THE PRICE OF HOMAGE

NCE when King Edward VII. paid a visit to Sheffield, all the fires in factories and plants were allowed to die out. Not a wheel in Sheffield turned for twentyfour hours. A. The primary object of this was to lift the pall of smoke that hovers over that wonderful steel-producing city, and to ensure, as far as man was able, a bright day and a blue sky for an auspicious occasion. U.It was Sheffield's expression of respect.

UT the action was unique—it was unprecedented—it was unthought of that those hundreds of mighty furnaces, raging night and day, and those seething boilers, with quivering valves, should ever be allowed to cool. C. This extinguishing of fires cost Sheffield hundreds of thousands of dollars-the price of the effort to get back again to high-power efficiency.

OME business men in Canada pay an unwitting homage, not to a king, but to a superstition—the superstition that hot weather justifies letting the fires of business energy go out. They stop Advertising in the Summer months. By paying homage to tradition, custom, superstition, they have allowed Summer to become their "dull" season. C. You know how dull it can be when you don't advertise. Do you know how brisk it can be made by Advertising? Do you realize how much momentum you now lose in the Summer that must be regained in the Fall?

DON'T LET YOUR ADVERTISING FIRES DIE OUT THIS SUMMER.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Building, Toronto. Enquiry involves no obligation on your part-so write, if interested.
