WINTER STEAMER SCHEDULE OF CANADIAN PACIFIC COMPANY

PRINCESS MAY LAID OFF INDEFINITELY AND PRINCESS SOPHIA TO TAKE HER PLACE -- LAST TRIP OF MAY NEXT WEEK

Becoming effective on Nov. 1, the winter schedule governing the operation of the C.P.R. coast steamships call for the withdrawal of the Princess May from the Skagway route and the maintenance of the northern sailings by the Princess Sophia. The northern sailings will be practically the same as last year, with the exception that the Princess Sophia will get the brunt of the work instead of the Princess May.

Sailing from Vancouver on Oct. 31, the Princess May will make her last trip north this winter, and the Princess Sophia will inaugurate the winter schedule, sailing from Victoria November 7 for Skagway. Her following sailings will be on Nov. 21, Dec. 5 and 19. The dates for sailing for the early part of the new year will be announced later.

Calls will be made by the Princess Sophia at Alert Bay, Prince Rupert, Port Simpson, Ketchikan, Wrangell and Juneau, both north and southbound.

The steamer Princess May, which has maintained this service for many years, will be laid up indefinitely.

MR. SMITHERS ENTHUSIASTIC AS TO OUTLOOK FOR CANADA

SEES NOTHING AHEAD BUT CONTINUED PROSPERITY -- HAS STOOD STRAIN OF WORLD'S MONETARY CRISIS IN MAGNIFICENT WAY.

London, Oct. 23.—Mr. A. W. Smithers, president of the Grand Trunk meeting today, referred to his Canadian tour and said the spirit of courage and hopefulness for which Canadians were famous had been rewarded by a record harvest. Canada might be satisfied and proud at the magnificent way in which she stood the strain of the world's monetary crisis. She had shed some real estate speculators and a few overcapitalized companies, but had maintained her high position.

Englishmen should note that the essential prosperity of Canada was reflected in the national revenue. The government had been enabled to spend enormous sums on the National Transcontinental Railway and also on harbor works and other improvements without adding much to the debt. Few governments in the world were in a more satisfactory condition. The immense world demand for capital would cause a slowing down of Canadian development, but as capital again accumulated, Canada would readily get what she needed. He saw nothing but continued prosperity for the Dominion.

Shareholders had complained at the amount of Grand Trunk money poured into the Canada-Atlantic road, which, nevertheless, was still called a "farm track." Mr. Smithers replied that when the Grand Trunk Pacific was completed the Canada-Atlantic would lose its character of a local line and be a most important connecting link. He announced the intention of the board to ask parliament to incorporate the Canada-Atlantic with the Grand Trunk proper in order to make it ready for traffic when the Grand Trunk Pacific opened.

THE CHAMPION OF FAIR PLAY

In its desire to poison the public mind against the present civic administration the Evening Empire does not hesitate to misrepresent facts or even to invent deliberate lies. One would expect that in reporting a public meeting it would have the honesty to report proceedings as they occur. Its readers surely want facts, not manufactured lies.

Reporting a recent meeting of the Property Owners' Association, held in the Swedish Church, it said: "There was discussed such questions as 'Shall city work be done by contract, with the employment of transitory labor and the door left open for graft, or shall city work be performed by the engineer's department?' The foregoing question was not even mentioned, to say nothing of being discussed. When a newspaper will deliberately deceive its readers in such a barefaced manner little confidence will be placed in any of its utterances."

TIGERS AND BANKERS PLAY EXCITING GAME

First Game in Basketball League Ended in a Victory for the Tigers

The opening game for this season in the Basketball League was played last night at the Auditorium on Sixth Avenue and was attended by a large number of rooters whose sympathies seemed to be quite evenly divided. The contesting teams were the Tigers, the oldest team in the city, and the Bankers, the most recently organized. As might have been expected the former team won, although the Bankers put up a splendid game and demonstrated that they have the material, with a little training, to make a good showing in the league. The score was 20 to 13 in favor of the Tigers.

Throughout the game last night the spectators were kept in a high pitch of excitement, both teams entering into the contest with vim. The Tigers had many more shots on the basket than their opponents but missed a goodly number of their opportunities. Brooks, Mann and Ramsay played a splendid game for the winners, while Purdy, Vidler and Haslett were the stars for the Bankers.

The line-up of the two teams was as follows:

Tigers—Lee, Blythe, Mann, Brooks and Ramsay.
Bankers—Roche, Vidler, Haslett, Purdy and Golden.

Blythe met with a slight accident in the first half and his place was taken by Lee Dell.

Adair Carss acted as referee in an impartial manner, assisted by J. W. Scott as umpire.

The next game in the series will be between the Men's Own and the Brotherhood on Monday evening.

"The Frog" is one of those educational features that cannot be too highly commended and following this is a clever comedy called "The Heat Wave."

SEVERAL IMPORTANT BY-LAWS WILL BE SUBMITTED LATER ON

MAYOR PATTULLO POINTS OUT THAT TELEPHONE SYSTEM IS BECOMING INADEQUATE -- NEW BUILDING FOR THIS AND ELECTRIC LIGHT OFFICES

In conversation with the mayor this morning the News was advised of several important by-laws that will be submitted to the electors at the end of the year.

The capacity of the telephone system is becoming inadequate and the equipment is really running down hill due to the lack of proper housing. It is proposed to build a three storey concrete building adjoining the present City Hall where the telephone equipment can be installed with all chances of destruction from fire eliminated. The grading which was done on the piece of ground adjoining the City Hall furnishes a most excellent site.

The proposed building will also provide offices for the electric light department as well as the telephone, also commodious quarters for a public library, while the lower floor will be used to provide additional police accommodation. The building in addition to providing for immediate needs will look to the future as well.

It is proposed also to submit by-laws to provide for additional facilities for supplying electrical energy for power and light as the present plant is carrying its full capacity. This plant will be used as an auxiliary after the city develops its own water power.

By-laws will also be submitted providing for extensions of water mains, electric light and telephone service to all the outlying portions of the city, also for a grant of money to provide recreation grounds large enough for baseball and other kinds of sports.

It is important that all these by-laws should be passed so that the moment the money market is favorable the city will be in a position to dispose of debentures to carry out the work.

Next year will see a very rapid development and the city must be prepared to meet it. It is evidently the intention to give all portions of the city the benefit and use of the various public utilities at the earliest possible date.
