CHARLES DAWSON, 13 YEAR OLD FARMER LAD. MURDERED BY JAMES TAYLOR THE SPANLARD

THAT BRANTFORD MURDER.

The picture of the boy at the bottom is that of Charles Dawson, the farmer boy who was brutally murdered on the roadside near Brantford, Ont. The murderer was a degenerate half breed known as "Taylor the Spaniard." The real motive for the crime is not yet known. Taylor has confessed to the killing of the boy and hacking him repeatedly with the knife, almost severing the head from the body.

Control Your Coal Expenditure

In the Gurney-Oxford range you will find more exclusive features, more essential improvements that appeal to the thrifty housewife than have ever before been found in any one kitchen range.

But most important of all is the Economizer.

This clever device for regulating the drafts saves 1 ton of coal in every 6 that you would burn in the ordinary range. It takes the smell of cooking out of the kitchen and sends it up the chimney. You know what that means.

The Economizer enables you to absolutely control the amount of coal you wish to consume and still have a perfect heat for cooking. It will enable you to keep your fire going while you go out shopping or visit your neighbor, and all that is necessary for you to do on your return is to press the small lever and you are assured of a hot fire in a very few moments.

A Gurney-Oxford stove is sanitary-no dirt can accumulate on its beautifully smooth sur-

Its top is polished steel which abolishes forever that dreadful operation - blacking the stove.

Of paramount interest also are the other remarkable and exclusive attachments - the Special Grate, the Divided Flue and the Broiler.

Every woman who knows owns a Gurney-Oxford.
