

KIMSQUIT INDIANS' MANSLAUGHTER SENTENCES

NEW KING OF BAVARIA QUARRELS WITH BROTHER--BELIEVED STEFANSSON PARTY IS SAFE

MAYOR PATTULLO, AT VICTORIA, WAS 'BRIMFUL OF OPTIMISM'

SO SAYS VANCOUVER PROVINCE IN DESPATCH FROM VICTORIA
MAYOR SAYS WE ARE STRAINING EARS FOR FIRST WHISTLE.

The Vancouver Province prints a despatch from Victoria, in reference to Mayor Pattullo's visit to the capital, in which it says:

To interview the Provincial government on matters of importance to the Grand Trunk Pacific terminus, Mayor T. D. Pattullo of Prince Rupert arrived in Victoria yesterday. He is brimful of optimism as to the future of the city of which he is the chief citizen and speaks enthusiastically of the progress and prospects of Prince Rupert.

Mayor Pattullo doubts if there is any city in the Canadian west in a better financial condition than is Prince Rupert.

"A considerable amount of public work has been carried out," he said yesterday, "and yet the city has a balance in the bank on its current revenue."

"The program of improvement now being proceeded with," he continued, "covers an expenditure of \$1,500,000, consisting mainly of street and sewerage work, while the extensive private works, such as the construction of G. T. P. docks and shipbuilding (involving an outlay of another \$1,500,000), and the erec-

