PRICE FIVE CENTS

POWERS LIKELY TO TAKE ACTION ON SCUTARI

AUSTRIA DETERMINED TO POSSESS SCUTARI—LUTHER McCARTY OUTFOUGHT FRANK MORAN

ALIEN LAND ACT HAS PASSED THE CALIFORNIA LEGISLATURE

GOVERNOR WILL SIGN THE MEASURE TODAY — PRESIDENT CONSIDERING WHETHER IT IS IN CONFLICT WITH TREATY OBLIGATIONS

(Special to The Daily News.)
Sacramento, May 1.—The Alien Land Act has been passed by California. Hon. W. J. Bryan's efforts to prevent this were unavailing. The signature of Governor Johnson of California will be attached to the Act today. Under this act, Japanese will be barred from holding land.

The governor of California has made a strong case for the state. It is the federal and not the state authorities who have made the Japanese ineligible for citizenship. California only proposes that those ineligible for citizenship shall not hold lands. The national discrimination begins at Washington, not at Sacramento in his opinion.

GOVERNOR JOHNSON.

The News in Washington

Washington, May 1.—President Wilson will have the Japanese ambassador sounded as to probable reception in Japan of the California alien bill. Meanwhile the legal officers of the

state department are to be called upon to render an opinion as to whether the language of the bill can be considered as discriminatory or in conflict with any treaty obligations. Secretary of State Bryan is to stay in California until the whole matter is definitely cleaned up.

AUSTRIA TAKES FIRST STEP TO FORCE WAR WITH MONTENEGRO

HAS RECALLED HER MINISTER FROM CETTINGE—UNDIGNIFIED REPLY OF MONTENEGRO TO POWERS—AMBASSADORS MEET THIS AFTERNOON

(Special to The Daily News.)
London, May 1.—A conference of the ambassadors of the powers is to be held here this afternoon at which Montenegro's reply to the note calling upon her to evacuate Scutari will be considered. The reply is said to be the effect that she is too busy to present to bother with politics and that she will consider the Scutari affair after the Easter holidays. This note is considered flippant and undignified and the result of the conference may have a far-reaching bearing upon the future of the kingdom of Montenegro.

her military successes makes an especially bad impression. "The political and military prestige of Europe has suffered by the fall of Scutari. If their injury to their prestige, this check to their actions, is a matter of indifference to the Powers, Austria cannot follow them along such a path. It must insist with all the emphasis at its command on a remedy being found as speedily and thoroughly as possible.

"The minimum she demands is the immediate presentation by the Powers to Cettinge of the protest they have already decided upon in the form of a vigorous demand for the evacuation at once and in the event of a refusal the adoption of further military measures for the forcible carrying out of the will of Europe. Any hanging back on the part of Europe from this minimum would excite feelings of dissatisfaction and bitterness in Austria-Hungary. It will be to Europe's interest to prevent this."

Germany to Assist

Vienna, May 1.—It is reported that Germany has promised to support Austria under all circumstances. Much significance is attached to the conference which the foreign minister and minister of war had with the Emperor at Schoenbrunn. The conference lasted until 8.45, although the Emperor usually retires at 8 o'clock.

RICHEST ORE YET STRUCK AND THE BIGGEST ORE BODY

ENCOUNTER A FOOT OF SOLID METAL, ONE-HALF OF WHICH IS GREY COPPER, IN MINE OF HARRIS BROS.

"The richest ore yet struck and the biggest body," is what Duke Harris says about the new strike made on the American Boy No. 3 vein last Thursday morning, says the Omineca Herald. The boys had been cross-cutting from the lower level in the shaft

and fifty feet south of the face of the drift they cut into the main vein again and encountered a foot of solid metal, one-half of which is grey copper. The vein itself is two and a half feet wide

CHINESE DEPORTED AFTER THEY'RE DEAD

Ship to Sail from San Pedro Next Month with a Cargo of Six Thousand Bodies.

Los Angeles, April 26.—Some time next month a ship will leave San Pedro with the most gruesome cargo that ever left Southern California. The cargo will consist of the remains of nearly 6,000 Chinese who have died in this country in the last fifty years. It will be the largest single shipment of human remains in the world's history and the preparations have been carried forward so quietly that no comment has been occasioned.

