Lot and Post 3528 & 9530, thence in a northerly direction 20 chains, thence in a northerly direction 20 chains, thence east 20 chains to the point of commencement, containing 160 acres more or less. WILLIAM MACY, F. H. Flood, Agent. Dated June 27th, 1913—Sept. 22, 1913. Pub. July 28, 1913—Sept. 22, 1913.

NOTICE OF APPLICATION FOR THE APPROVAL OF PLANS.

Take notice that James Arthur Brown, of Port Essington, B. C., sawmill owner, who applied to the Comptroller of Water Rights for the supply of water for the utilization of the water from Brown's Creek, which the applicant is by Water Record No. 24 authorized to take and use for sawmill purposes, and in respect to which further application for 56 cubic feet per second from said creek (Water Permit No. 95) is now pending. The sawmill is located on Lot 121, Range 5, Coast District. The plans and particulars required by sub-section one of Section 79 of the Water Act as amended have been filed with the Comptroller of Water Rights and with the Water Recorder at Prince Rupert. Objections to the application may be made with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C. Dated at Prince Rupert, B. C., this 29th day of August, A. D. 1913. JAMES ARTHUR BROWN, Applicant. W. Sept. 1-22

WATER NOTICE.

Application for a license to take and use water will be made under the Water Act of British Columbia as follows:

- The name of the applicant is B. C. Salt Works, Ltd., F. H. Mobley, agent.
- The address of the applicant is Prince Rupert, B. C.
- The name of the stream is Kwinitsa River. The stream has its source in mountain range about 5 miles west of the Skeena River, flows in a southeasterly direction and empties into Skeena River about 4 miles south of Kwinitsa station.
- The water is to be diverted from the stream on the south side, about 5,280 feet from mouth.
- The purpose for which the water will be used is mining and manufacturing.
- The land on which the water is to be taken is as follows: Mineral claims owned by the B. C. Salt Works Ltd., and located adjacent to Lot 74 and Lot 75, Skeena River.
- The quantity of water applied for is as follows: Twelve hundred (1200) miners' inches.
- This notice was posted on the ground on the 6th day of September, 1913.
- A copy of this notice and an application for a license and the requirements of the Water Act will be filed in the office of the Water Recorder at Prince Rupert, B. C. Objections may be filed with the Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.
- B. C. SALT WORKS, LTD. F. H. Mobley, Agent. W. Sept. 8 to Oct. 6, 1913.

NEW POLICY INAUGURATED THAT WILL BENEFIT NORTHERN INTERIOR

NATURAL STOCK RANGES TO BE LEASED AT LOW FIGURES TO SETTLERS INSTEAD OF BEING LEFT TO WASTE

The recent visit to the northern portion of the province made by Hon. W. R. Ross, minister of lands, has already resulted in the official announcement of a new policy to be inaugurated in connection with the administration of the public lands in so far as establishing a stock raising industry through the utilization of the pasture now going to waste. It is expected that the new departure will be particularly beneficial to the north, and that points like Stewart, commanding the highway to the interior, will, with the extension of wagon roads and pack trails, soon be the rendezvous of stockmen and owners of large flocks of sheep, looking to secure areas suitable for cattle and sheep raising in the interior.

Already there has been sufficient investigation to show that the vast natural stock ranges of British Columbia offer excellent opportunities for the successful development of a large stock industry, with great benefit to the province. At present only a very small part of this forage crop is used, and the problem has been to devise means by which stockmen might be encouraged to locate in British Columbia, and thus to convert this natural resource now going to waste year by year into beef and mutton, leather and wool.

One of the chief difficulties inherent to this problem, but which has been successfully overcome, was to work out a plan which, while allowing the ranging of sheep and cattle on a large scale, would protect the range itself from injury from overgrazing, and above all prevent range monopoly by large owners, to the disadvantage of our settlers and pre-emptors. This problem necessitated not only broad consideration of the methods of utilization of the public range adopted by other countries and their results, but also a careful consideration of the local conditions and the adoption to the needs of this province of the methods proved to be most successful elsewhere.

