THAW MAY SUE THE STATE OF NEW YORK

Another Legal Quibble His Lawyers May Resort to in Order to Defeat Justice

Concord, N.H., Sept. 27.—In order to bring about his legal removal to Pennsylvania in event that the request of the New York authorities for his extradition is denied by Governor Felker a tax payers' suit against the state of New York is planned by Harry K. Thaw.

Thaw said today that a report had reached him from New York that William T. Jerome intended

to take no further steps in the case here if the executive refused to grant extradition.

Replying to the suggestion that this might necessitate his permanent residence in New Hampshire, Thaw said he was confident that a taxpayers' suit to prevent further expense to New York on account of a citizen of another state, would bring about his legal removal to his home state.

PORTLAND CANAL ORES WINNING PRIZES AT PRINCE RUPERT FAIR

DISTRICT'S CLAIM AS MOST DIVERSIFIED MINERAL REGION OF THE GREAT NORTH WAS FULLY AND MOST PROPERLY RECOGNIZED.

The winning of five first class awards in the mineral department of the Prince Rupert Exhibition speaks eloquently of the ores of the Portland Canal Mining division, and those who were responsible for the assembly and heartily congratulated on their untiring efforts and financial assistance. Once again has Stewart demonstrated before the eyes of many thousand people its claim for recognition as the most diversified mining section of the great north, and the only expression of regret is that we did not capture the grand district award, which went to the Hazelton district. In discussing this feature with the Judges The Miner was advised that we lacked sending down substantial samples and also assay certificates—a feature that Hazelton had not neglected.

FOUR REIGNING QUEENS WILL ATTEND THE ROYAL CEREMONY

INVITATIONS SENT OUT FOR THE WEDDING OF PRINCE ARTHUR OF CONNAUGHT TO THE DUCHESS OF FIFE ON OCTOBER FIFTH.

London, Sept. 26.—Invitations to the wedding of Prince Arthur of Connaught to the Duchess of Fife were issued yesterday. The work of preparing the interior of the chapel royal for the event will be completed, it is expected, about October 4th. The pews have been removed and are stored in the basement of St. James Palace. Raised stands have been erected in their place on both sides to accommodate 300 guests. A semi-circle of gilt chairs will be placed at the railing for the royal guests. One higher than the others is for Queen Mary.

The keynote of the decorations is to be simplicity. There will be

no lavish display of flowers or shrubs. Instead, white heather will figure largely out of respect to the bride, and of course there will be the usual bridal bouquets. The same carpet will be used which served at Their Majesties' wedding. The gold plate dates back to Charles II. The books are those used at the King's wedding. The bridal gown and trousseau are still in their elementary stages.

The groom will give the bridesmaids diamond brooches bearing the royal monogram. Four queens will be in attendance. Prince Arthur's supporters will be his cousins, the Prince of Wales and the Duke of Saxe-Coburg-Gotha.

CANAL SUITS AND DAM HATS IS NEXT

Panama Canal Furnishes Style Creators With a Supreme Hunch for Next Year

Chicago, Sept. 26.—Isn't she wonderful. Just like a canal boat.

"She reminds me of the Gutten Dam."

"Never saw anything so like a rainbow."

Say these things to a woman today and the least you may expect is a jab from the longest hatpin in her possession.

Say them next spring and a smile sweeter than the most widely advertised brand of confectionery will be your reward.

The answer to the "Why?" is just one word—"Style!"

The garment makers of the country have issued an edict. Just as the Balkan war set the fashions last year and Bulgarian hats, sashes and similar articles of wearing apparel were the result, so this next spring the opening of the Panama Canal has furnished the garment makers with their "big idea."

Anything that brings to mind the canal is to be fashionable, they say, so dresses and hats that look like canal boats, locks and dams will be the rage, and the riot of colors will come, because the canal is in Spanish-American territory and the Spanish color scheme is to be followed.

LORD MAYOR OF LONDON

Sir Thomas Vansittart Bowater is Elected.

London, Sept. 29.—Sir Thomas Vansittart Bowater was elected lord mayor of the city of London today. He will assume office on November 9th.

George E. Winkler, secretary of the Cascade Falls Mining Co., has returned to Victoria after a very pleasant visit to the property as well as to a number of other showings in the Salmon river section.—Portland Canal Miner.

Gurney - Oxford Baking Worthy of the Art of a Chef

The average woman abhors having to spend all her time in the kitchen striving to accomplish some new dish in baking. But when she can have a range like the Gurney-Oxford, cooking becomes a pleasure and a fascination because of its consistent assured success.

The heat of the whole range is controlled by one lever, called the Economizer, with remarkable ease and effect.

The oven is entirely surrounded by a perfectly even heat of any degree required for any kind of baking. Pans of biscuits, light rolls, or cakes, all cook evenly with a delicate, golden brown crust without having to be constantly changed around next the heat as in other ranges.

This perfect Gurney-Oxford oven encourages a woman to attempt delicious and unusual recipes of her own invention. Her reputation for being a "splendid cook" is at once established.

The Gurney-Oxford Economizer regulates the exact degree of heat which is directed through the oven by a Divided Flue Strip with perfect evenness in every corner. The fire is held low on a Special Reversible Grate which burns every coal to a white ash. There is a lift-up Broiler Top to expose the full fire, and a smooth polished surface that requires no black lead. The Warming Closet is big enough and strong enough to hold a whole dinner service.

This Gurney-Oxford is the range for women of to-day.
