Pub. July 14, 1913—Sept. 8, 1913.

WATER ACT.

Notice of Application for the Approval of Works, and for Approval of Undertaking by Minister of Lands.

Take notice that the PORT EDWARD TOWNSITE COMPANY, LIMITED, of Prince Rupert, in the Province of British Columbia, will apply to the Minister of Lands for the approval of the plans of the works to be constructed for the utilization of the water from Wolf Creek, Skeena District, for which application has been made by the company, and has been issued by the Comptroller of Water Rights at Victoria, B. C., and the Water Recorder at Prince Rupert, B. C.

And take notice that the said PORT EDWARD TOWNSITE COMPANY, LIMITED, also intends to apply under Part VI of the "Water Act" for approval by the Minister of Lands of the undertaking of the company as outlined in the plans and particulars now on file with the Comptroller of Water Rights and with the Water Recorder at Prince Rupert, B. C., in connection with the company's application for the approval of the plans of the works to be constructed for the utilization of the water from Wolf Creek, Skeena District, for which application has been made by the company, and has been issued by the Comptroller of Water Rights at Victoria, B. C., and the Water Recorder at Prince Rupert, B. C.

WHEN COMING BACK TO WORK IS THE HARDEST.

HAZELTON MINING NOTES

After prospecting for years in many camps, Henry Bretzins, a Sloacan miner, who started out from Hazelton, made his first big find a few hours after he began prospecting on the Cronin train, in the Babine range. Camping twenty-four miles from Moricetown, he started out to get a view of the top of the hill. Finding galena float, he traced it up for a short distance, discovering a ledge apparently five feet wide and exposed for a length of 750 feet. On the hanging wall was a streak of steel galena three inches wide, the same ore occurring in streaks and bunches throughout the vein. The lucky prospector staked four claims, calling the group the Debuture, and returned to Hazelton to record. He packed out a quantity of the surface ore, which is of excellent appearance and carries \$78 in lead and silver. In expectation of finding more mineral in the neighborhood, a number of prospectors have gone to the scene of the strike.

On the Ingineca group a tunnel has been started on the 10-foot vein. Ed Kohse, who came in on Monday, says the tunnel is already in fifteen feet and shows about four feet of quartz, with plenty of yellow copper and some gray copper. A crosscut will be driven to tap number one and number two veins at a depth of 100 feet.

On the Silver Creek group, situated just back of Smithers, the Hudson Bay Mining Co. is busily engaged in development, with forty men working under the management of Harry Carpenter. Col. R. G. Steele, superintendent of the property, is expected to return from the coast in a few days, accompanied by the directors of the company. This concern, with one of the best prospective mining properties in the district, is likely to

cut an important figure in the development of local mines. Within 30 days it is expected that the crosscut tunnel will tap the big showing on the second vein. With a length of about 400 feet, the tunnel will give a depth of foot for foot on the vein, it is estimated. The company is working in a most systematic and thorough manner.

J. G. Carsley, of Montreal, arrived at Hazelton with R. G. Steele on Wednesday. They have gone up to Smithers.

J. O. Trethewey, the Cobalt man who is interested with Frank Martin in the White Heather group, visited the property last week. He expressed himself as well pleased, not only with the property in which he is interested, but also with others on Hudson Bay Mountain. A small crew is working on the White Heather at present, and larger operations are being planned. Frank Martin is preparing to make a shipment of ore, much of which carries native silver. The first shipment will probably be made to Trail. Omineca Miner.

FOR TORONTO EXHIBITION  
Board of Trade Urges Sending of Fisheries Exhibit.

The Board of Trade last night discussed the advisability of asking the local fish companies to club together to send an exhibit to the Toronto exhibition in September. The board decided to send letters to the various fishermen stating the conditions required by the exhibition authorities and pointing out the publicity advantages of an exhibit. It also decided that the fisheries committee of the board should endeavor to arrange with the fishermen for such an exhibit.

TERRACE NEWS.

Terrace, July 27.—Mr. McMartin returned on Saturday's train. Many friends are glad to see him again, if only for a short visit.

The change of the end of steel to Moricetown siding makes a difference of over an hour in the arrival of westbound trains, which now reach Terrace at 2:40 p. m.

