CLOSURE RESOLUTION IS EXPECTED AT ANY TIME

PRESIDENT WILSON READ HIS OWN MESSAGE TO CONGRESS—AIRSHIP PLANT FOR HALIFAX

CLOSURE RESOLUTION WAS NOT INTRODUCED LAST NIGHT

BE LIEVED THAT IT WILL BE BROUGHT DOWN SHORTLY AND THAT LONG DEBATE ON IT WILL CERTAINLY FOLLOW.

(Special to The Daily News.)
Ottawa, April 9.—The naval committee resumed last night by Hon. White, minister of finance, declared that Winston Churchill had made it plain that Canadian ships were not forthcoming for the defence of the empire, the burden would have to be placed on others, as the British Isles themselves could not carry the expense of defending the whole of His Majesty's dominions. Several Liberals then took part in the debate, which continued until 2 o'clock this morning.

After Premier Borden's statement on Monday that a date would have to be fixed for the termination of the debate, it was anticipated when Minister White rose that he was about to move a closure bill. But while the resolution for closure was not actually brought down it is believed to be in the air and likely to be introduced at any moment. This is the predominant subject of gossip in the corridors of the house and in hotel lobbies, and it is conceded on both sides that when it is introduced its discussion is certain to occupy the attention of the house for several days.

PRESIDENT WILSON READS HIS FIRST MESSAGE TO CONGRESS

MAKES LONG ESTABLISHED PRECEDENT—NEWS PRINT PAPER BEING ON FREE LIST LIKELY TO HELP CANADA.

(Special to The Daily News.)
Washington, D. C., April 9.—The first time in the history of the United States since 1797, President yesterday read his message to Congress. The President to take this course Quincey Adams, so President breaks in on a long established precedent. It is one of the precedents that the President seems likely to establish for himself. The veteran anti-army of the Senate yesterday afternoon, instead of announcing "A message from the President," simply announced: "President," and Mr. Wilson on the dais at the right of Vice President and read his message.

road machinery, news print paper, wood pulp, cotton bagging, barbed wire and steel rails. The President was reported to have withstood renewed attacks upon the free raw wool schedule, as embodied in the bill to be introduced from the ways and means committee, and delayed decision only on the sugar schedule, left open for senators and representatives from Louisiana and beet sugar states to accept free sugar in three years. So firm is the President's attitude reported to be, an attitude backed by the majority of his party in both branches of congress, that an effort of legislators to escape a caucus pledge on the wool schedule would not be tolerated.

The News in London.
London, April 9.—The Liberal newspapers characterize the new American tariff bill as the greatest blow to protectionists since Sir Robert Peel established free trade in England.

MORE CAPITAL IS OBTAINED FOR THE CANADIAN NORTHERN

RAILWAY FRERES TO BECOME PARTNERS IN RAILWAY—THEY ARE ALSO INTERESTED IN SEAL COVE COLD STORAGE PLANT.

Montreal, April 7.—There is a new here to the effect that Sir William Mackenzie is about to make a very important connection with the financial reorganization of the Canadian Northern Railway Company, and when it is consummated, the great house of Lazare Freres & Co. will be a partner in Sir William Mackenzie and Donald Mann in their transcontinental enterprise.

for several years past. These enterprises include the Canadian Western Lumber Company and the Canadian Collieries (Dunsmuir), Ltd. The same banking house subsequently acquired a large interest in the Canadian Fish and Cold Storage Co., Ltd., controlled by Sir William Mackenzie, and which recently completed a \$1,000,000 cold storage plant at Prince Rupert. It is understood that clients of Lazare Freres are also large shareholders of these various securities.

TO BUILD AIRSHIPS

If Airships Can Be Constructed in Canada, Why Not Warships.

(Special to The Daily News.)
Halifax, April 9.—This city is likely to have an airship plant established in a very short time. English manufacturers are now here enquiring into available sites, their design being to establish a plant for the construction of aerial machines for army purposes.

POOL ROOM MANAGER PAYS COSTS IN CASE

Infraction of Law Result of Not Understanding Its Meaning and Intent.