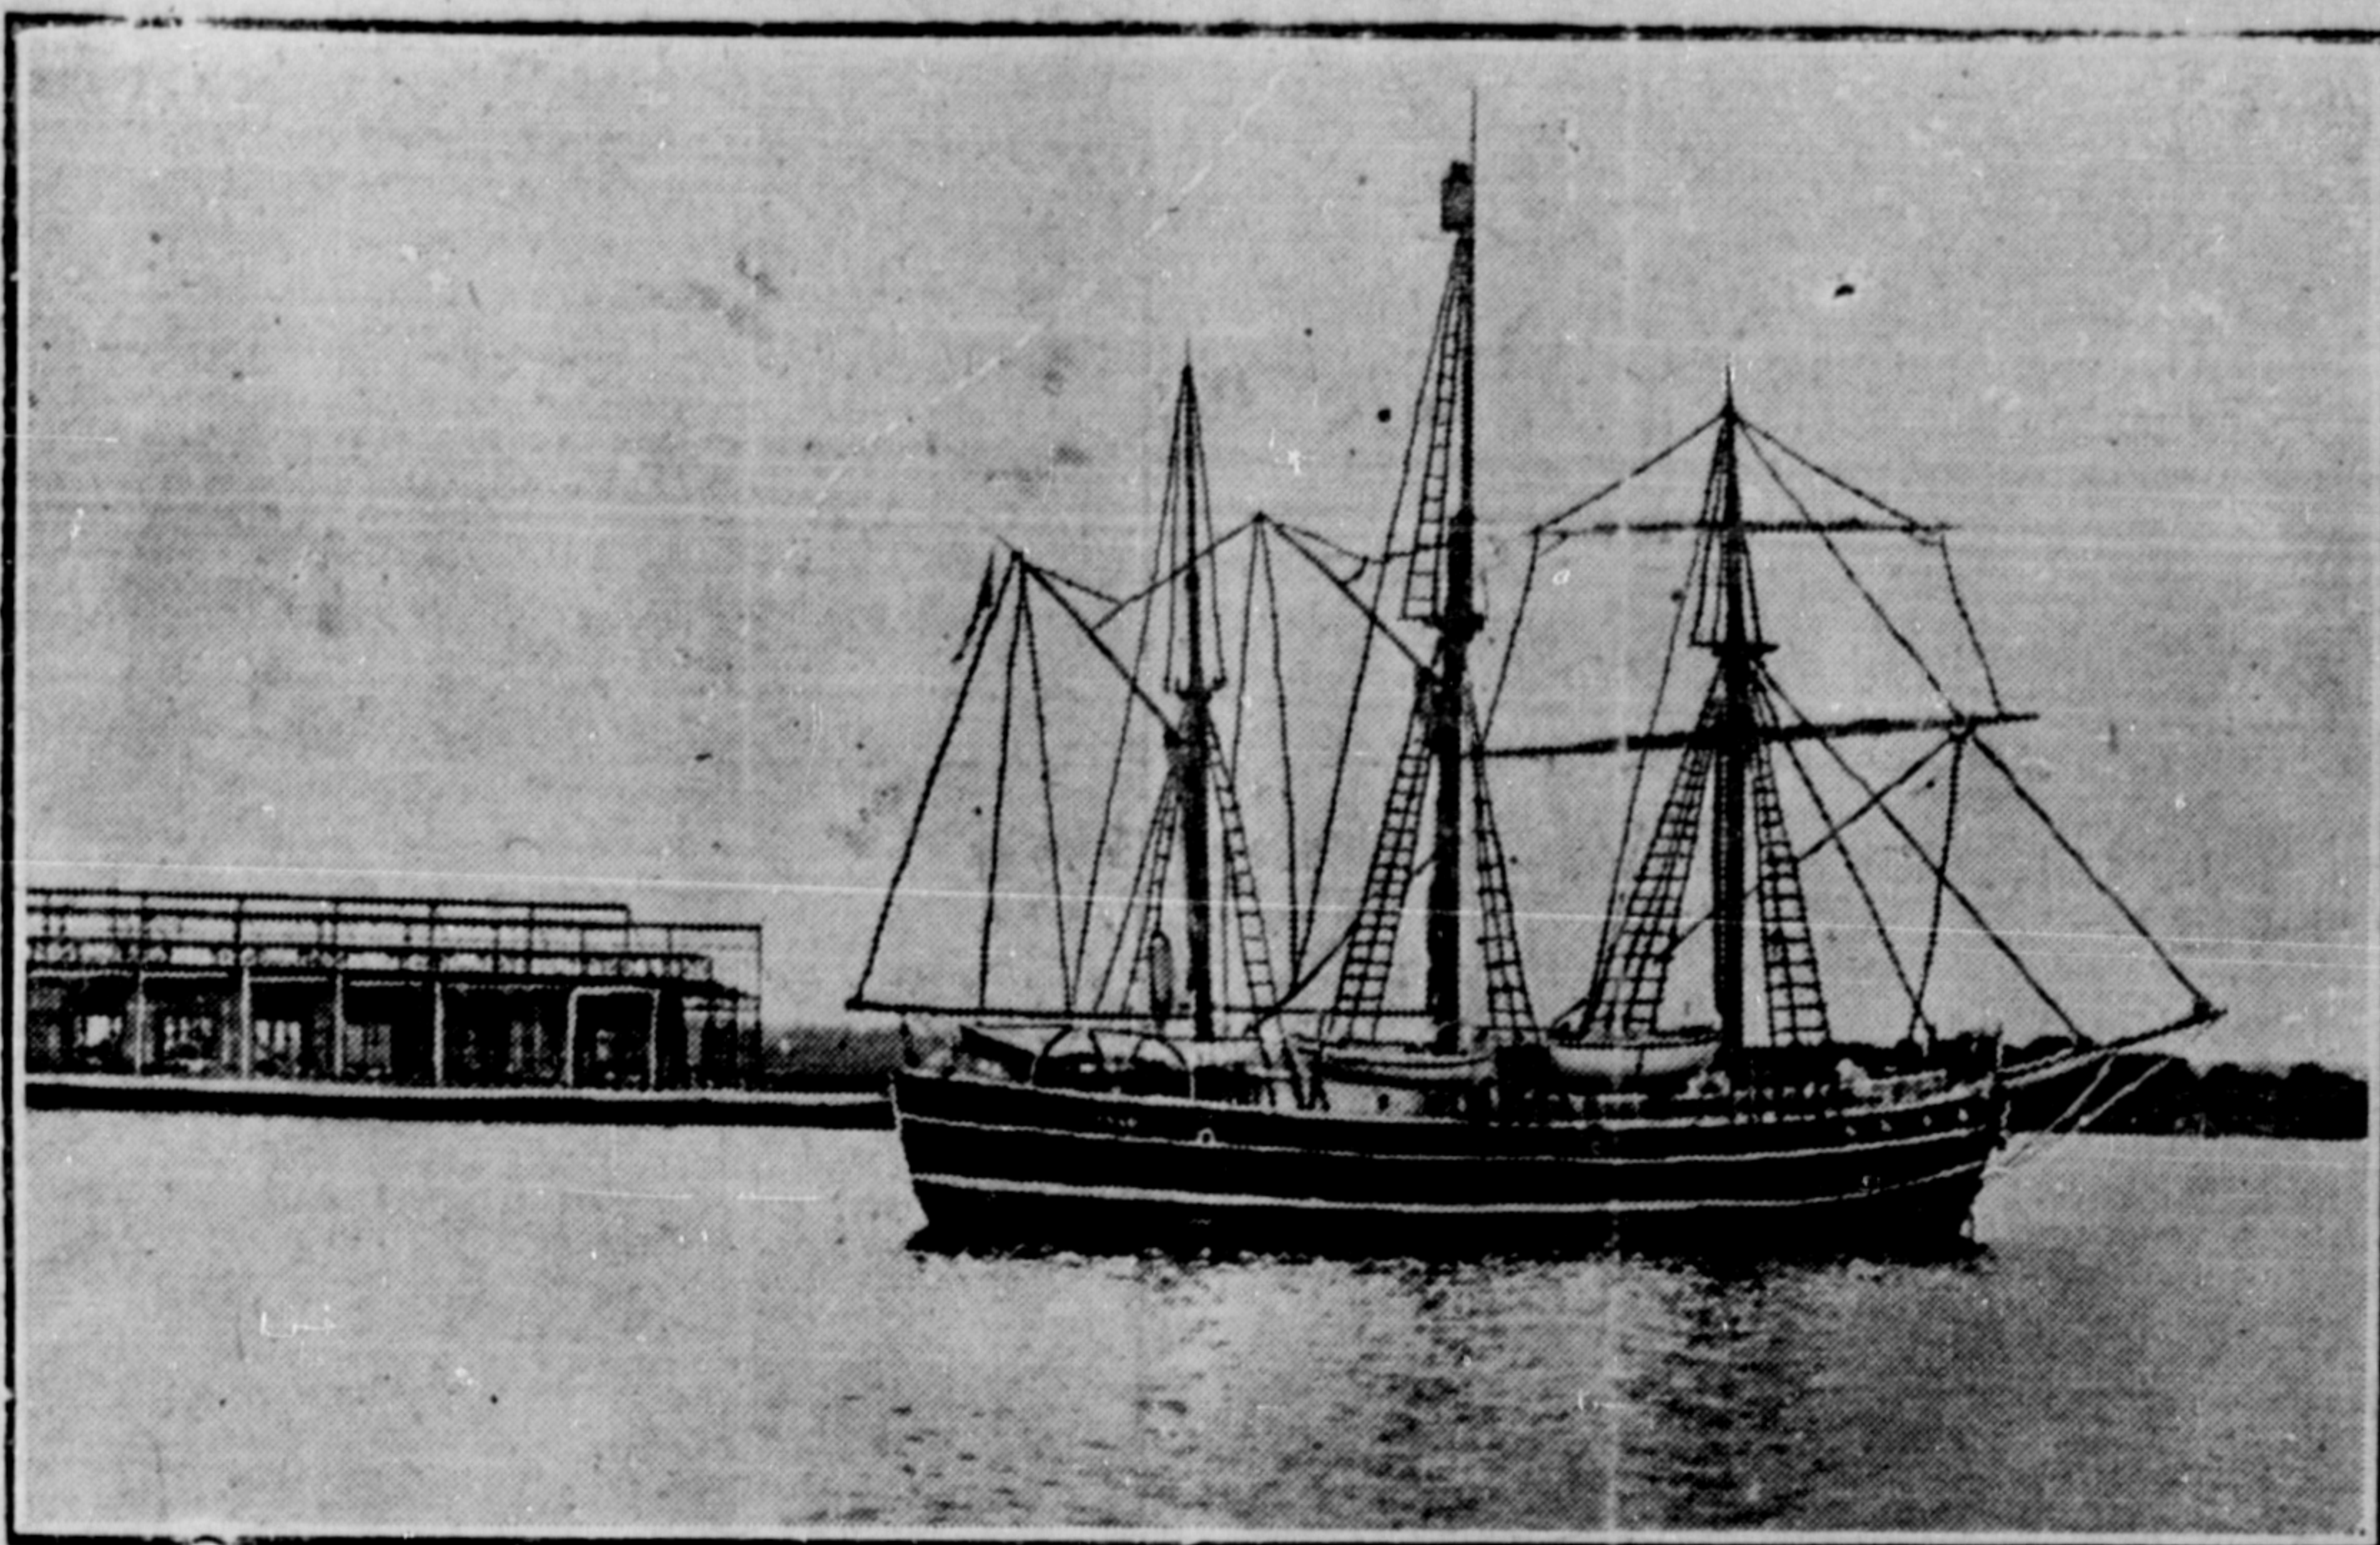

tion of federal and provincial buildings are keeping a large number of men employed."