Hon. W. R. Ross foresaw that the administration of grazing under leasing system would offer serious disadvantage in locking up large areas against settlement and other forms of use, and the actual sale of grazing lands would, on the other hand, invite monopoly and require so large a capital investment by stockmen as to retard the development of the industry. He decided that under a permit system only could full protection of the public interest be assured since under this system a number of the stock can be limited to the actual grazing

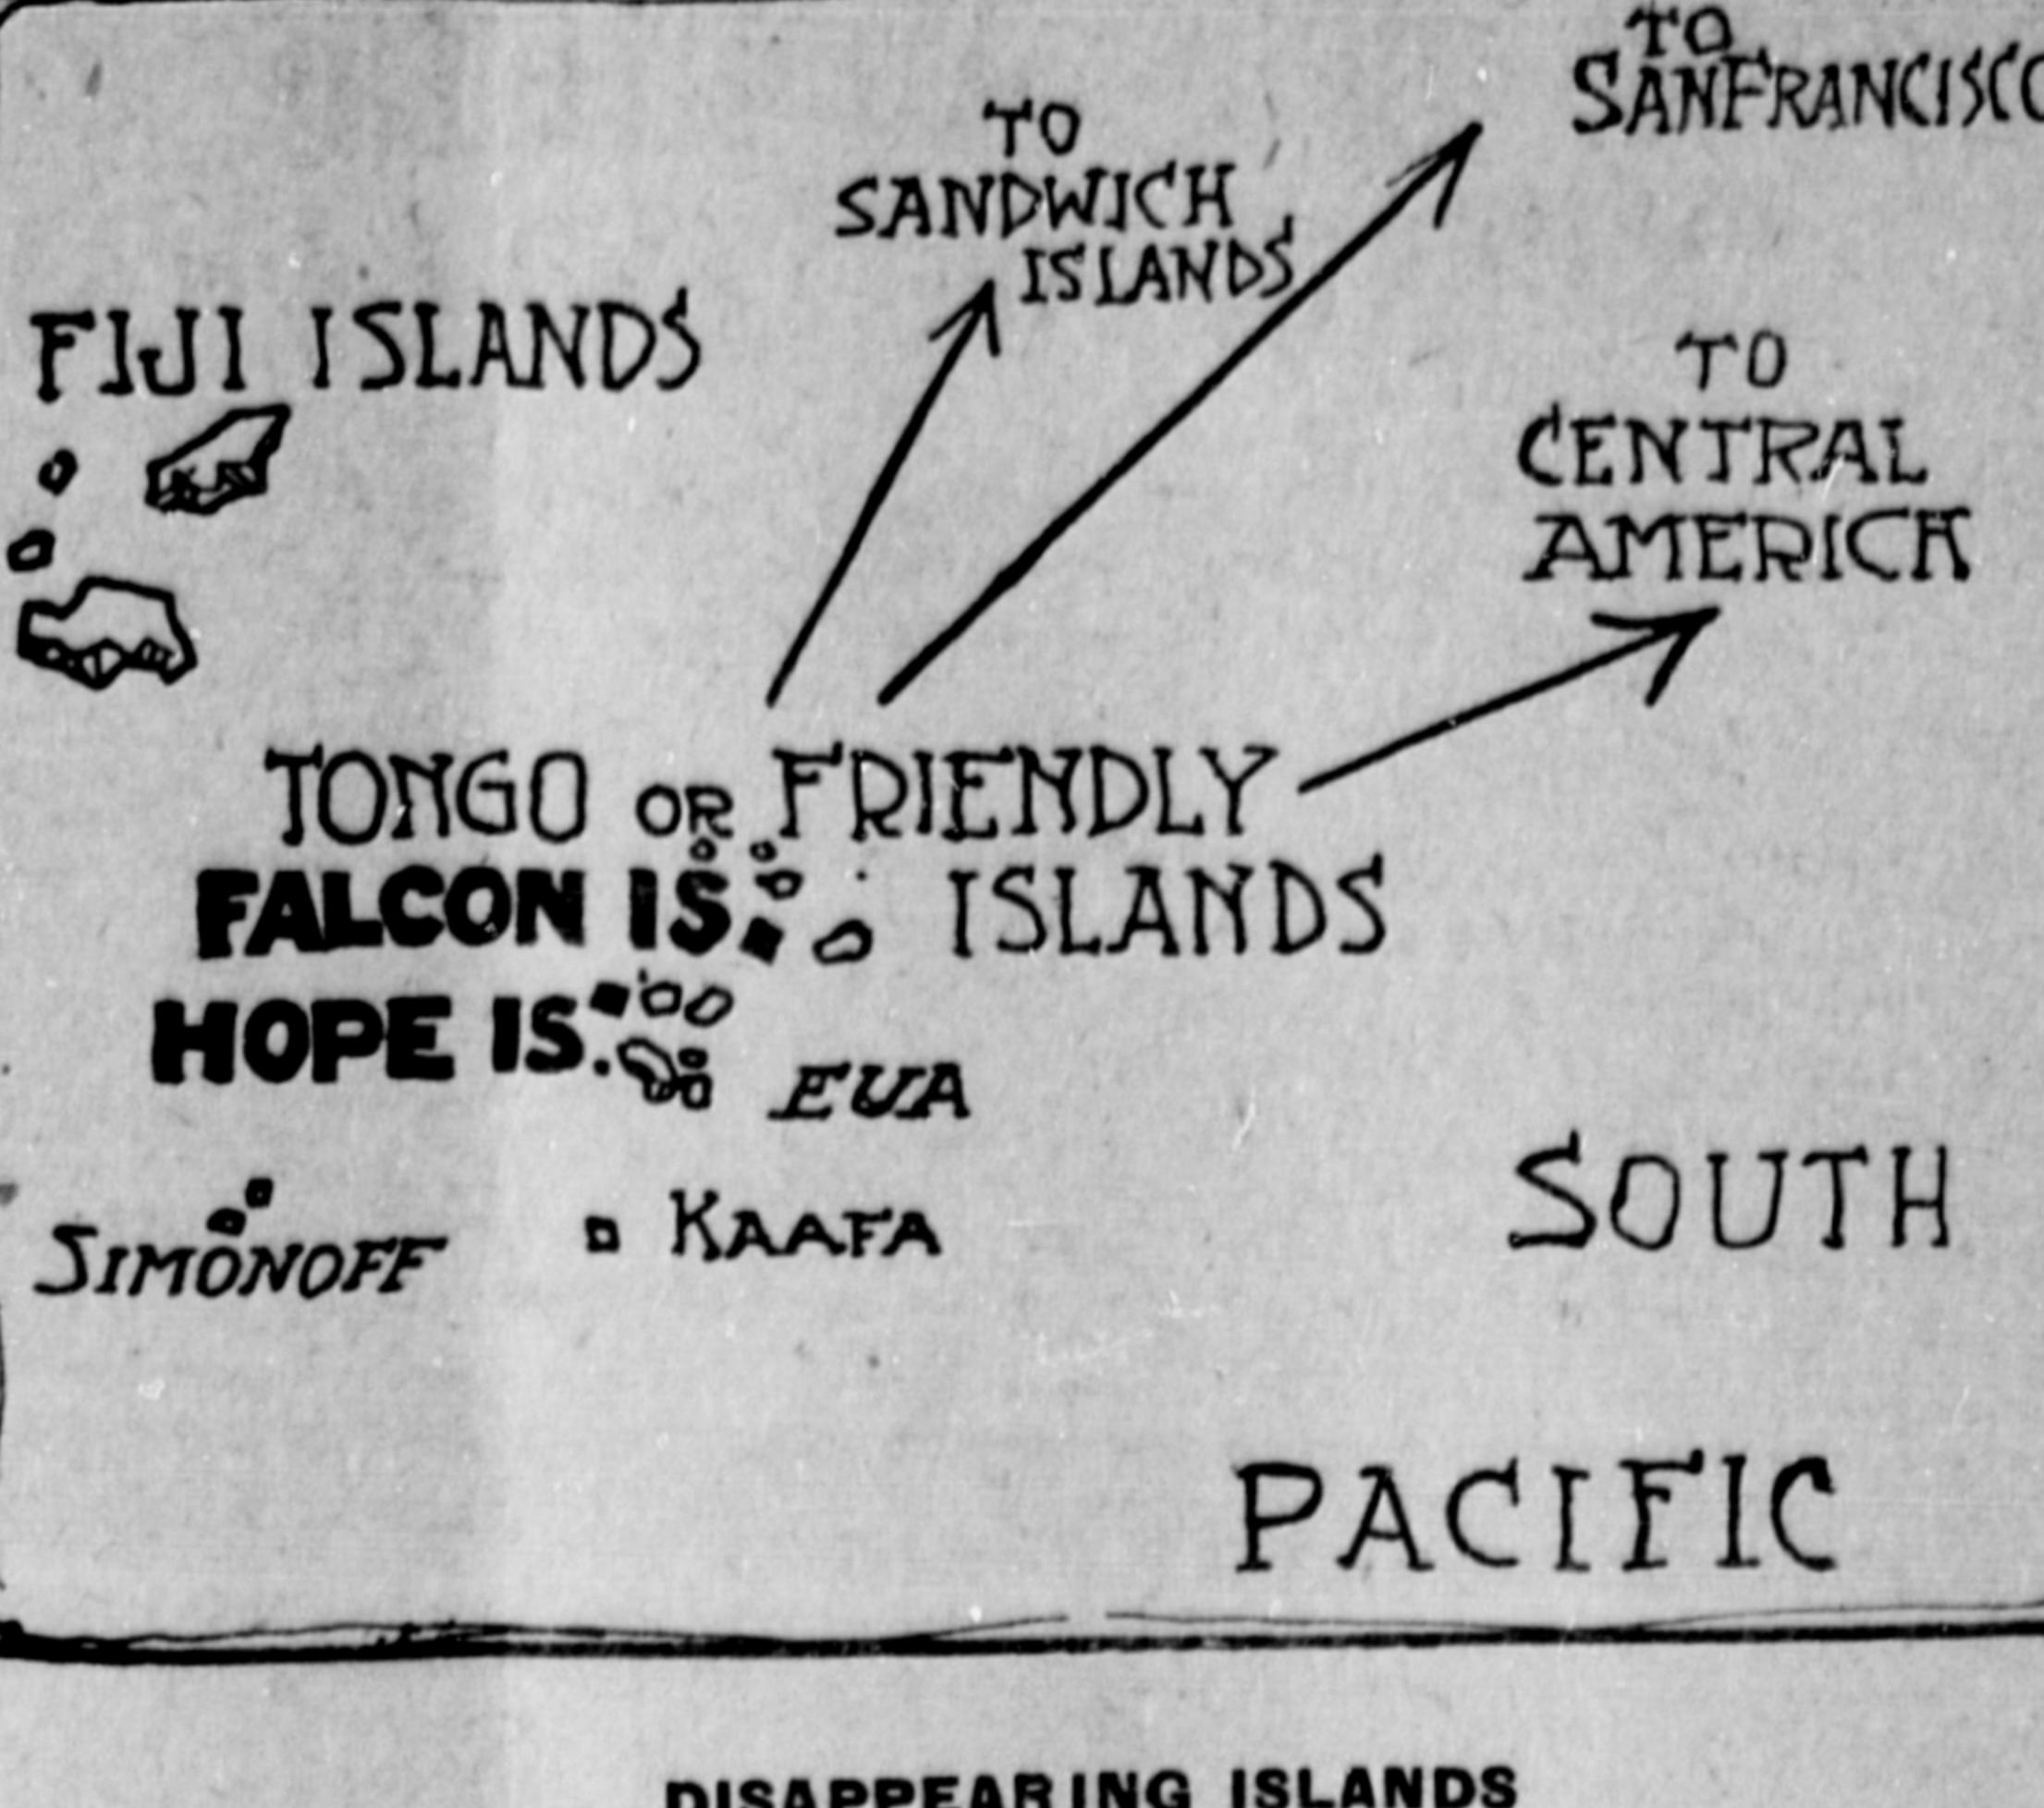

can be prevented and full capacity of the range, monopoly vision made for keeping the grazing lands open for settlement and for the utilization of timber and of any other resources needed in the settlement and development of the country.

The application of the permit system will involve the division of the range into natural grazing districts suitable for sheep, for cattle, or for both, and the fixing of the number of head which may be allowed to graze in each without impairing its productiveness and carrying capacity. Wherever necessary for the protection of water supply or of game stock will be excluded. The keynote of the policy inaugurated by Mr. Ross for the administration of grazing is the protection of the actual settler in the use of the range. In the issuance of grazing permits first consideration will be given no small owners of stock and to owners of improved range property. As Mr. Ross indicates, however, the extent of unused range is still so great that after full provision for the needs of the settlers' stock there will remain ample accommodation for large herds of sheep and cattle.

