When Summer Stops the Swing

Most of us can remember the school lesson in the law of accumulated motion-momentum.

If you exert a pound of pressure against a man in a swing, you'll start him moving slowly "to and fro." If you continue to exert a pound of pressure against him every time the swing makes a trip, you'll soon have him going so high that he almost turns the whole circle. If you stop pushing, the momentum will die out and the swing come to rest at "dead centre."

Winning trade follows the same natural laws.

Advertisements are the force behind the swing of public favor. Each new advertisement increases the momentum. Finally, the accumulated force of these numerous impulses swings indifference to the buying point.

If you stop Advertising, you lose momentum.

The moral of which is:

Don't stop the business swing in Summer. Keep adding the pounds of Advertising pressure.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.