An interesting function was held at Kitsumkalum on Tuesday afternoon when Mrs. Marsh gave a tea for Mrs. Pettit. About twenty ladies were present, representing both Kitsumkalum and Terrace. The hostess received in a pretty gown of grey deiane. Mrs. Pettit wore pale blue silk and a black picture hat with white willow plume. The drawing room was tastefully decorated with a profusion of fragrant sweet peas and other locally grown flowers. Dainty refreshments were served by Miss Deacon, Miss Etanda Marsh and Miss Inez Ross of Kitsumkalum Lake. The guests included Mrs. Little, Mrs. Frank, Mrs. Kenney, Mrs. Orwig, Mrs. Giggiey, Mrs. Creelman, Mrs. Stewart, Mrs. McKinnon, Mrs. Rudge, Mrs. Donald and the Misses Morrison, Donald and Sparks.

MINING PARTY  
To Develop Promising Property on West Coast.

Queen Charlotte, July 29.—This week there arrived in Queen Charlotte Mr. A. Jones and party of four miners, who, under the supervision of Mr. Jones, left Tuesday to develop the property of the Tassoo Copper Syndicate on the west coast.

Equipment and supplies weighing about eight tons were taken to the property, of which M. R. R. Hedley, a Vancouver operator and mining engineer, is the head.

Work will be pushed forward on this promising property as rapidly as possible, and in about a month's time, as soon as plans and surveys have been completed, an aerial tramway will be built and bunkers installed, facilitating ore shipment.

THE PRICE OF HOMAGE

ONCE when King Edward VII. paid a visit to Sheffield, all the fires in factories and plants were allowed to die out. Not a wheel in Sheffield turned for twenty-four hours. The primary object of this was to lift the pall of smoke that hovers over that wonderful steel-producing city, and to ensure, as far as man was able, a bright day and a blue sky for an auspicious occasion. It was Sheffield's expression of respect.

BUT the action was unique—it was unprecedented—it was unthought of that those hundreds of mighty furnaces, raging night and day, and those seething boilers, with quivering valves, should ever be allowed to cool. This extinguishing of fires cost Sheffield hundreds of thousands of dollars—the price of the effort to get back again to high-power efficiency.

SOME business men in Canada pay an unwitting homage, not to a king, but to a superstition—the superstition that hot weather justifies letting the fires of business energy go out. They stop Advertising in the Summer months. By paying homage to tradition, custom, superstition, they have allowed Summer to become their "dull" season. You know how dull it can be when you don't advertise. Do you know how brisk it can be made by Advertising? Do you realize how much momentum you now lose in the Summer that must be regained in the Fall?

DON'T LET YOUR ADVERTISING FIRES DIE OUT THIS SUMMER.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 603 Lansden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.

LAND LEASE NOTICES.

Skeena Land District—District of Coast, Range V.

Take notice that I, Hume Babington, of Prince Rupert, B. C., occupation master mariner, intend to apply for permission to lease the following described land: Commencing at a post planted at the north corner of H. H. Babington's lease application on a small island in the Skeena river opposite Mile 45, thence southwesterly along shore 40 chains to southwest point of island, thence northeasterly along shore 40 chains to H. B. Babington's southwest corner, thence north about 40 chains to point of commencement, containing 100 acres more or less.

NOTICE OF APPLICATION FOR THE APPROVAL OF PLANS AND OF PETITION FOR APPROVAL OF UNDERTAKING.

Take notice that the PRINCE RUPERT HYDRO-ELECTRIC COMPANY, LIMITED, of Montreal, Quebec, will apply to the Comptroller of Water Rights for the approval of the plans of the works to be constructed for the utilization of the water from Falls River and Khada River, which the applicant is by water records numbers 21, 27, 36 and 50 authorized to take, store and use for power purposes and in respect to which further applications for 508 cubic feet per second from Falls River and 266 cubic feet per second from Khada River are now pending. The power plants to be situated on Lots 635 and 695, respectively, Range 5, Coast District.

Petition for approval of the undertaking will also be made to the Honourable the Minister of Lands under Part 6 of the Water Act.

The plans and particulars required by sub-section one of Section 70 of the Water Act, as amended, and the petition, plans and exhibits for the approval of undertaking as required by Section 89 and Part 6 have been filed with the Comptroller of Water Rights and with the Water Recorder at Prince Rupert.

Objections to the application may be filed with the Comptroller of Water Rights, Parliament Building, Victoria, B. C., this 21st day of July, A. D. 1913.