Under the policy established settlers will be allowed to graze a reasonable number of stock free of all charge. For large herds, however, a grazing fee will be charged, which in the beginning will be merely nominal, the policy of the government being to permit the industry to establish itself fully before making a charge in accordance with the actual commercial value of the grazing privileges.

The administration of grazing will necessarily be closely bound up with the administration and protection of forest resources. For, while there are limited areas of treeless range in the province, the great bulk is forested, excellent natural forage for sheep and for cattle often forming the ground cover beneath the trees. Consequently, Mr. Ross has decided to utilize the trained force already available in the forest branch for putting into effect this new conservation policy. This will add another and most useful function to the work of the Provincial Forest Service, which has already so fully demonstrated its efficiency and worth in applying in practice the principles of forest conservation laid down by the minister of lands.

It is significant of the timeliness of the policy established by Mr. Ross for the development of the stock industry and of its practical possibilities in the north that applications are already be-

INDEPENDENCE DAY IN MEXICO CELEBRATED IN RAINY DRIZZLE

GREATEST PARADE EVER HELD IN MEXICO'S CAPITAL—EVERYTHING PASSED OFF QUIETLY—HUERTA REVIEWED THE PROCESSION

Mexico City, Sept. 16.—The biggest parade ever held in Mexico City began forming early today in celebration of the nation's independence day. Cold drizzling rain caused the flags and hunting droop and made marching over the sodden pavements a dreary business, but it did not quench the holiday spirit.

From early morning detachments of soldiers, cadets, students and volunteers made their way toward Chapultepec, where the day's celebration began with speech making and music, and with patriotic utterances of orators appointed for the occasion stirred embryo soldiers to enthusiasm. General Victoriano Huerta, the provisional president of Mexico, in full uniform, surrounded by his staff and accompanied by many government officials and foreign diplomats made a short address applauding the patriotic ardor of the younger element of the population and calling them "the hope of the nation" and "worthy sons of loyal fathers."

At the hour appointed for the opening of the civic observances at Chapultepec, the presidential salute boomed from the guns of the arsenal. At the conclusion of the ceremonies the presidential party drove through the streets lined with holiday-makers showing confetti and flowers from windows and balconies to the national palace where General Huerta prepared to review the parade.

Cost of Living Climbs

Ottawa, Sept. 20.—Another slight upward move in the cost of living is indicated in the record of wholesale prices during August gathered by the Department of Labor. The index number for 270 articles was 136.2, compared with 135.9 in July. In August a year ago it was 133. The advance was due to higher prices in grains and fodder, eggs, potatoes, butter and anthracite coal. At the same time there was somewhat lower prices for cattle, beer, butter, trout, whitefish and coffee.

ing received looking to the location by stockmen of grazing grounds for bands of sheep running as high as several thousands.—Portland Canal Miner.

Trains to Smithers Soon

Vancouver, Sept. 18.—Mr. G. A. Aldous, a member of the firm of Aldous & Murray, has returned from Smithers, the Grand Trunk Pacific divisional point for which his firm has the agency, with the news that passenger trains the news that will be operated up to Smithers from Prince Rupert within two weeks.

Rupert Boys Had Cold Feet

E. F. Kissick and Frank Landis are two young men who arrived from Prince Rupert lately on the way to the Chilana but who have decided to remain here until March. The latter has gone to work as brakeman on the White Pass railroad.—Whitehorse Star.

Sixth Street

Mrs Frizzell's

REMOVAL SALE

As has already been announced in the press, Mrs. Frizzell will remove to larger quarters just as soon as the new premises are ready for occupancy. In order to cut down the present stock so that as little of it as possible will be transferred to the new location, a

Great Closing Out Sale

has been inaugurated at prices that the ladies of Prince Rupert will not be slow to recognize and which should leave little if any of the present stock to be removed. The whole \$20,000 stock of seasonable merchandise will be offered, a greater part of which was bought for the fall and winter trade and has just been opened up. There is a reason for this sale and a price reason why you should avail yourself of the opportunities to be offered. Make your arrangements so as to attend the sale as near the opening day as possible—the lines will be unbroken and you will have greater variety to choose from.
