### "I like Social Credit Government ... and I'll tell you why"

"The linancial assistance I'm getting from the government is making it possible for me to complete my education at U.B.C. It's reassuring to know that if my high marks are maintained I will continue to receive help. Naturally, those of us who are gotting this assistance hope to stay in B.C. and have careers that will be part of British

Columbia's development. I feel too that the Social Credit Government is encouraging industry to come here and that means employment. When you look around and see the changes --the new highways, bridges, the Deas Tunnel and the ferry service to Victoria - you certainly feel that Social Credit' is a government that gots things done."

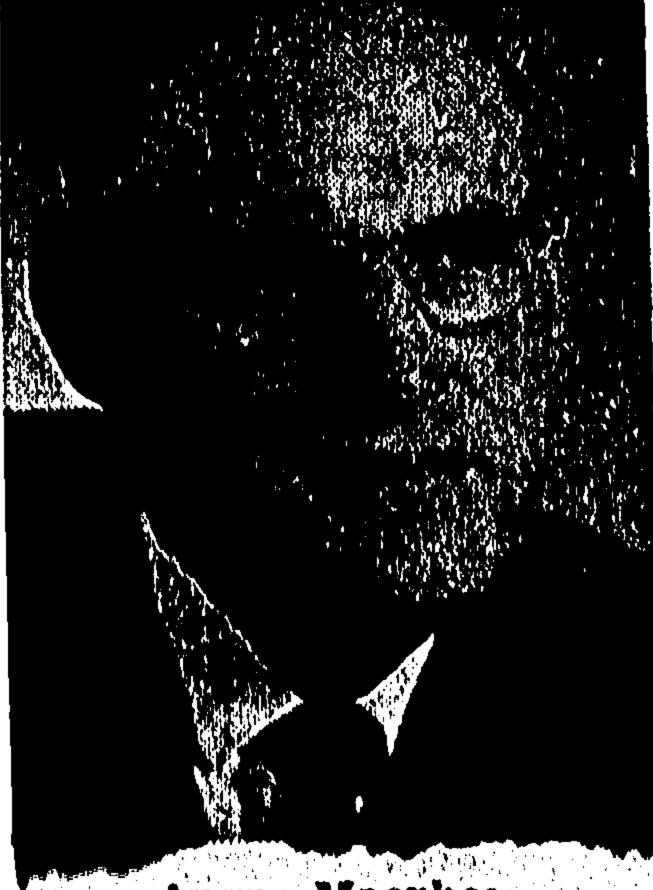

Issued and paid for by the British Columbia Social Credit League
