RESIGNATIONS ACCEPTED

Presbytery of New Westminster District Arranges for Induction

New Westminster, Jan. 25—At the meeting of the Presbytery of New Westminster district held yesterday in St. Andrew's Presbyterian Church in this city, the resignations of Rev. R. W. Collins of St. Aidan's church in this city and of Rev. R. J. Douglas, of Chilliwack were accepted. Rev. J. S. Henderson was appointed moderator of St. Aidan's Church and Rev. R. C. MacKay, moderator of the Chilliwack church.

Arrangements were made for the induction of Rev. J. R. Robertson of Nanaimo as pastor of St. David's church, Vancouver. It was also decided to start work on a new mission at Beaconfield. Services will be held in the hall until the congregation is strong enough to call a minister and build a church.

CANADA FISH AND COLD STORAGE CO.

The magnificent plant of the Canada Fish and Cold Storage Co., Ltd., which is the largest cold storage plant in the world that is operated solely for fish, is now running full blast. Every department is in perfect shape and a large staff of capable and efficient men are engaged in its operation. G. H. Collins, organizer of the enterprise, and W. R. Lord, the well known cannery man who is in charge of that end of the business, are both on the ground taking personal interest in the conduct of affairs.

NEW MATERIAL DISCOVERED FOR AEROPLANE CONSTRUCTION

IS LIGHTER AND TOUGHER THAN CANVAS AND WILL MAKE THE AEROPLANE INVISIBLE.

Washington, Jan. 27.—The invisible aeroplane is now a possibility, owing to a new material discovered by government aviation officers. This material is like transparent celluloid and much like the backing now used for photographic films. It is non-inflammable, flexible and tough. One of the features of the material is that it can be bought by the gallon rather than the square foot, and can be molded into any form of plane covering without stretching the frame. It has been tested for strength and weight, and is both lighter and stronger per square foot than canvas. It is smooth as glass, so that the element of friction, which is considerable in an aeroplane, is reduced to a negligible factor. The engine, the aviator and the frame of the machine are still opaque as usual, but it has been found by experiment that when five hundred square feet of surface are made invisible the aeroplane when stood on edge practically is invisible at five hundred feet. This is much closer than an aeroplane will ever operate under war conditions, and with a muffled motor the aeroplane will wings of the new material would not only be unseen but unheard.

COMPASS WILL SAVE COAL

New Invention Will Enable Ships to Maintain Steadier Course

Washington, Jan. 27.—Tests with the new "Gyroscopic" or "battle" compass, reports to the navy department say, have demonstrated that it not only is an improvement over the magnetic compass, but that it will pay for its cost within two years in the amount of coal saved. That saving would be accomplished because a steadier course can be maintained by the new compass and changes in speed to regain headway would be reduced.

Tender for City Coal.

Rogers & Black's tender for the supply of some 300 tons of coal to the city was opened at last evening's meeting of the City Council. The price submitted was \$8.75 a ton, and an assurance was given that although the coal situation was in very straightened state just at the present time they would do their utmost to comply with all the conditions but would not care to absolutely bind themselves. On the suggestion of the Mayor the matter was referred to the Fire and Water committee with power to act.

TRY A NEWS WANT AD

Be Suspicious

BE suspicious of that of which nobody is proud. Be suspicious of the mere low-price argument offered in favor of an article with no reputation, no backer, no guarantor.

Better buy the thing you know and can trust, than an article unbranded and unvouched for.

The branded shoe, made by a maker with a reputation, is a safer shoe to buy than the one made in an unknown factory by an unknown maker.

The underwear made by a firm whose name is as familiar to you as your own, is worth more to you than underwear nameless or labelled by a maker of whom you have never heard.

Tea sealed in a packet bearing the name of a reputable firm is to be preferred to tea of which the packer is not sufficiently proud to advertise its quality.

That in which much money has been invested to make or keep it good is worth more than that on which nothing or but little has been spent.

Peace of mind is worth something, just as quality is. Buy peace of mind.

When you buy anything worth while buying, buy that of which you know—from advertisements, or from other dependable acquaintance. Buy the article with the "money back" guarantee—with the pledge of a known name behind it.

Put your faith in the advertisements appearing in good newspapers. Beware of the article that cannot stand the spot-light of publicity. The commodity an advertiser backs with his own money is something worth your buying.

Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 503 Lumsden Building. Enquiry involves no obligation on your part—so write, if interested.
