GRANBY BAY NEWS

Granby Bay, Dec. 21.—The
Granby Consolidated still con-
tinues its policy of expansion,
which has been so marked during
the past two years, and the latest
acquisition is the Snowshoe mine
at Phoenix. The Granby have
been carrying on extensive devel-
opment work at the Snowshoe for
some little time, and it is now
understood that they have exer-
cised their option, paying \$20,000
for the property.

The tug Tatoosh towed in the
Gerrard C. Tobey last week,
which is one of the latest pur-
chases of the Granby Company
in the transportation line.

Owing to Christmas, a regular
little exodus is taking place.
Some thirty men went out on the
Beatrice yesterday, and a still
larger number go south today on
the Prince Rupert.

An entertainment was given in
the Catholic church on Thursday
evening last to celebrate the com-
pletion of that building. There
was a god attendance and card
games were the order of the
evening.

A. C. Flanders, one of the com-
pany's foremen, who had the mis-
fortune to get his leg badly
crushed recently, has had this
limb amputated at the hospital
here, and is doing well.

Mr. F. W. Dowling, superin-
tendent of government tel-
egraphs, came in on the Beatrice
yesterday, and leaves for Prince
Rupert on the Grand Trunk Com-
pany's boat today.

Mr. W. A. Williams, the com-
pany's superintendent of smel-
ters, with Mrs. Williams, came in
on the Prince Rupert this morn-
ing to spend Christmas here.

The waterfront presented quite
a busy appearance yesterday
morning. Just after the Princess
Beatrice had docked the S.S.
Amur (Capt. Nelson) steamed in
from the south, and with the
three hulks alongside the wharf

Granby resembled a bustling
port.

The construction and develop-
ment programme here is being
fully lived up to, and present in-
dications go to show that the new
smelter will plow in early in the
new year.

An extension to the wharf in
the direction of the smelter will
be started almost immediately.
The pile-driving fleet has been
brought down from Swamp Point,
test piles are being driven, and
the work will be carried out as
rapidly as possible. Mr. Wheat-
ley, who built the present wharf,
is on the spot, and has under-
taken this new feature.

Ore from the Midas mine at
Valdez, Alaska, which mine was
recently acquired by the Granby
Company, thus far shows up av-
erages from 5 per cent to 6 per
cent copper with \$2 a ton in gold
and silver. Development to date
has disclosed about \$1,000,000 in
values, but the extent of the ore
deposits has by no means been
ascertained. The ores from the
Midas, sulphite in character, will
be utilized as a flux in the opera-
tions of the smelter here, to
which shipments will commence
about the middle of 1914.

New Experimental Farm

A new experimental farm for
Northern British Columbia has
been established on the George
Driver ranch near Smithers in
the Bulkley Valley. Five acres
will be cultivated under the di-
rection of H. E. Walker, district
agriculturist. He will determine
from actual tests what crops are
best adapted to the district and
will settle problems of the
farmers.

I, the undersigned, for and on behalf of
the Granby Consolidated Mining, Smelting
and Power Company, Limited, have de-
posited with the Registrar of the Prince
Rupert Land Registration District, Prince
Rupert, B.C.:

(a) A description of wharf which this
company proposes to construct in front of
Lot No. 479, Granby Bay, B.C., said lot and
the adjoining under-water lot upon which
the wharf will be constructed being the
property of the said company.

(b) A general plan showing the position
of the property relative to the proposed
wharf.

(c) A general plan showing more par-
ticularly the relation of this wharf to the
shore line, with cross-section of the pro-
posed wharf showing type of construction.

PUBLIC NOTICE

A CHANCE TO WIN \$25.00

I will forfeit the above amount
if there is any stove in
Prince Rupert that I cannot
cause to give perfect efficiency
in heating its hot water tank
without any increase in fuel or
in any way effecting its baking
qualities. My device is new in
this city although I have in-
stalled quite a few. Don't wait
hours for your hot water. Get
my device and enjoy satisfac-
tion. The price is very reason-
able.

I'm the man who puts
Uniformity into
ROYAL STANDARD

I came to Vancouver from the
largest mill in the world. My
sole job is to test ROYAL
STANDARD products day
in and day out. I do my
work so well that a poor sack
of ROYAL STANDARD
is impossible.

I first test in my labora-
tory the choicest samples I can

procure of Canada's bumper
wheat crop. Then I make
bread from each. Only when
delicious bread results—light,
white and velvety—do I order
wheat like my samples. My
vigilance never relaxes.
The delicious uniformity of
ROYAL STANDARD
never varies.
