WATER NOTICE.

Application for a license to take and use water will be made under the Water Act of British Columbia as follows:

1. The name of the applicant is B. C. Salt Works, Ltd., P. H. Mobley, agent.

2. The address of the applicant is Prince Rupert, B. C.

3. The name of the stream is Kwinitsa River. The stream has its source in mountain range about 5 miles west of the Skeena River, flows in a southeasterly direction and empties into Skeena River about 1 mile south from Kwinitsa station.

4. The water is to be diverted from the stream on the south side, about 5,250 feet from mouth.

5. The purpose for which the water will be used is mining and manufacturing.

6. The land on which the water is to be used is described as follows: Mineral claims owned by the B. C. Salt Works, Ltd., and located adjacent to Lot 74 and Lot 75, Skeena River.

7. The quantity of water applied for is as follows: Twelve hundred (1200) miners' inches.

8. This notice was posted on the ground on the 6th day of September, 1913.

9. A copy of this notice and an application pursuant thereto and to the requirements of the Water Act will be filed in the office of the Water Recorder at Prince Rupert, B. C. Objections may be filed with the said Water Recorder on or before the 10th day of October, 1913.

10. The Commission of the General Land Office, by F. H. Mobley, Agent.

W-Sept. 8 to Oct. 6, 1913.

WANTS TO DISCOVER IF THERE'S ANYTHING SHE CAN'T DO.

Miss Canada: "Maybe I can't make as good a pie as mother just at first, but the sooner I begin trying the sooner I'll find out what I can do."

The maker of the first prize pie at the Toronto exhibition has, for the benefit of mankind, published the recipe, and we see in a surly exchange an item to the effect that other pie-makers do not at all admit that the method is at all superior to their own. To be sure they do not. One woman can tell another how to make a pie or a cake and can stand beside the table and direct the whole proceedings to the most minute particular, and yet the pie will not be a real pie, nor the cake a real cake. There's a trick in it that cannot be written in a recipe nor taught in words. Only one woman in a hundred can make a pumpkin pie, or a cream pie, and all the others ought to be restrained by law from attempting it. The person who makes a pie must have an affection for the task. It is not the recipe that counts, but the little pats and touches, the wee sprinkle of salt, the shrewd poke of the fork, the drop and a half of vinegar, the knowledgeable fondling of the various ingredients by the skilled hand of experience—hence the pie that is a masterpiece.

NEW HAZELTON NOTES.

The first wedding in New Hazelton was solemnized last Thursday evening in the Presbyterian Church when Rev. Mr. Larter, of St. Peter's Church, united Miss King, daughter of Thomas King, Sanquoy, Sanday, Orkney, Scotland, and George Lawson, Ootsa Lake, son of Mrs. J. Lawson, 295 Easter Road, Leitz, Scotland. The bride was attended by Mrs. Robb, Saskatoon, a sister of the groom, and Rev. Munro supported the groom. After the ceremony light refreshments were served at the home of Mrs. John Newick and on Saturday the happy couple left for their home at Ootsa Lake.

Public School Inspector Gillis arrived Wednesday night for the purpose of looking into the school requirements of the town. In company with George Wall he personally visited the parents of the children and will make his report in due course.—Omineca Herald.

William Spencer, superintending engineer for George Craddock & Co., contractors for the bridge over the Bulkley River at Hagwilget, is beginning to see the end of his job. The bridge is across the river and people have been crossing it all this week. The first few days of the week everyone was claiming to be the "first white man" or the "first white woman" to cross the new bridge. Some of the "first" sat on the bank and watched the "second" go across.

D. McLeod made a trip up the Rochede de Boule Mountain on Wednesday and made some very interesting discoveries. He located a ledge of considerable size and brought down some samples,

which he has sent to Vancouver to be assayed. Mr. McLeod was not on a prospecting tour so much as a pleasure trip to get a line on the various mining properties on the big mountain. He met with a number of black flies; otherwise he had a great day's outing.

