MARTIN LEAVES BRITISH POLITICS PERMANENTLY

BRITISH COLUMBIA MAN, WHO HAS SET IN PARLIAMENTS OF FOUR DIVISIONS OF THE EMPIRE, WILL RETURN HOME

London, July 9.—Mr. Joseph Martin, M.P., will sail on the *Titania* on Saturday for Canada, where he will reside permanently. He will remain a member of the House of Commons for East St. Paul, however, until the next general election. A certain amount of friction existed for some time between Mr. Martin and his political chiefs, and a section of his supporters in the constituency over an independent attitude he has

adopted over certain questions, notably when he voted against the Government on the "Marconi question." In this connection he offered to resign his seat and fight on his own account, but received an intimation from the chief government whip that in such a case another official Liberal candidate would not be brought forward against him. Mr. Martin has held the office of Premier of British Columbia, and will no doubt again enter the Canadian political arena.

GOVERNMENT WILL NOT PAY EXPENSE DEPORTING HINDUS

SHIPOWNERS RESPONSIBLE UNDER LAW AND MUST TAKE THEM BACK—GOVERNMENT WILL NOT LET THEM STARVE

(Special to The Daily News) Ottawa, July 9.—That the Government should bear the expenses incident to the deportation of Hindus on the *Komogata Maru* was suggested by their friends, while the immigration department will not let the Hindus starve, they do not propose to

overlook the responsibility of the shipowners under the law. The steamship company, having brought a shipload of ineligible to Canada, they must take them back without compensation, and it is the immigration department's purpose to make them do so.

ROBBERIES GOT \$15 IN CASH REGISTER

The register was later taken back of the hotel with the bottom knocked out and the contents gone. The hotel clerk was dozing when the robbery occurred and cannot give a description of the criminals. The Provincial police are working on the case but have made no arrests as yet.

A WONDERFUL SHOW AT THE EMPRESS

"The Master Mind" was the bill at the Empress last night. This is a great set of pictures and as a wonderful portrayal of character have probably never been surpassed. Mr. Edmund Breese takes the title role and as the "Master Mind" does some splendid acting. The story runs as follows: The little Allen boy is stolen by a criminal gang and is kept in their power for years, finally he enters manhood in this criminal environment with the result that he becomes the most accomplished criminal of the age. The story follows him through a life of most astonishing misdeeds until finally his better nature asserts itself and he endeavors to do all in his power to atone for his past criminal life. It is a superb set of pictures and should be seen by all.

STARTLING EVIDENCE AT HILLCREST ENQUIRY

Hillcrest, July 9.—Startling and contradictory evidence is being given at the enquiry into the terrible explosion in the coal mine on June 19th.

F. Aspinall, the district inspector, declared the mine to be very dusty and gaseous. The fan ventilation was very bad. Fan No. 2 had been reversed. He even went so far as to state that it was fair to say such a condition might have been responsible for the explosion.

Aspinall has been inspector of the Hillcrest district for two years. He is a resident of Calgary.

GRANBY PRESIDENT IN OPTIMISTIC MOOD

Boston, July 9.—President Nichols, of Granby Consolidated, sends this word to stockholders with dividend checks:—

"The three furnaces of our new smelter at Anxox are now running. Naturally some time must elapse before the exact amount or cost of our normal output can be known, but no unexpected difficulties have been disclosed either as to mechanical appliances or as to character of the ores.

"The shipments of copper so far received are of unusual purity and the value of precious metals content exceeds our expectations. Some inconvenience and delay has been suffered through the action of the Canadian Government in restricting immigration, but it is not expected to have any permanent effect on our estimated labor cost.

"Operations at Grand Forks and Phoenix are proceeding as usual."

Captain Bartlett Says Men Took Provisions for 120 Days

(Special to The Daily News)

Nome, July 9.—Captain Bartlett says he knows nothing of the report from Ottawa that eight men of the expedition crew from the *Karluk* have perished.

The captain said the men took provisions enough to last for 120 days, and that while he does not know what may have happened to them, he still believes them safe.

The despatch above referred to reads as follows:—

Victoria, July 9.—Word has been received at Ottawa that eight of Stefansson's party are lost. The men left the *Karluk* in two parties, four in each of these.

After the steamer was crushed in the ice neither party rejoined the main party, which set out later and reached Wrangel Island in safety.

Until the relief ship goes to Wrangel Island about the end of the month the fate of the eight men will not be known.

PROMISES BEST RUN SOCKEYE SALMON SINCE SEASON 1902

SPRING SALMON ARE ALSO COMING IN BETTER NOW—GOOD SEASON FOR CANNERS AS PRICE OF THE CANNED ARTICLE IS HIGH

"So far the salmon fishing on the Skeena promises to be the best season since 1902," said Fisheries Officer Norrie this morning. "Twelve years ago there was an early run of sockeye and it was the best year in the history of the Skeena. There is an early run this year. All the boats are getting sixty on a tide and some from two hundred to three hundred. Spring salmon are running well now, too. They were very scarce early in the season but I saw several boats with 1,500 pounds each in them. The price is five cents per pound, which makes a nice catch."

There is still a lot of friction on the Skeena caused by the Haysport cold storage plant buy-

ing spring salmon from the boats belonging to the canneries. The Haysport company do not equip any boats but buy from fishermen who are equipped from the canneries. The canneries have a scout boat watching for fishermen who sell to outsiders and whenever one is discovered his boat and gear are taken away from him.

One feature of the salmon fishing game which is very favorable to a good season is the fact that the sockeye are still all outside, which means that the big schools inside are still to come.

The price of canned salmon this year is very high again and the canners should all make good profits.

One Member of Arson Squad Was Caught in Attempt to Wreck Famous Home

Glasgow, July 9.—An attempt to destroy the cottage at Ayr, where Robert Burns, the poet, was born, January 25th, 1759, was made just before daybreak by militant suffragettes.

WALKED 25 MILES WITH MAIMED BODY

John Creagh, the owner of Brian Born mine on the Rocher de Boule mountain, who met with the accident on his claim about ten days ago, is in the Prince Rupert hospital. He had a nerve-racking experience. The accident occurred by the explosion of a stick of dynamite which had been left in the oven. Mr. Creagh was cut and almost blinded by the flying debris. One hand was partly torn away, and while unable to see more than a few feet ahead of him, he walked twenty-five miles to the Hazelton Hospital for treatment. It took him twelve hours to make the trip.

He is now recovering very well and is able to be about the city.

LIGHT MACHINE WILL BE RE-WOUND

Provision Has to Be Made to Take Care of Service Till Hydro-Electric Plant Is Ready

It has been decided by the city light department to have the old dynamo in the city electric light plant re-wound and put into commission to help out the present plant when the load becomes heavier in the Autumn.

It was claimed that the city hydro-electric plant would be ready by September first, but this is now realized to be an impossibility and some arrangement has to be made to take care of the service until the new plant is ready.

There is the old original machine which was used in the first plant. It has been standing idle for the past two years as a different voltage is now used. This machine will be shipped to Vancouver and re-wound. The cost will be about \$400. The requisition for it was passed at Monday's Council meeting.
