FRIENDS OF INDIANS JUSTIFY THEIR METHODS

(Continued from Page 1.)

based your criticism of our organization.

We have not adopted the policy of stirring up the rank and file of the Indians, but on the contrary have adopted and carried out, with a large measure of success, the policy of seeking to prevent trouble and allay unrest among them.

We have not sent letters to the Indians urging them to defend their rights, but the Indians, notably those of your own Diocese, have frequently sent us letters expressing appreciation of our efforts and asking us to continue them.

We have not circulated petitions among the Indians for their signatures and so far as our information extends no one has done so.

We have not summoned delegates to meet in conference. We know that on several occasions such general meetings of Indians have been held, but they have been summoned by the Indian Rights Association, an organization of the Indians of the Province entirely distinct from and independent of our own.

We have not collected from the Indians large sums of money or any sums of money, but on the contrary we and those outside the Province who have aided us, have expended upward of \$10,000, in seeking to secure for the Indians a just dealing with their claims and to bring about a solution of the problem presented by present conditions.

If you will enquire from the Indians in your Diocese, whom we have found to be not at all "children" as represented by some, but quite able to speak for themselves, we are very sure that they will fully confirm what we have above stated, for they must know that there is not the slightest ground for the various statements which you have made.

You concede that there are grievances which should be investigated and you rejoice in the intended appointment of a commission, which so clearly proves that all the Governments concerned are actively moving in this matter. But you seem to forget that this very promising state of affairs has been mainly the result of our own representations upon many occasions during the past three years made to the Government of the Province, the Government of Canada, and the Imperial Government. You also fail to take into account the fact that the proposed commission will be appointed under an agreement which deals exclusively with the matter of reserves.

It is a matter of great surprise to us that you should, to some extent at least, seek to convey the impression that "veteran missionaries" do not approve of our efforts. We believe the truth to be, in a marked degree, the opposite. Indeed the only adverse criticism coming from missionaries working among the Indians of which at present we have knowledge, consists of your own remarks made in your charge and letter and those of two members of your Synod made at its last meeting.

The veteran missionary, Mr. William Duncan, who founded the missionary work among the Northern Indians now under your charge, took exactly the same view regarding the necessity of dealing with the claims of the Indians which has been acted upon by us. This view was strongly stated in a letter addressed by him in Ottawa to the late Sir John Macdonald on 19th June 1885 and again in a letter which he addressed to the same statesman from Metlakatla on 29th May 1886, from which we take the following extract:

"I do sincerely hope the Government will without delay adopt a course which will result in settling the minds of the Indian on the land question before some fatal blow is given to the peace of the country."

We also have in our possession ample and most convincing proof of the interest and approval of the great body of the missionaries of this Province working among the Indians, including several letters from leading missionaries of your own Diocese.

Our object is precisely what

WORKS OF ART IN COUNCIL CHAMBER

Ex-Mayor Stork Presents City with Portrait—Other Works of Art Will Decorate the Walls.

Upon the opening of the weekly meeting of the city council last evening all the Aldermen were in their allotted seats and there was a fair attendance of spectators. Adorning the walls of the council chamber for the first time was a fine portrait of the handsome and debonair Captain Fred Stork, the first mayor of Prince Rupert. Also a fine photographic reproduction of the several pages of the historic scroll of welcome prepared by Mr. Morte Craig and presented to His Royal Highness the Duke of Connaught, Governor General of Canada, upon his visit to this city last Summer.

Shortly, City Clerk Woods announces he will have in place to keep these two fine pictures company the splendid work of art generously donated by Mr. D. M. Bain, the well known photographer, representing the 1912 council together with portraits of H. R. H. the Duke of Connaught and the late Mr. C. M. Hays, the father of the G. T. P. who met such a lamentable fate in the frightful Titanic disaster which took place nearly a year ago.

In regard to the portrait of Captain Fred Stork a letter was read from that gentleman announcing his donation of the portrait as a gift to the city. A motion expressing the thanks of the council for the same was moved by Alderman Naden and seconded by Alderman Kerr and carried unanimously.

you state to be yours—a practical settlement in the best interests of the Indians. But we cannot agree with your opinion so plainly disclosed by your letter, that such settlement should be based upon considerations of expediency arising from what you call "present conditions," and those considerations make it necessary to regard as "preposterous" the simple, and we venture to think reasonable claim which the Indians are making that they should be dealt with as the aboriginal inhabitants of this Province and as such having some rights.

Our conviction is that such settlement should be based upon those eternal principles of righteousness and justice which are fundamental to every truly Christian civilization, and have been the glory and strength of the British Empire.

We cannot close this letter without saying how deeply we regret the necessity of entering upon a controversy with one of the missionary leaders of this Province whom we had expected, we think reasonably, to be one of the strongest friends of our movement, and also the fact that you have not seen fit to adopt the suggestion made by our Chairman that you confer with us in the hope of arriving at a better understanding.

Yours very truly,
JAS. McQUEEN,
Acting Chairman.

When the People Refuse to Pay

EVER since King John signed the Magna Charta the people have been discovering new rights and asserting them.

Long ago the people learned how to get what they wanted—by the simple expedient of "refusing to pay."

In the days when kings played "war" with one another the people could always put a sudden end to the fun by "refusing to pay."

To-day, when men play the great game of business, they have to depend on the people, even as did those kings of long ago. When the people stop payment, the game ends.

Of high importance is "the right to know" as applied to modern commerce. The people have found they want a "reason why" before they buy.

We awoke to this fact but a short while ago, when a few manufacturers began to tell us some of the things they thought we should know about their goods. They were the pioneer advertisers.

It's the same with well-nigh everything we buy—food, clothes, furniture, pianos, automobiles. We will have the facts about these things—or we will refuse to pay.

We, the public, have created a new world force. We call it "Advertising."

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or through the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—so write, if interested.
