UNITED STATES MOVING HER ATLANTIC FLEET TO PACIFIC, FEARING TROUBLE WITH JAPAN

BRYAN'S FAILURE TO IMPRESS  
THE CALIFORNIA LEGISLATURE

PRESIDENT NOW FEARS TROUBLE WITH JAPAN AND IS PREPARING TO SEND THE ATLANTIC FLEET TO PROTECT THE PACIFIC COAST

(Special to The Daily News.)  
New York, May 2.—A special dispatch from Washington is published in Hearst's newspaper that the United States government is preparing to move its Atlantic fleet to the Pacific, fearing a possible attack upon the Pacific coast in the event of serious trouble with Japan over the California Alien Land Act.

Bryan's Mission Failed

Sacramento, May 2.—Hon. W. Bryan, Secretary of State, left tonight for Washington, his mission having failed.

California, in the fullness of right as a state, may enact a law barring Orientals from membership of land, but such action would be against the earnest wish of President Wilson, and the national administration.

This was the substance of the message he delivered as the personal representative of the President and as Secretary of State. The message was delivered at a secret conference attended only by Governor Johnson, Lieutenant-Governor Wallace and the one hundred and twenty members of the Legislature.

"I have said all that I have come to say," announced the senator, towards the close of the meeting. He added that any further advances to the legislature would require special authorization from Washington.

When asked whether the arguments of the secretary of state had changed his opinion on the matter, Governor Johnson replied one word, "No."

Stand Taken by Governor.

The position on the passage of the alien land act taken by

Governor Johnson and stated in reply to Secretary of State Bryan may be summed up as follows:

"The bill proposed for passage by the California legislature can call forth no just criticism from the national administration, nor from any foreign nation."

"Here in California it is not a question of whether the Japanese government takes offence at what we do, but whether we give that government just cause for offence. I do not believe that the proposed law prohibiting ownership by aliens who are ineligible to citizenship gives the Japanese just cause for taking offence."

Bryan in Conclusion.

Toward the close of the conference Mr. Bryan rose and said: "I have said all that I came to say. I have answered all of the questions that have been asked, and my mission here is ended whenever you may feel that you have conferred as much as you like with the representative of the President."

"I came with no programme. Simply to confer. I have presented the President's views as I understand them. I have communicated to him this afternoon several propositions after listening to what you have had to say. Tonight I shall submit to him the further questions you have asked me, calling attention to the statutes of Washington and Arizona, and I shall be prepared tomorrow, I hope, to give you his answer."

Those who expected Secretary Bryan to expound a new theory of states rights were disappointed, as were those who expected rumors of war or other sinister predictions.

ENEMIES OF EMPIRE  
OPPOSE RECIPROCITY

London Newspaper in Discussing Effect of Centennial of Peace Celebration

London, April 29.—The Daily News and Leader (Liberal) editorially discussing the peace centenary celebration between England and the United States, says: "Next year's commemoration will bring this country into complete sympathy not only with the United States but with Canada."

"Canada, it is important to remember, has as profound an interest in Anglo-American peace as we have. Her borders run for thousands of miles side by side with those of the United States and not a fort or a gun or a sentry serves to mark the fact. There is no greater testimony to the triumph of civilized relationship than this."

"They, in this country, are the greatest enemies, not of peace only, but of the interests of Canada and of the empire who seek to promulgate artificial checks to free commercial intercourse of these neighboring peoples. We have nothing to lose and everything to gain by the continuance and development of the friendliest relations between the United States and Canada."

"WAR, REAL WAR," THE  
SUFFRAGETTE SLOGAN

Most Militant of All Returning from Europe Arrested as Soon as She Landed.

(Special to The Daily News.)

London, May 2.—"From now on it will be war, real war." This was the ultimatum delivered by the militant suffragette leaders at their meeting last night. Undaunted by the capture of their stronghold by the police on Wednesday night they declared their determination to carry on the fight until victory is won. They were not disturbed by the police at this meeting.

But it appears to be a real war with the authorities also. They still hold possession of the headquarters of the militants and of the leaders whom they arrested, and last night added to the number awaiting trial by the arrest of Miss Annie Kenny, one of the most militant of the suffragettes. She was returning from the continent and the arrest was made directly she set foot on British soil.

A Correction.

In reporting the recent visit to Prince Rupert of Rear Admiral Kingsmill it was stated in the "Daily News" on Wednesday that he was met by Captain Newcombe and Captain Copp. The item should have stated that he was met by Captain Newcombe of the William Jolliffe and Captain Moore of the C. G. S. Restless.

Mr. and Mrs. Harry Sheere of Haysport are in the city today.

PEACE PROPOSALS OF  
BRYAN'S RIDICULED

Berlin Calls It Sickly Agitator's Twaddle with Which He Tickles Ignorant Brains.

