The Hand That Moves The
Lever Saves 16 2-3 Per Cent.
of Your Coal Bill

Here is the opportunity for the housewife to deal the high cost of living question a hard jolt without any effort on her part.

The way is to make sure that her new range is controlled by a Gurney Economizer, which will save 1 ton of coal in every 6 burned in an ordinary range.

The Economizer is to the stove what the control lever is to the engine or automobile. Without control neither is efficient.

With the Gurney Economizer it is possible to quickly vary the heat of the oven. Various foods require different temperatures. The Economizer keeps this desired temperature absolutely uniform.

It also means that when cooking is over, you may have a cool kitchen and still have your fire going—while you can have the fiercest heat in a few minutes by a slight pressure on the lever.

If you possess a Gurney-Oxford your advantages are innumerable. The Divided Flue means heat for every hole on the stove. The New Special Grate guards the lowest fire. The Broiler exposes every inch of the coals.

These features are exclusively "Gurney-Oxford."

It will furnish your kitchen handsomely—it will do your work adequately.

CUT RATE IN NORTH

If the White Pass can maintain the \$40 a ton rate that it is quoting on freight between Seattle and Fairbanks and can give the people that live between those points a proportional rate, it will mean a great deal to the people of the Upper Yukon. It will materially reduce the cost of living and production at all points between Atlin on the south and east and Fairbanks on the north and west. Lower freight rates and lower tariffs will do a great deal toward promoting the growth and development of the North; more probably, than anything else if we except wise laws and their faithful administration. —Juneau Empire.

VERY NARROW ESCAPE

Was Capsized in Skeena From Drifting Rowboat—Took Three Hours for Her to Recover

An accident occurred on Sunday last on the Skeena, which would undoubtedly have ended fatally, but for the quickness and skill in handling a tiny rowboat by two well known Skeena men, "Paddy Binns and Paul Wix.

A young Indian woman named Hester Ryan was crossing the Slough from Dominion cannery to Inverness in a row-boat when in some way she lost her oars overboard and they were carried away by the tide before she could reach them. She then attempted to propel herself by means of a wooden bailer, but as the tide was running strong at the time she was rapidly being carried out to sea. This must have frightened her to such an extent that in endeavoring to put more energy into her work with the bailer she lost her balance and fell overboard.

This catastrophe was fortunately seen by Binns and Wix, who were crossing over at about 300 yards distance from the girl, they immediately set out at full speed to the girl's assistance, but before they succeeded in reaching her she had gone down twice and was sinking for the third time when grabbed by her rescuers and only after considerable difficulty did they succeed in getting her safely into the boat, (she being a very heavily built woman, and their boat being very small and cranky.) This was finally accomplished and all speed was made for the Dominion cannery, where for some time it was feared that rescue had come too late. But after nearly three hours hard work by the cannery men, and very welcome assistance by the officers of the s.s. Celtic, (which happened to be at the cannery at the time) she showed signs of life, and is now progressing very favorably.

It was only last winter that her father, Abel Ryan was drowned off Prince Rupert.

Every credit is due to the two young men who saved her life, for the speed at which they reached her, and the manner in which they got her aboard their boat, the "Shamrock," which is a tiny 10 foot skiff built only to carry two, belonging to Mr. Binks who is the bookkeeper at the Dominion cannery, and it took very careful handling to keep her from capsizing when taking the dead weight of the girl from the water.

Prince Albert at Buffalo.

Niagara Falls, N. Y., June 5.—Prince Albert Frederick George, second son of King George of England, was a visitor here yesterday.

"This is the first time I have stood under the Stars and Stripes on American soil," Prince Albert told newspapermen, "and I am enjoying myself immensely. We are having an excellent trip."
