Three hundred feet of cable was ordered for the new scow. It was not said whether it was to be utilized for its original purpose or for a pleasure yacht. The thing will dump all right if all large boxes and sticks are kept out and the remainder passed through a small coffee grinder.

The Hotel Prince Rupert paid \$174 for light in December. In view of the size of the bill and the quiet times, the management wrote the Council asking for some measure of relief. It was referred to the Light Committee for report.

The regular monthly luncheon of the Board of Trade will be held on Wednesday next at 1 p. m. on the Prince George. An address on "Agriculture in the North" will be given by Mr. A. H. Tomlinson, of the Department of Agriculture.

Alderman Maitland has an extra curl in his long white locks since he again came out on top of the election list. Last night he advocated that the city water and light rates should be brought down to the lowest possible cost. This was necessary, if we were to induce industries to locate here. The city engineer will report on this matter.

Word reached the city yesterday by wire that Bert Carter, a member of the First Contingent, died at Salisbury Plains. He was well known to a number of local people, being a schoolmate of G. W. Kerr and D. McD. Hunter. A few years ago he was well known in lacrosse circles in Vancouver as "Nick" Carter. He was one of their best players.

#### TWO FEET SOLID OF CHALCOPYRITE ORE

Trimble and Anderson Are at the Great Ohio Mine—Property Improving Steadily.

Hazelton, Jan. 19.—It is a long time since so important a strike has been made in this district as the one reported the past week from the Great Ohio group on the Rocher de Boule. Some weeks ago it was reported that the crosscut had hit the vein and that they were drifting in ore. A short time ago the clean ore came in and now they have two feet of solid, clean chalcopyrite. This ore is at an elevation of 4,600 feet and is 500 feet lower than the Rocher de Boule tunnel. The ore is also improving as they drive into the hill. On Wednesday night R. P. Trimble and his associate, Mr. Anderson, arrived from Portland. They are expected in New Hazelton Saturday night and that a statement of the new plans will be made.

### MIKE'S INGENIOUS DEFENCE UNAVAILING

At the Police Court this morning, a man called Mike O'Donohue was charged with stealing ducks belonging to a Chinaman. The prisoner was caught in the pen at 4 o'clock in the morning, trying to wring a duck's neck, and was apprehended.

O'Donohue put up a deliciously Irish defence, claiming that he heard some one in the pen, which is rather deep, and, going over, a man inside asked him to help him out. In doing so, Mike claimed he fell in himself and was unable to get out.

In spite of his ingenious defence, the hard-hearted magistrate sent Mike down for nine months, the sentence covering a vagrancy charge and also one of cruelty to animals, as he had wrenched a wing off one duck in trying to kill it.

### WANTS PRINCE RUPERT HARBOR FORTIFIED

Before the Council closed last night Alderman Morrissey said the Council should take up with H. S. Clements the question of proceeding with the fortification of Prince Rupert. This matter was being considered by the government and now when times were quiet would be a good time to have the money spent.

The mayor referred to the fact that Premier McBride was advocating the fortification of the Pacific and Prince Rupert should get its share.

The matter may be taken up with the member if he comes this way, or through correspondence to Ottawa.

#### ALMOST SUSPENDED.

A couple of the aldermen almost got suspended last night. Alderman Kerr, in speaking about the new Council, said we had the making of a keen body—there was an edge to it. He was afraid, however, that they would take to drink—it included a Beveridge; whereupon Alderman Montgomery said it might also be called a cheap Council—it included a Nicol. Nobody was hurt.

### ANOTHER MURDER AT FORT GEORGE

Another murder is reported from the vicinity of Fort George. At Chief Lake, north of the Nechaco River, Job Vermillion, a rancher, was shot and killed in his shack by his shackmate, Fritz Von Deussen.

About January 14, neighbors of the murdered man visited his shack, only to find it a pool of blood. They reported to the police, and the partner, Von Deussen, being missing, suspicion fell on him. They searched for him and finally found him in a hotel at Prince George. The actions of Von Deussen on the approach of the police indicates that he was the right man. He was arrested and finally confessed, but said the shot was fired by accident. He then reported where the body was. He had carried it to a nearby gulch and hid it in the snow.

The police proceeded to the spot and found the body as directed. It had been placed in the snow while warm, as the snow had melted about it. Von Deussen was sent to Kamloops for trial.

Vermillion, the victim, was a native of Holland, his father being chief clerk in the city of Amsterdam.

#### MAYOR'S SPEECH FROM THE THRONE

The mayor began last night by delivering a "speech from the throne." He outlined the difficulties that lay ahead for this year's Council. Finances were badly tied up and it was possible that there would be hard sledding. He believed, however, that if everybody worked together they would be able to accomplish something, and perhaps do more than the people expected of them. He was in favor of looking into the possibility of starting a permanent sewage system. A road would be constructed to the cold storage plant. An attempt would be made to secure free use of the three lots adjoining the Westholme Lumber Company from the government and if necessary the city might consider putting in a fish wharf free for all. He was in favor of doing everything possible for the advancement of that industry.

#### OPERA WRITERS CAPTURED.

Paris, Jan. 18.—Franz Lehár and Leo Fall, who wrote "The Merry Widow," have just been captured by the Russians in Galicia, where they were serving as officers in the Austrian army.

### THUNDER OF THE GUNS DOES NOT BRING RAIN

Idea Absolutely Without Foundation, Says Scientist in London Times.

London, Jan. 19.—"Like the supposed influence of the moon upon the weather, the popular belief that powder brings rain is baseless," writes a scientist in The Times. "About four years ago the First Lord of the Admiralty was gravely asked in the House of Commons whether he would instruct the fleet to carry out its heavy-gun practice at some other period of the year than in the middle of harvest time, when the resultant heavy rains may cause serious loss to the farming community." The idea is absolutely without foundation. Experiments made in America and on the Continent show that in dry weather no amount of concussion has the slightest effect in the production of rain.

"At the present time there is one fact which should at once dispose of the cherished theory. There is no reason for thinking that gunfiring at the front is more violent than it was in the earlier stages of the war. The rain should therefore have commenced shortly after the outbreak of the war. As a matter of fact, nothing of the kind took place. In August and September the rainfall was much below the average.

#### LOCAL JEWELER DOES OWN MANUFACTURING

Prince Rupert has a very enterprising young business man in the person of Mr. C. C. Loop, the jeweler. He is the first to install machinery for the manufacture of jewelry locally. He has put in a small rolling mill, where all kinds of articles can be turned out. He also has a small smelting plant and a little foundry where rings and articles of irregular shape can be made. He already turns out everything in the line of rings except clusters, which he expects to attack a little later. The articles turned out are a credit to a much more ambitious plant and Mr. Loop is to be congratulated on the progressive steps he has taken. Perhaps in this we already see the nucleus of another plant that some day will rival Henry Birks!
