M. M. Page, C. P. Page, C. P. Mutter and M. R. Marshall arrived in the city yesterday afternoon on the Prince John from the Queen Charlotte Islands, where they have been looking over a big coal proposition in which they are interested. On account of the lateness of the season it was found impossible to make the thorough examination of their extensive holdings that they would have desired. Mr. Campbell, who is a geologist of note from Washington, D.C., and a man of long experience, is very well satisfied with all he was

able to see upon this short visit, and says that coal of a first class quality and suitable for coking purposes undoubtedly exists in large quantities, but as to the actual extent later examination will have to prove.

The party, which is leaving tomorrow on the Prince George, will go straight through to Washington, and expect to return early next summer to go into the matter of developing their property, which is crown granted, and which they have every intention of going ahead with as a commercial enterprise at the earliest possible opportunity.

#### LONDONDERRY MAN SAYS IRISH NEARLY ALL WANT HOME RULE

INTERVIEW GIVEN TO VANCOUVER PAPERS BY LONDONDERRY MAN SAYS THAT EIGHT PER CENT. OF IRISH WANT HOME RULE BILL PASSED.

Vancouver, Oct. 23.—That the passing of a measure giving Ireland home rule will mark an epoch in progress for that island, unprecedented in history, and that under the influence of such legislation Irish people will be enabled to develop dormant industries and stimulate stagnant commercial relations with other parts of Great Britain in place of the speculative exploitations of English landlords which have proved of such serious detriment to Ireland of recent years, is the opinion of Mr. W. F. Patterson of Londonderry, Ireland, who was among the arrivals at the Hotel Vancouver.

Mr. Patterson is a graduate of Dublin University and during the last few years he has made a comprehensive study of conditions in his own country. He declares that about 80 per cent. of the educated people in the north of Ireland are in favor of home rule, the balance of opposition being formed chiefly of men whose holdings will be affected by a change of government.

This extra trip has been arranged for at the special request of the residents of Masset.

Warm, clean rooms at Savoy.

## PICKLED SALMON WILL BE SHIPPED FROM ENGLAND TO PRINCE RUPERT

First Shipment of Pickled Salmon From British Columbia to England is Being Made by B. C. Fisheries—Great Trade May Develop in This Line

The Prince John, which arrived in port yesterday afternoon from the islands, besides her large passenger list carried a considerable amount of freight. Amongst the latter was a trial shipment of 220 barrels of pickled salmon, which are being shipped direct to London, England, by the shortest route, as the fish have to go through a process of repickling in a month's time. This is the initial step in what may prove another branch of the profitable fishing industry of this northern coast. The shipment is being

made by the B. C. Fisheries Co. from one of their canneries near Skidegate.

The barrels that are being sent for this experimental shipment, when filled, weigh about 170 pounds and contain on an average 70 fish of the humpback variety. It will be of interest to watch for the returns and the sale found for B. C. salmon put up in this manner in the world's biggest market.

In addition to this shipment, the Prince John brought over from the islands about 20 tons of fertilizer made out of fish

refuse by the modern methods now in use that allows of absolutely no waste whatsoever in the handling of the fishing industry.

It is expected that the unloading of the water pipes from the Crown of Galicia will be completed this evening if the weather keeps fair, the work of loading the five thousand cases of salmon that are being shipped to the Old Country, the first shipment ever so far sent direct from Prince Rupert, is proceeding apace.

#### DELIGHTFUL DANCE IN HONOR OF FORMER PRINCE RUPERTITE

FRIENDS OF MR. K. P. PITCAIRN CELEBRATE HIS VISIT BY A DANCE LAST EVENING IN THE CATHOLIC HALL, AT WHICH MANY ENJOYED THEMSELVES.

A very pleasant little dance was given last evening in the Catholic Hall in honor of Mr. K. P. Pitcairn, late of the local staff of the Bank of Commerce, who is now stationed at Kamloops, and is spending his vacation in Prince Rupert. The affair was gotten up by the members of the staff of the bank and several old time friends of his of the old pioneer days. Mr. Pitcairn was amongst the first little band who settled on the island, being a member of the original staff of the Bank of Commerce when they opened up here.

