CANADIAN BEAVERS FOR DUBLIN

In exchange for two lions, the Canadian Government has sent six beavers to Dublin, Ireland. They go from the Toronto Zoo, to which place they recently brought from Algonquin Park. The keepers had a very lively time catching the agile little animals, and large salmonlanding nets had to be employed to carry the struggling creatures to the express wagon, which was to take them to the train.

LOCAL BUSINESS MAN MAKES A COMPLAINT

To the Editor of the Daily News:

Dear Sir,-May I be permitted to occupy a little of your valuable space in an endeavor to bring before the notice of the public some of the reasons that carry larger stocks than in any other town in Canada of its size.

The prairie towns have the advantage of the farming districts to draw trade from, Here we are almost solely dependent on our city population to draw upon. A certain class of our community are sure of getting what trade there is to be had in the city as they are lucky enough to be in trades and professionsnot affected by the departmental stores. But what of the unfortunate merchants who carry those stores? How do they fare? Let those answer who earn their livelihood in Prince Rupert and are in businesses and professions which you have to patronze locally, and who in return helping to build up eastern stores at the expense of Prince Rupert. They are the people to best answer the question.

Even some of our civic em-

Steens Land District District of Coast, The total value of the mineral from other parts of the United their ready cash. The local mer-If I could go into details and

name the business men who have had to leave town in the last three years, I think that the people who have the future of our city at heart would think twice before sending money out of town that should go to help out don't help to advertise the prosperity of any town, nor boost your real estate values. Boost Prince Rupert but buy in Toronto does not seem consistent.

Go back to the time that the street grading was in progress and the money paid out in wages was paid to a foreign population who sent it out as quickly as earned. We were all unanimous in our opinions that it was a disgrace that the city practically derived no benefit from that expenditure as the cash was

When Summer Stops the Swing

Most of us can remember the school lesson in the law of accumulated motion-momentum.

If you exert a pound of pressure against a man in a swing, you'll start him moving slowly "to and fro." If you continue to exert a pound of pressure against him every time the swing makes a trip, you'll soon have him going so high that he almost turns the whole circle. If you stop pushing, the momentum will die out and the swing come to rest at "dead centre."

Winning trade follows the same natural laws.

Advertisements are the force behind the swing of public favor. Each new advertisement increases the momentum. Finally, the accumulated force of these numerous impulses swings indifference to the buying point.

If you stop Advertising, you lose momentum.

The moral of which is:

Don't stop the business swing in Summer. Keep adding the pounds of Advertising pressure.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Building, Toronto. Enquiry involves no obligation on your part-so write, if interested.