Mr. Pattullo tells with great satisfaction of an incident that occurred a short time ago as illustrating the prosperous condition of the people of Prince Rupert.

On Thanksgiving Day he instructed the police to ascertain how many persons in the city were in need in order that aid might be rendered them on that day. The official failed to find a single case of hardship.

"Of course one reason for the satisfactory condition of affairs," said the mayor when discussing this matter, "is the fact that the banks began to limit credit early last year with the result that the various transactions carried out were of a strictly cash nature and the people had no opportunity to get into deep water."

"According to Mayor Pattullo, every one in Prince Rupert is anxiously straining his ears for the first whistle of the first G. T. P. transcontinental train. The completion of the line is expected to have a tremendous effect on the development of the city."

THE FRAM, MOST FAMOUS EXPLORATION SHIP OF WORLD

This much travelled three-master has been connected with the most famous Arctic and Antarctic explorations that have ever been made. In her Dr. Nansen, about 1895, reached the nearest point to the North Pole that had ever been achieved up to that time. About ten years later Captain Amundsen succeeded in navigating the staunchly-built vessel through the Northwest Passage from ocean to ocean, the dream of famous navigators for three hundred years. Early last year came the news that Captain Amundsen had succeeded in discovering the South Pole, and again he voyaged in the Fram. She is being fitted for another voyage to the Arctic early next year, and was to be the first boat to have the honor of passing through the Canal, but the unseafaring secretary of the United States navy has decided otherwise, and says it will be an unknown government passenger boat that will make the first trip through the big ditch. The Fram may possibly call at Prince Rupert on her way to the north next spring.

TWO BELLA COOLA INDIANS RECEIVE THEIR SENTENCES

GEORGE WILSON GETS FIFTEEN YEARS FOR MANSLAUGHTER AND STIKINE JOE GETS OFF WITH FIVE YEARS

Vancouver, Nov. 20.—Fifteen years for George Wilson and five years for Stikine Joe were the sentences passed yesterday by Mr. Justice Morrison on the two Kimsquit Indians found guilty of manslaughter in connection with the quadruple tragedy there on the night of September 10th. Wilson was found guilty of the death of George Paul, his foster brother; Charles Wilson, his uncle, and a woman, Emma Wilson,

while Stikine Joe was found guilty of the death of Watchy Gus.

Evidence was given by white people from the district showing that Wilson bore a bad reputation and was the cause of much trouble and fear among the Indians, while the same people said that Joe was a fine boy. Mr. Justice Morrison said he was bound to pass sentence on him and any reprieve would lie with the executive authorities.

BELIEVES UNITED STATES IS SEEKING MEXICAN TERRITORY

HAMBURG PAPER SAYS WHOLE POLICY OF PRESIDENT WILSON SHOWS DESIRE TO CAUSE MEXICO TO BLEED TO DEATH

Hamburg, Nov. 20.—The Hamburger Nachrichten believes the United States is seeking territorial aggrandizement in Mexico but is covering the design with expressions of peaceful intent. In an editorial it says:

"The pious disclaimers on the part of the Washington government of its intention to annex even the smallest part of Mexico means nothing in practice, because the United States is determined to follow a policy which

will make Mexico submissive to the wishes of America.

"The whole procedure of President Wilson shows a desire to cause Mexico to bleed to death, so that, when an opportunity offers, the exhausted country can easily be gathered under the wings of the American eagle. This is the easiest way, but it is not thought quick enough by some interests, hence means are being made to hasten the process of absorption."

WHAT MISS ASQUITH WOULD DO IF SHE ONLY HAD THE VOTE

AT RECENT READING ELECTION SHE MIGHT HAVE CAST HER BALLOT FOR THE SOCIALIST, BUT NEVER FOR A CONSERVATIVE.

London, Nov. 18.—Miss Asquith, the premier's daughter, in opening a Liberal bazaar at Brixton yesterday, made a speech which is attracting a good deal of attention. She said she did not think the demand for a general election would be satisfied for a good while yet. It was due not to the advance of Toryism but to the defection of labor that the Liberals had lost Reading and that their majority had been reduced at Lintonthgow. Miss Asquith went on:

"If I were a working man and had a vote, and I were intimately

acquainted with the conditions under which a great many are living in London, and if I thought, quite mistakenly, no doubt, that I was expressing my sympathy with a man who had protested against these things, I think I might have voted for the Socialist at Reading. Nothing, however, would have induced me to vote for the Tory.

"Sedition is a rather mediaeval offence, especially now that Sir Edward Carson, by law abiding, modern methods, has shorn it of every shred of glamor and drawn it down to the level of the most humdrum respectability."