L. J. Beaudette is Well Satisfied With Coal Showings on Graham Island

Mr. A. J. Beaudette, mining engineer with the G. T. P. Railway Co., returned yesterday on the Prince John from a week's visit to the Queen Charlotte Islands. Mr. Beaudette, who is very well known in his profession all over the Dominion, having for a number of years represented the Dominion government in the Yukon, spent a considerable portion of the summer making an examination of the Groundhog coal mining district. He returned a few weeks ago, proceeding to Winnipeg in order to accompany Mr. B. B. Kelliher, head engineer for the G. T. P., on his trip along the line of the new railroad from Winnipeg to Prince Rupert.

#### SMALL KIDDIES FOR CANADIANS

Wm. Baker Recommends Sending Out Little Tots Who Will Become Canadianized.

London, Oct. 23.—William Baker, director of Barnardo's homes, told the Imperial Trade Commission that he strongly favored emigration of children about 7 years of age so that they might grow up Canadians from childhood. Canada offered children better conditions than South Africa or Australia, he said, and could absorb all they could send.

The light in which some people regard Canada as an emigration field is shown by an incident at the petty sessions at Wakefield, Yorkshire. Two brothers charged with fraud were bound over on the understanding that their uncle would send them out to Canada.

The affair will be conducted by the boys and girls themselves and will be in the form of a drawing. #### SOLD LIQUOR TO INDIAN

Magistrate Carss Sentences Man to Five Months for Giving Drink to Native.

For supplying liquor to an Indian of the name of William Lewis, Alec Fufent was given the maximum sentence by Magistrate Carss in the police court this morning. This was to pay a fine of \$300 or go to jail for five months. There apparently was not much option about the matter as far as the prisoner was concerned, and he will probably be sent down to New Westminster to serve out his sentence.

#### OIL BURNERS NOT SUCCESS

Engineers on C.P.R. Don't Like Oil Engines—One Hundred in Use in B.C.

Revelstoke, Oct. 23.—The results obtained from oil burning locomotives on the British Columbia division of the Canadian Pacific Railway are anything but satisfactory and both engineers and firemen are declaring in favor of the coal burning type of engine, while others are seeking to get transferred back to the freight service in order that they may be placed in charge of a coal burning engine. It is claimed by the engineers that the unsatisfactory showing made by the oil burners, originally designed to burn coal, is due to the fact that the tubes and boiler lining will not stand the increased heat. There are now over 100 oil burners in use on the B. C. division and should the company decide to reconvert them it will mean an expenditure of over \$2,000,000 not included in this year's estimates.

#### SAVED MONEY OF DRUNKARD

Police Find Drunk in Possession of Much Money and Deposit It for Him at the Bank.

The good offices of the city police were probably responsible for a man who arrived yesterday from the Doughty fisheries plant at Skidegate finding himself \$170 better off this morning than he otherwise might have been.

It appears that the man in question, who had come over to the city to meet some friends whom he was expecting on the boat, on their non-appearance on the Prince George, thought to gain some temporary solace by making a tour of the city, paying pretty regular visits to the saloons. Not being accustomed to such high life at Skidegate, it somewhat got the best of him and he was found in a pretty helpless condition by the authorities. This morning he was fined \$5 and costs, his friends, the police, directing him to a well known banking institution and seeing that he opened an account there.

Mr. Beaudette, before going south for the winter, thought he would pay a visit to the islands for the purpose of looking over the coal lands. He was unable to make more than a cursory examination of a part of the east coast, the weather at this time of the year being so unreliable that the small craft plying along the coast do not care to go out on an extended trip, and a visit to the west coast of the island was found impracticable. However, Mr. Beaudette was well satisfied with all he saw and will return in April, when a thorough and exhaustive study will be made

**The High Cost of Living.**  
Penticton, Oct. 23.—A rancher near Penticton planted five acres in cucumbers this season. Every acre produced upward of 12,000 cucumbers of market size. At 2 cents each the grower would have received \$250 an acre, or \$1,000 for the crop. He shipped two or three trial lots to Vancouver. The cucumbers sold at 25 cents apiece on the market in Vancouver. The wholesaler didn't return the grower enough to pay expenses of shipping.