M. J. Roche, proprietor of the pool room in the Empress Theatre block, was called upon this morning to answer to a charge of infraction of the pool room by-law. The only evidence taken was that of the constable who laid the information and Mr. Roche. Magistrate Carss took the view that the accused did not properly understand the meaning and intent of the law in the matter and let the accused off on payment of the costs in the case, \$2.00.

PAY TEN DOLLARS EACH

Indians Charged with Drunkenness Fined by Magistrate This Morning.

The five Indians who appeared in police court yesterday charged with drunkenness were each fined ten dollars this morning. Ellen Kennedy, the woman who was also charged, was let off.

MORE RUSSIANS BOUND FOR BRITISH COLUMBIA

Over Two Thousand Landed at Halifax with Plenty of Money.

Halifax, N. S., April 6.—The strides Russian immigration to Canada has made since its inception a year ago, were strikingly shown at Halifax in the past 48 hours, when two big liners debarked a total of 2,477 people, nearly all men, who intend settling in the Canadian West, many in British Columbia.

So well supplied with money were the 1,500 odd passengers who left the Russian-American steamer Kursk, arrived on a special voyage from Libau yesterday, that the exchange brokers had to close out, short of funds after exchanging \$20,000 in Russian roubles into Canadian money.

The annual spring rush of immigration to Canada is in full swing and so great is the demand for passage on the other side that bookings have been completed on all ships sailing during the next month. To provide for this record influx the Hesperian left Liverpool last Wednesday on a specially arranged trip carrying the largest number of passengers embarking for Canada in recent years on one ship. She has a complement of 1,791 to land.

GREAT GRAIN SHIPMENTS.

(Special to The Daily News.)
Winnipeg, April 9.—Two hundred forty-seven million two hundred seventy-five thousand bushels of grain of all kinds were hauled out of Western Canada by the Canadian Pacific Railroad between September last year and March 31 this year.

FINES FOR MONTH TOTAL OVER \$500

Regular Meeting of Police Commission Was Held Yesterday Afternoon.

The regular monthly meeting of the police commission was held yesterday afternoon, present Mayor Pattullo, G. P. McCall and Chief Vickers.

The chief's report showed that the total fines for the month of March amounted to \$528. There were 21 cases of drunk and disorderly, all convicted, two cases of theft, one person being sentenced to two years and the other to one month, two cases of vagrancy, a term of five months at New Westminster being imposed in one case and the other vagrant being ordered out of the city. There were three charges of selling liquor without a license. Two of the accused were found guilty and one was let off on suspended sentence. For breach of the pool room bylaw there was only one charge in which a conviction was entered and the usual fine imposed.

Constable Shields, who has now been on the force a year, was elevated to the same standing as the other members of the force.

BURNED LARGE MANSION

Militant Suffragettes Destroy an Unoccupied House Near Norwich.

(Special to The Daily News.)
London, April 9.—Militant suffragette incendiaries set fire to and destroyed a large mansion in the suburbs of Norwich last night. The house was not occupied. The perpetrators of the outrage escaped.

ASSAULT CASE WAS AGAIN ADJOURNED

Further Evidence Wanted in Assault Case Between Two Colored Men.

B. W. Williams, colored, appeared before Magistrate Carss this morning in connection with the charge of assault preferred by Charlie Long, also colored. It appears that the two engaged in an argument over the possession of money belonging to a white man named Williams, who was very much under the influence of liquor and who, Long states, asked him to take care of it. Long says that he left Williams, white, in his (Long's) room and that later he saw Williams, colored, enter the room and go through the other man's pockets. This brought on the trouble which ended in a general melee in which Long got hit over the head with a bottle and Williams, colored, sustained a gash in the hand. W. E. Williams of Williams & Manson for the accused desired to again cross-examine one of the principals this morning, also to have another witness called, Williams, the white man. The case was therefore adjourned until tomorrow morning.

HOLDUP FOOTPAD GETS LIFE SENTENCE

Crook Who Has Spent Nearly All His Life in Convict Garb.

