The Economizer

It will not take long for a Gurney-Oxford range to pay for itself. The Economizer will do it.

This device saves 1 ton of coal in every 6 ordinarily consumed, enabling the thrifty housewife to have a thoroughly efficient range with exclusive features at practically no cost.

The dividends represented by the lower consumption of fuel will pay back the original investment in a very short time.

Pages written about the Economizer could not tell of its real value to the household as has been proven by the most scientific tests.

You owe it to yourself to investigate the Econ-

omizer before concluding your purchase of your new range. There are other vital points known only in this

Gurney-Oxford, such as the Divided Flue, the New Special Grate and the Broiler attachment.

All these scientific improvements lead the housewife to perfection in the art of cooking.

Her uniformly heated oven works with her and gives her the baking results she is striving foright delicious biscuits, flaky wholesome pastry and evenly baked bread.

The bright and shining appearance of this stove with its nickel trimmings and polished top which requires no black lead charms the heart of every good housekeeper.

She realizes that the Gurney - Oxford can fulfil here every need.

PLEASURE RESORT ON BANKS OF LAKE ATLIN

White Pass Company Shortly to Call for Tenders for Large Summer Hotel.

for the establishm. of a summer resort and an upto-date hotel on the shores Atlin Lake have been formed by the White Pass & Yukon Route. A site consisting of 130 a res of land has been secured and the FOR RENT-Furnished scheme provides for the laying out of extensive grounds for golf links and tennis courts.

erate a special service of gasoline launches on the lake between the resort and the city of Atlin, about half a mile distant. There are some remarkably good roads in the vicinity of Atlin which will make automobiling ideal, and it! is expected that with the growing popularity of the North for pleasure seekers a large number of tourists will visit that district.

From the proposed hotel sit a magnificent view is to be obtained. Majestic mountains rise from the water's edge and soar into the clouds, while the famous LOST-Silver chain purse, Saturday night. Llewellyn glacier, which extends from Atlin Lake to the sea, presents a wonderful vista of chilly grandeur

route expects to call for tenders FURNISHINGS of a three-room nat for firm has the contract for clear-sale. Flat also may be rented. Will George Do It?

The question is uppermost in the minds of a few of our inquisitive residents as to whether our pioneer storekeeper intends taking the "leap" this hymeneal month-or not. Just the same. Mr. Beattie received a consignment on Wednesday morning last of several pieces of elegant furniture, which, as some one remarked, "was too good for bachelor's apartments." Anyhow, the furniture is the real, genuine articles, made of solid oak and beautifully hand carved, and comprises a dressing table, wash stand and sideboard. The articles were made at acoff by Paul Kato, a Japanese, and are a credit to his exquisite workmanship .- Queen Charlotte News.

SAEFGUARDING PUBLIC AGAINST ALL DISEASE

Railways in United States Taking Great Pains to Protect the Travelling Public.

Aside from the customary disnfection of passenger coaches the medical department of the Great Northern Railway has gone several steps farther in joining the country-wide movement to safeguard public health. It has years to compel all applicants positions on dining and sleeping cars to undergo the strictest physical examination before entering the employ of the

The latest order draws the line even finer, making it imperative sult of their large experience in that every employee who even omce in such exhibitions. One of those takes a short leave of absence that to undergo a physical examinaprizes should be given to ladies tion by company physicians bethe fere returning to the service. FOR RENT-Nicely furnished house; five committee has already acted in this way, the medical corps for any employee to continue in the public service if he is suffering from tuberculosis or any other contagious disease. Further precaution is taken by the company in barring undesirable employees from employment where food is stored and linens or tableware are kept.

The Great Northern Railway is one of the few systems that owns its own sleeping cars, and thus it is enabled to carry out the innovation advocated in the leading medical journals, of placing an absolute barrier against the spreading of disease, by having its medical corps guard every possible avenue of danger.

The American Medical Association, which will convene in Minneapolis in July, is expected to launch a far-reaching public H. McPherson & Co., which health campaign along these lines, urging every railway in the United States to join in the SEE movement.