Nearly a year ago the Chinese Consolidated Benevolent Association of San Francisco, sometimes known as the Chinese Six Companies, took out permits for the removal of the Chinese who are buried in California. The bodies are carefully wrapped, each in a separate piece of soft cloth, and then placed in boxes and carefully sealed.

STEAMER CURACOA IS STILL STUCK IN MUD

Could Not Float at High Tide, According to Wireless Received This Morning.

Through the Digby wireless station J. H. Rogers, local agent for the Pacific Coast Steamship Co., received a message from the captain of the stranded steamer Curacoa that it was found impossible to float the vessel at high tide. He reported that the vessel was resting easily on the mud flats.

Craig, Alaska, where the steamer is stranded, is about sixteen or eighteen hours' run from Prince Rupert. The City of Seattle, southbound, was due to pass that point about 2 o'clock this morning. It is possible that the latter vessel has been able to render the necessary assistance to the stranded steamer. The City of Seattle is due in Prince Rupert, southbound, about 5 this afternoon.

DUCHESS OF CONNAUGHT

Condition of Her Grace Still Causing the Greatest Anxiety.

(Special to The Daily News.)
London, May 1.—The Duchess of Connaught passed a fair day yesterday and rested well during the night, but her condition is still causing the greatest anxiety.

STEAMER ESTEVAN IS DAMAGED BY FIRE

Government Steamer Damaged While Tied Up at North Vancouver—Fire Confined to Pilot House.

The Dominion government steamer Estevan, whose home port is Prince Rupert, was damaged by fire, supposed to have been caused by a spark from a passing steamer. The damage, which is estimated at \$600, was confined to the pilot house. The fire occurred while the steamer was moored at the Wallace ship yards, North Vancouver.

DAIRYMAN ASSAULTED; TOM O'BRIEN IS FINED

Trouble Arose Over Cows Allowed to Run at Large—Words Led to Blows.

Tom O'Brien appeared in police court this morning charged with assault, the complainant in the case being C. Hahn of the Swiss Dairy. The trouble between the two men seems to have arisen over some cows owned by the Swiss Dairy which have been allowed to run at large. Hahn went to see O'Brien to inquire if he were going to lay a complaint with the police. One word led to another until the argument became too heated for words with the result that O'Brien struck Hahn. Magistrate Carss, after hearing the evidence, imposed a fine of \$5 and costs.

One drunk was assessed the usual fine.

EVIDENCE OF ONE MAN AGAINST ANOTHER

Charge of Theft of Money Was Dismissed by Judge Young This Morning.

The case of Jimmy Walsh, charged with the theft of \$178 from a man named Sullivan at the Knox Hotel while the latter was too drunk to take care of himself, occupied the attention of Judge Young this morning. Noel, the clerk at the Knox, repeated his story of the alleged theft as at the preliminary hearing, to the effect that he saw Walsh take the pouch containing the money out of Sullivan's pocket and that he immediately took it away from Walsh. The latter, on the contrary, said that he took the pouch out of Sullivan's pocket in the presence of some ten or a dozen men in the room adjoining the bar and that he immediately handed it over to Noel, telling him he had better count it and give Sullivan a receipt. Certain evidence was produced to corroborate this story. Walsh also testified that there had been a good deal of trouble in his dealings with Mr. Besner, the proprietor, and Noel, the clerk, in regard to the purchase of liquor and shortage of change. He said they had made threats to have him "pinched" when he demanded the money due him. Walsh also gave evidence as to the buying of liquor at the Knox during prohibited hours and that when he had ordered a bottle of "Devar's" he was given a bottle with the seal broken and inferior liquor in it.

Sullivan, the man who is alleged to have been robbed, when questioned as to various circumstances, said he could not remember. Finally His Honor asked him what was the first thing he did remember, to which he replied in full Irish brogue: "Your Honor, the first thing I remember was the next day."

Considering all the evidence, His Honor said he could not convict and the case was dismissed. Mr. Manson, of Williams & Manson, appeared for the accused who has been a resident of the province for a number of years and whose record has been a comparatively clean one.

