to one of his eyes.

Demer's for Coats

Coats in the very latest ideas for style and of the newest material reached us Saturday. Come and see them. We have all sizes.

OUR MILLINERY OPENING will be on Wednesday, Sept. 17th. You are cordially invited.

Save One Ton of Coal in Every Six

The Economizer will do it.

While the cost of living has undoubtedly been growing greater, at the same time it is true there are some inventions that will offset this increased cost of living, and the careful housewife takes advantage of these inventions.

On every Gurney - Oxford range there is an Economizer which controls not only the drafts but also the entire combustion or burning of fuel to create heat.

This Economizer will save 1 ton of coal in every 6 that you would use with the ordinary range.

The Economizer is a simple device, absolute in its control. By merely moving the lever you can obtain any degree of even heat in the oven. This insures the satisfaction of always having light, delicately crusted bread and biscuits.

The kitchen fire ceases to be a worry if the Economizer is on your stove.

The Gurney - Oxford is the final result of experimental thought. Science has given it a Divided Flue, a new Special Grate, and a Broiler attachment.

This Gurney Oxford range is primarily a saver of money, time, and energy.