R. G. Steele returned from Vancouver Saturday night and Sunday proceeded to Hudson Bay Mountain. Mr. Steele has completed his deal with Schuler and Woods and he is now preparing to apply for a Crown grant.

On Wednesday night Dr. McLean arrived to take charge of the hospital work for Dr. Winch while the latter is looking after the canvas for the X-Rays fund.

The Hotel Northern has been completed. In another week it will be open for business. A general rush is on putting on the little finishing touches, getting in the furniture and furnishings and in a few days the handsome big building will be in readiness to open the minute word is received from Victoria that the license has been granted.

FOR SHIP RAILWAY

Ketchikan May Have Large Ship-yard Very Soon

There is some probability of Ketchikan having a ship railway and ship yard built and in operation within the next couple of months. A deal to put such a plant in at the Alaska Packers dock south of town is now under consideration and it looks as though it will become a fact.—Ketchikan Miner.

OLD HAZELTON ITEMS.

R. D'Egville, district fisheries guardian, returned on Monday from a trip to the Blackwater district, accompanied by A. Moncur.

A party including J. M. Davidson, M. E.; Burns Bowerman and Thomas Harrison left on Thursday for Tom Creek and Silver Creek.

A crew is now at work on the road between the town and South Hazelton station. The large amount of traffic over the road made the reduction of grades necessary.

Ed. Kohse and Bob Marion, who have been prospecting in the new Tahtsa gold field, returned during the week. They staked bench claims on Cibola Creek, and have confidence in the richness of the district.

Gus. Olson left on Thursday to return to the Omineca River district, where his partner, J. T. Bates, is working on placer claims.

Although the police are making every effort to solve the mystery surrounding the death of Oscar Soderberg, the rancher whose body was found near his cabin ten days ago, nothing has developed to throw light on the problem.—Omineca Miner.

THE PRICE OF HOMAGE

ONCE when King Edward VII. paid a visit to Sheffield, all the fires in factories and plants were allowed to die out. Not a wheel in Sheffield turned for twenty-four hours. The primary object of this was to lift the pall of smoke that hovers over that wonderful steel-producing city, and to ensure, as far as man was able, a bright day and a blue sky for an auspicious occasion. It was Sheffield's expression of respect.

BUT the action was unique—it was unprecedented—it was unthought of that those hundreds of mighty furnaces, raging night and day, and those seething boilers, with quivering valves, should ever be allowed to cool. This extinguishing of fires cost Sheffield hundreds of thousands of dollars—the price of the effort to get back again to high-power efficiency.

SOME business men in Canada pay an unwitting homage, not to a king, but to a superstition—the superstition that hot weather justifies letting the fires of business energy go out. They stop Advertising in the Summer months. By paying homage to tradition, custom, superstition, they have allowed Summer to become their "dull" season. You know how dull it can be when you don't advertise. Do you know how brisk it can be made by Advertising? Do you realize how much momentum you now lose in the Summer that must be regained in the Fall?

DON'T LET YOUR ADVERTISING FIRES DIE OUT THIS SUMMER.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 403, Luxenden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.

NOTICE.

Notice is hereby given that pursuant to the provisions of chapter 115 of the Revised Statutes of Canada, F. L. Wilson has deposited with the Minister of Public Works a plan of a work proposed to be constructed on land in the Harbor of Prince Rupert, B. C., briefly described as follows: Commencing 559.5 ft. north and 1077.68 ft. east from the centre of Seal Cove Circle as shown on Plan 923, Prince Rupert Land Registry Office, being south-west corner Sublot 7, thence north 36 degrees 13 minutes 39 seconds west 760 ft. to harbor line, thence south 36 degrees 46 minutes 1 second west 370 ft. along said harbor line, thence south 36 degrees 13 minutes 59 seconds east 546 ft. to high water mark, thence following high water mark to point of beginning, with a plan and description of said proposed site and has deposited a duplicate of each of the foregoing in the Land Registry Office at Prince Rupert, B. C., and is applying to the Governor in Council for approval thereof.
