PERSONALS.

Mrs. Tutte, wife of Captain Tutte, officer in charge of the local branch of the Salvation Army, was a passenger south on the Prince George this morning.

The Prince John arrived from the islands at 1 o'clock this morning, long overdue, she having encountered extremely bad weather. She left again shortly for Masset with a number of passengers, including the party of settlers for Sewell City.

The steamer Camosun arrived at 3 o'clock this afternoon, several hours overdue, owing to her not leaving Vancouver on schedule. She left shortly afterward for Stewart and Granby Bay.

Mr. M. R. Jamieson, proprietor of the Northern Hotel at Stewart, left on the Camosun this afternoon for the latter place. Mr. Jamieson, who has been at the general hospital here for the last three weeks suffering from a severe illness, has recovered sufficiently to return home. His numerous friends are delighted to see him around again.

Mrs. C. H. Handasyde Jr. left on the Prince George this morning for a few weeks' visit to Seattle and the lower coast cities.

Hubert Ward, of the Parkin-Ward Electric Co., went south this morning on the Prince George for a few weeks' vacation for the sake of his health. Mr. Ward, who has been unwell for some little time past, will probably take a course at the Harrison Hot Springs before returning to his home in Prince Rupert.

TRAWLER COULD NOT MAKE SKIDEGATE

(Continued from Page 1.)

Columbia. After a comparatively uneventful voyage, barring the last two or three days' experiences, the Canada, as stated above, tied up at the cold storage plant here, and the Triumph made her ultimate destination, Skidegate.

The Canada took on a quantity of coal, over ninety tons, at Union Bay, on Vancouver Island, and it loaded her down to the gunwales, causing her to be almost unmanageable in the forty miles of bad water between Banks Island and Skidegate. She made two or three abortive attempts to make the passage and had a serious time of it for some hours, finally deciding to make for Prince Rupert and unload a portion of her cargo of coal before proceeding on her way to her home port.

A visit to the dock of the cold storage plant shortly after her arrival by a representative of The Daily News and an introduction to the cheery skipper and his crew proved of great interest, information and gossip relative to the voyage and the manner of procedure to be carried out in regard to working of the trawlers in these waters being furnished with the utmost courtesy and good nature.

The skipper and all of his men are fishermen first and foremost, having done practically nothing else all their lives. They express the greatest satisfaction with everything they have seen and encountered so far in their travels, and are unanimous in stating their desire to make the province their future home and establish themselves in this wonderful new land, where the opportunities are so great for themselves and the children that are to come after. Some of them are already casting around for information as to the best methods of getting their families out to join them.

The two boats that have just arrived, the vanguard of the fleet ready to follow as soon as actual experience has shown what the two former are able to do, are strongly built little vessels of from 100 to 120 feet long, with first rate accommodations for all hands and are ready to start right in trawling, possibly a week's time being taken to get the nets in readiness.

Leaving Grimsby on July 12th last, they have been four months out the 12th of this month. The skipper, William Quin, is most anxious to get down to work and have the nets out at the earliest possible opportunity.

Pilot J. F. Noel, an old time mariner of thirty years' experience in these waters, guided the Canada through the intricacies of the inside passage, and after landing her at Skidegate will return to his home in Victoria on the first boat going south.

Great interest will attach to the receipt of the report of the first haul made by the trawlers upon putting their great nets in the water.

FISH COMPANY LOCATES HERE

New England Fish Company Will Locate in Rupert Before Long—Will Station Boats Here

Although very reticent in regard to the plans of his company in connection with Prince Rupert, Mr. R. W. Payne, representing the New England Fish Co., Ltd., who went south this morning on the Prince George, after a short visit to the city, confirmed the announcement made some week's ago in the columns of the News, that the company would make their headquarters in this city.

Within two week's time a start will be made in getting ready for operations in these waters. The decision as to the exact location of the companies wharf and buildings is not yet settled.

Two vessels, the Celestial Empire and the Emma H., will be engaged in the fishing business, the catch being brought in packed ready in ice for shipment to Vancouver, and thence to the markets of the middle west and east. It is a matter of congratulation to the citizens of Prince Rupert to know that this powerful corporation are making an initial start this winter, furnishing an earnest of what may be confidently looked forward to as the real beginning of a branch of industry, that is going to play such an important part in the building up of this city.

James Matthews, late superintendent of the city electric light plant, left on the Prince George this morning for Vancouver, where, it is understood, he has accepted a position with the B. C. Electric Co.
