The Latest Expressions in Jewellery

THE MOST SELECT IN WEDDING GIFTS AND BRIDAL JEWELLERY may be selected from our new summer booklet, which has already been mailed to our many British Columbia patrons. This is one of the most interesting summer publications we have issued, and it should be in the hands of every wedding gift buyer in the prov-

BLUE BIRD JEWELLERY

This pretty novelty owes its origin to Maeterlinck's story of the blue bird. It is considered a symbol of happiness and good luck. We supply it in Brooches, Pendants and Scarf Pins. This jewellery is made from genuine cloisonne enamel on sterling silver. Write for this summer booklet.

BILL TO OPEN UP ALASKA COAL FIELDS

Lands to Be Surveyed Into Strips and Alternate Strips Thrown Open.

Washington, May 26.—In a bill introduced in the Senate today Senator Key Pittman proposes that the great Alaska coal fields shall be surveyed immediately into strips of a length and width to be determined by the FOR SALE-Lot 25, Block 34, Sec. 7, with secretary of the interior and numbered, and when this is completed the even numbered strips shall still be withheld from the public and the odd numbered strips thrown open to settlement.

> The odd numbered strips are to be subdivided into claims of FOUND-An Odd Fellow's gold pin, at the 160 acres each and can be settled upon only in person.

The measure is one of the most striking attempts yet made toward bringing Alaska out of the hole, and apparently meets both the conservationists and anticonservationists half way on the Alaska problem.

By retaining in possession of the government each alternating strip in the coal fields Senator Pittman believes that two desirable ends will be accomplished. while in throwing open to settlement the remaining areas on a basis similar to that obtaining in all other sections of the country | A.T. Alaska at last will have an op portunity to develop.

Vast Wilds of Alaska.

Speaking of jaunts for business men, the excursion planned by the Alaska bureau of the Seattle Chamber of Commerce is a rather ambitious undertaking. The itinerary as now mapped out will cover distances aggregating 8,-000 miles, or one-third the circumference of the earth. . The figures give to the unthinking and uninformed an idea of the vast expanse of Alaska.

The looking glass reveals our defects to ourselves. The wineglass discloses them to others.
