### Why You Should Buy A Gurney - Oxford Range

Because the Gurney Economizer saves 1 ton of coal in every 6 burned in other ranges.

Because the Economizer gives you absolute control of your stove and the fuel consumption. Because the range is air tight and conseuently does not waste the heat.

Because its new Special Grate is another fuel saver and the stove is shaken with one operation. Because its Divided Flue makes every hole

cooking hole.

Because of its sanitary artistic design. Because of its Broiler equipment.

Because of its polished top which requires no stove polish.

Because of its roomy over-size oven which results in perfect baking of any article of food.

The Gurney-Oxford range will do everything that a stove is intended to do-and infinitely more in that it has four scientific fuel-and-laborsaving devices that are exclusive - the Economizer, the Divided Flue, the Special Grate, and

A Gurney-Oxford will prove of inestimable worth in your kitchen. It will save your time, it will never aggravate your temper, it will end your trials.