Berlin, April 29.—The Berlin Neueste Nachrichten, one of the Chauvinist papers, whose contention with armament industries was recently scored in the Reichstag debates, naturally falls foul of Secretary Bryan for his international peace proposals, saying:

"Mr. Bryan is in a great hurry to become the international laughing stock. But we must flatly decline to have as guidance for our policy the sickly agitator's twaddle with which he has been tickling the ignorant, conceited Yankee brains. This chattering demagogue will please be good enough to mind his own business and not worry about improving the world. Otherwise he will show very little sense of the responsibility attaching to the office with which he has been rewarded for his election activities."

MEXICO AGAIN PREPARING FOR  
NEW SANGUINARY REVOLUTION

PROVISIONAL GOVERNMENT SPLIT INTO FACTIONS — ALL AMERICANS NOTIFIED TO LEAVE COUNTRY WHILE THE GOING IS GOOD

(Special to The Daily News.)

Mexico City, May 2.—It is reported on the best of authority that another revolution in this republic is pending and liable to break out at any moment. Orders have been issued by the Federal Government that all Americans must leave the country while there is still time to make rail connections with the coast. The northern constitutionalists are about to advance on Mexico City and take advantage of the friction that now exists in the provisional government.

Huerta and Diaz at Odds

Washington, April 29.—A rapidly growing situation in Mexico City, fraught with friction between the Huerta and Diaz factions of the provisional government, is reported in confidential advices, and these reports are augmented by agents of the Carranza constitutionalists arriving here. Robert Pesquiera, a member of the Mexican House of Deputies, arrived here today to succeed Gonzales Gante as confidential agent of the Carranza forces. Gante has been assigned to a special mission, the nature of which is not disclosed but it is believed he is going to Europe.

Reports of the situation from Mexico City confirm earlier advices of the tenacity of the relations of Diaz to Huerta. Between the two officials practically all government forces in the federal district have been divided in two armed camps. Huerta has added to the infantry at the National Palace and Diaz has encamped much of the artillery on his estate, Hacienda del Cristo, about 30 miles away. Senor Mondragon, minister of war, is in virtual possession of the citadel where other artillery are quartered.

BRYCE BIDS FAREWELL TO THE  
PEOPLE OF THE UNITED STATES

FRIENDSHIP OF THE NATIONS EMPHASIZED IN HIS SPEECH BEFORE PILGRIMS' SOCIETY.

New York, April 26.—Rt. Hon. James Bryce said farewell to the American people tonight at a dinner given here in his honor by a Pilgrims' Society of the United States. After six years as British ambassador to this country, Mr. Bryce will sail for home from San Francisco on May 3, via the Orient. Sir Cecil Spring-Rice, his successor, will arrive in New York early next week.

Many noted men sat at the guest table with Ambassador Bryce, who in his speech emphasized the relations of friendship existing between his great country and the United States. The ambassador sat at the right of Mr. Joseph H. Choate, former

American ambassador to Great Britain, who is president of the Pilgrim Society. At Mr. Choate's left was Mr. Walter Hines Page, present American ambassador.

Mr. Bryce did not touch directly upon any issue now pending between the American and British governments. This statement, however, was regarded as significant:

"With good will and with a recognition that one of any nation's highest assets is that sense of national honor which will make it live up to its international obligations, all questions between nations can be adjusted, and I am sure that any question between your country and mine will be adjusted in that way."

VISITING PRINCE RUPERT  
AFTER YEAR'S ABSENCE

Mr. H. H. Allen, operator at Tyee station on the G. T. P., and Mrs. Allen were among the arrivals by last evening's train. They are registered at the Central Hotel. This is Mr. Allen's first visit to Prince Rupert in nearly a year. He was more than surprised at the large number of new buildings that have been erected during such a short time. He reports that a suitable wharf is likely to be built at Tyee to accommodate the traffic from that point to Essington. Mr. and Mrs. Allen will return to Tyee Saturday morning.

SCHEENA RIVER SYNDICATE  
WILL EXTEND OPERATIONS

DIRECTOR OF COMPANY SAYS THEIR PLANT AND EQUIPMENT WILL BE SECOND TO NONE ON THE PACIFIC COAST

H. De Pury, of London, England, who is a member of an international banking company in that metropolis and who is a well known capitalist, paid a hurried visit to Prince Rupert this week. Mr. De Pury is a director of the Scheena River Syndicate, Limited, which is engaged in the fishing industry with its local headquarters at Haysport. He has in addition financial interests at New Westminster, Port Arthur and elsewhere in Canada, although this is his first visit to the Dominion.

In conversation with a "News" representative this morning Mr. De Pury said he had the utmost faith in the future of western Canada. As far as the Scheena River Syndicate is concerned he

said it is the company's intention to greatly enlarge their fishing operations. When their plans are all carried out, he said, the Scheena River Syndicate will be second to no other company engaged in the fishing industry on the Pacific coast. There seemed to be an impression locally that the company was trying to boost land values at Haysport. This, he said, was quite erroneous. The fishing industry is the chief end of the company's business and it is their intention to develop it to the fullest possible extent. Additional boats are to be secured as fast as possible and large additions will be made in the way of cold storage capacity.

Mr. De Pury left on the Prince George for the south this morning.