ADMIRAL KINGSMILL PLEASED WITH CITY'S DEVELOPMENT

INSPECTED COLD STORAGE PLANT, DRILL HALL SITE, RESERVOIR AND G. T. P. DRY DOCK—LEFT THIS MORNING FOR STEWART.

Rear Admiral C. E. Kingsmill, commander and director of the Canadian naval service, who visited Prince Rupert yesterday on official business, was astonished and delighted at the many evidences of growth and development of the city since his last visit here two years ago. In company with Mayor Pattullo, His Honor Judge Young, William Manson, M. P. P., and Captain Fred Stork, a visit was made to the cold storage plant, where the admiral was given a splendid opportunity of seeing for himself the present extent of the fishing industry and the preparations that have already been made for taking care of that trade on a much larger scale. A general tour of the city was made and the reservoir on Acropolis Hill was inspected. A visit was paid to the drill hall site which occupies a commanding position on Acropolis Hill.

was greatly impressed with the necessity for ample protection for the local fisheries and that he would urge upon the government that additional protection be supplied. Two new steamers with a speed of 14 knots are now being built and both are expected here within less than a year.

During the afternoon Admiral Kingsmill visited the G. T. P. dry dock and was greatly interested in all the details of its construction. J. H. Pillsbury, engineer in charge, accompanied the admiral on his inspection of this important undertaking.

The admiral left this morning on the Prince George for Stewart and will proceed south on Friday morning.

CHEAPER COAL TO BE EXPECTED FROM THE INTERIOR VERY SOON

GANGS OF MEN STARTED TO DEVELOP THE EXTENSIVE COAL BEDS NEAR THE RAILWAY LINE AT MORRISCTOWN.

Coal for fuel next fall and winter, and at a price less than hard wood, is the very pleasant outlook for the people of this district, says the New Hazelton Miner. Last week James Wright, general manager for the Grand Trunk B. C. Coal Co., of Vancouver, arrived in town with some old country miners and left immediately for the company's coal fields, about fifteen miles up the Bulkley River. Mr. Wright spent several days there with the men and got the camps in shape and the work started and then came to town for more supplies.

Mr. Wilkie has been given a contract to drive a two hundred foot tunnel into the six foot vein, and that work is now going on. Mr. Wilkie has been connected with coal mining in Scotland and in this country all his life and he knows the practical end thoroughly. His opinion in regards to the Twenty Mile coal fields is that they are equal to, if not ahead of, the best Vancouver Island coal, and he is confident that he will dig out coal this summer that will surprise the whole north.

With favorable conditions the Grand Trunk B. C. Coal Co. should have the first carload of coal ready by the time the railway is ready to handle it, and if the railway will give anything

like a reasonable freight rate the coal can be sold in New Hazelton and Prince Rupert at a price which will cause an immense saving in domestic expenses.

WHITECHAPEL BY-ELECTION

The Unseated Member Defeats the Unionist Candidate by a Substantial Majority.

(Special to The Daily News.)
London, May 1.—The result of the by-election in Whitechapel, caused by the unseating of Sir Stuart Samuel, was that yesterday Sir Stuart was re-elected by 1,722 votes against Captain Brown's 1,556, the latter being the Unionist candidate.

THE WEATHER.

The weather report at 5 o'clock this morning read: Barometer, 30.115; maximum temperature, 46; minimum temperature, 40; precipitation, .31 inch.

April Summary—Mean temperature, April, 42.9; maximum temperature, 57, on the 11th; minimum temperature, 34, in the 6th and 29th; precipitation, rain, 8.85 inches; snow, .10 inch; total, 8.95 inches.

Mrs. J. C. A. Long, who arrived yesterday morning from the south, left on the Prince John last night to join her husband at Masset.

WELL KNOWN YUKONER RETURNING NORTH TODAY

Percy Reid, mining recorder at Carcross, in the Yukon, was among the passengers en route north on the Princess May today after a visit to Ottawa and other eastern cities. Mr. Reid is well known among many of the old time residents of the Yukon now living in Prince Rupert.