INDUSTRY MAY LOCATE AT PORT EDWARD

J. Sidney Smith, of the Atlin Fisheries left this morning for Port Edward in company with Mr. Baer, manager of the Port Edward townsite Company. It is well known that Mr. Smith has experienced difficulty in getting suitable waterfront for carrying on his business. It is assumed that his visit to Port Edward is for the purpose of investigating the advantages that the industrial annex has to offer.

THE HUNGRY TIGERS DEVOUR BROTHERHOOD

Last Night's Basketball Game the Most Closely Contested of the Series

One of the most closely contested and best all around games in the basketball series was played last night at the auditorium between the Tigers and the Brotherhood. There was some close checking on both sides and the spectators were given an exhibition of the game that kept them at a high pitch of excitement. For the Brotherhood Blythe is deserving of special mention for his capable playing. Brooks for the Tigers was conspicuous in making a large number of the baskets. The score was 10 to 5 in favor of the Tigers. J. W. Scott gave satisfaction as referee with Adair Carss on the side lines. The attendance was probably the largest at any of the games played this season.

Following is the line-up: Tigers—Brooks, Ramsay, Crane, Dell and Mann. Brotherhood—Ives, Mobley, Rogers, Blythe and Daggett.

LAST PECULIAR STUNT IN WOMAN'S RAIMENT

To be Strictly Up to Latest Mode You Must Wear a Yashmak

Paris, Nov. 20.—The kaleidoscope changes in feminine attire are becoming bewildering. The Turkish veil, some time known as the "yashmak," is to be the chic thing in Paris during this fall, and Paris beauties will hide one half their pretty faces behind it.

The new veils are not confined to the face, it should be understood. At Longchamps many of the fair attendants looked for all the world like overgrown lampshades, costumed in floating draperies from the waist, while others resembled spiral staircases rolled round and round in dresses expanded at the hips and trailing off like a corkscrew at the feet.

Some ladies were attired in a sort of revived hobble skirt, others looked like their clothes had been pinned on them in the dark, while the chiffon "series" seemed to belong to no particular system.

INDOOR RIFLE RANGE TO BE ESTABLISHED

Meeting Held Last Night of Discuss Question—Interesting Contests Expected

A joint meeting of the Earl Grey's Own Rifles and the Civilian Rifle Association was held at Stork's Hardware last night for the purpose of discussing the question of establishing an indoor rifle range for the winter. Capt. Fred Stork occupied the chair and after a free discussion of the matter a committee was appointed to investigate the cost of fitting up and operating suitable premises. The committee consists of Lieut. McMorris, Sergt. Jack, Bert Greer and D. Brown. There was a strong feeling in favor of having an indoor range and there is no doubt but that one will be established at an early date.

It is understood that other organizations in the city will establish ranges and some interesting contests may be expected during the winter months.

Washington, Nov. 20.—The 280-year prison sentence imposed on C. M. Summers, president of the First National Bank of Juneau, Alaska, for misappropriation of funds has been set aside by the Supreme Court.

The indictment charged fifty-six offences and the trial court sentenced him to five years on each.

The Supreme Court held that only one count should have been included in the indictment.

Good Bill at Westholme

The bill at the Westholme opera house last night was a particularly good one. The pictures showing the aqueduct in connection with Los Angeles' expensive water supply system were most interesting. The aqueduct is over two hundred miles long. The burning of a steel bridge at Portland, Ore., was another good feature. The musical programme was alone worth the price of admission. The same bill will be repeated tonight.

GREAT OPPORTUNITY FOR MONEY SAVING

According to an announcement in this issue Geo. D. Tite is offering for the balance of this month 20 % discount on his large and well assorted stock of furniture and carpets. The object of this sale is to make room for shipments now on the road. This is a splendid opportunity to buy furniture and carpets of good quality at the prices ordinarily paid for cheap stuff. It is also an opportunity to select Christmas gifts of the right sort at money saving prices. This establishment carries a stock of furniture that would be a credit to a much larger city.

DAMAGE WAS SLIGHT

Fire Department Did Good Work at Fire Last Night

At a few minutes past eleven last night an alarm was turned in from Box 14, corner of Third Avenue and 8th Street. Fire had started in the store of the Prince Rupert Feed Co. from a defective stove pipe. The brigade with the use of the chemical engine only soon had the flames extinguished. The damage, which is fully covered by insurance, will not amount to more than \$100. There was practically no damage to the stock.