Vancouver, April 5.—George Wilson, a holdup by profession, a crook who has spent nearly all of his life in the convict's prison garb, whose black history of crime by his own statement has covered all but three years of his life since his first unlawful act when he was fifteen years old, will now spend the remainder of his red and checkered career behind the walls of the British Columbia penitentiary. Yesterday he came before Mr. Justice Morrison in the assize court and was punished to the limit of the law. He was sentenced for life.

The sentence is one seldom meted out to a man charged with the offence laid against Wilson, that of holding up with intent to rob and shooting with intent to kill J. H. Sinclair, and is said by officials to have but one precedent in the history of British Columbia, that of the criminal found guilty of holding up "Honest" John Oliver.

EARLY START TO BE MADE ON GOVERNMENT BUILDINGS

ENGINEER COX WILL ARRANGE PLANS SO THAT THERE WILL BE LITTLE DELAY IN BEGINNING TO EXCAVATE.

Mr. A. C. Cox, the engineer engaged by the provincial government to prepare plans for the permanent government buildings to be erected at Market place, arrived in the city this morning on the steamer Prince George. In company with the local member, Mr. William Manson, M. P. P., he went carefully over the ground this morning. Mr. Cox will lose no time in the preparation of plans in order that the work may start at the earliest possible moment. After the plans have been prepared they must be approved by the department of public

works, but Mr. Cox intimates that everything will be done toward making an immediate start on the clearing of the site and the excavation.

While no definite estimate has been made as to the cost of the proposed buildings, it is likely that at least \$300,000 will be spent on them. The first appropriation of \$100,000 was made at the last session of the legislature.

F. H. Mobley left on this morning's train to visit the salt beds in which he is interested at Mile 46.

LAND EXPROPRIATED FOR THE FEDERAL GOVERNMENT BUILDING

BUILDING WILL PROBABLY BE OF STONE IN KEEPING WITH THE BUILDINGS TO BE ERECTED BY PROVINCIAL GOVERNMENT

There was filed yesterday with H. S. McLeod, the registrar of land titles, expropriation papers placing in possession of the Crown the lots on Third Avenue, in block 34, and numbered 16, 17, 18 and 19. These were the property of Verner W. Smith, manager for Foley, Welch & Stewart, and now resident at Hazelton.

The question of the price to be paid for the property will be fixed by the Exchequer Court, and should its decision not be satisfactory to both parties recourse will be had to arbitration.

Parliament has already voted \$75,000 for use this year, with other grants to follow, in the erection of a permanent building on the property and the work of construction will probably proceed very shortly. As the government has already decided that the building to be erected must be in keeping with the other permanent buildings to be erected by the provincial government

ment and the Grand Trunk Pacific, it will probably be of stone and of an imposing design. Mr. Alfred Carss had charge of the filing of the expropriation documents.

PRINCE GEORGE ARRIVES WITH FLAGS AT HALF MAST

SAILOR NAMED CARAVAN FELL OVERBOARD ABOUT AN HOUR BEFORE REACHING PORT AND WAS DROWNED.

As the G. T. P. steamer Prince George approached the wharf this morning on her arrival from the south it was noticed that her flags were flying at half mast. It was learned on making inquiries from the officers that about an hour and a half before the ship's arrival here a sailor named A. Caravan had slipped and fallen overboard from the upper deck where he was engaged with two other sailors tightening the canvas over the life boats. The unfortunate man was on the outer edge of the life boat while the other two were on the opposite side. Consequently they did not see him the moment he slipped. Another sailor saw him fall into the water and immediately gave the alarm "Man overboard." Owing to the narrowness of the channel where the accident occurred it was impossible to turn the big steamer around, which is the ordinary procedure under such circumstances. Engines were at once reversed and the Prince George backed as near as could be judged to the place where the man had fallen in. A boat was lowered and a thorough search was made, but all that

could be found was the unfortunate sailor's cap. The man was wearing heavy sea boots and must have sunk almost immediately as he could not be seen anywhere. The boat was delayed about an hour when the search was given up and the George arrived in port about fifteen minutes late.

Caravan, who was about twenty years of age, came from Newfoundland. He had been one of the crew since the beginning of last season. He was much esteemed by his fellow sailors, who are greatly grieved over the unfortunate affair.
