ASKING FOR LIGHT ON NEW WAR TAXES

Toronto, Feb. 25.—Much doubt is already being expressed as to the exact application of the new war taxes. Are circular letters included in the new stamp tax? is a question being asked by many business firms in the city. If everything in the form of a letter, whether sealed or not, is subject to the war-stamp, a reduction in circular letters sent through the post is likely to ensue, in the opinion of one business man of Toronto. Another opinion was to the effect that many United States firms maintaining branches in Canada will circularize the country from points in the United States. This, while burdening the Canadian mails to the same extent, would entail a loss to Canadian paper men, printers and distributors. It is said that many orders for printed advertising matter are being withheld.

A meeting of the executive of the Proprietary Articles' Association was held in the city Saturday to discuss the meaning of the tax on medicines. A tax on proprietary or patent articles seems to meet with general approval. The opinion of men in the medical supply business is that doctors' prescriptions calling for patent medicines will not be affected by the regulation.

THE ENGLISH SABBATH.

It may not occur to the average neutral that a people supporting armies to fight battles every day in the week would quibble over the morality of reading newspapers on Sunday. Yet the people of Great Britain are in the grip of a controversy covering the point. Before this war broke out Sunday newspapers were unknown in England. Despite all the protests, similar in tone and text to those once employed in the United States, the Sunday extras are meeting with public favor, and we are willing to risk the prophecy that they will continue and become permanent after peace returns.—Philadelphia Telegraph.

BORDEN GOVT.'S EXTRAVAGANCE MAKES WAR TAX NECESSARY

EVERY CENT OF WAR TAX MUST GO TO COVER DEFICITS—WAR EXPENDITURE IS HANDED DOWN TO FUTURE GENERATIONS.

As the people of Canada begin to understand that the heavy burden of new taxation is not imposed to pay the Dominion's war bill, but to meet a huge deficit in the ordinary expenditure of the country, a feeling of amazement spreads throughout all classes of the community. The few students of the Dominion finances who knew the record of the Borden government were not surprised. They knew that, war or no war, a smash could not long be deferred. Now that the taxpayer begins to feel the effects of the past three years of reckless spending at Ottawa he may be interested in learning why the smash came.

The story is best told in the form of official figures from the government's own records. A study of the public accounts for the year ending March 31, 1914, pages 20 and 21, will show that during the extraordinary period of expansion between 1896 and 1911, while the Laurier government was in power and Mr. Fielding was Minister of Finance, there never was an increase of the expenditure chargeable to Consolidated Fund—that is, the ordinary expenditure of the country—greater than eight millions in any one year. The ordinary expenditure during the last four years of the Laurier government was, in 1908, \$76,644,000; in 1909, \$84,064,000; in 1910, \$79,411,000; in 1911, \$87,740,000. The Borden government came in during October, 1911, and became responsible for the expenditures of the year ending March, 1912, which were \$98,161,000. These expenditures were based in some measure on Mr. Fielding's figures, so that responsibility may be said to rest on both parties for 1912. In 1913 the expenditure on consolidated revenue account went up to \$112,059,000, in 1914 to \$127,384,000, and for the current year ending March 31, 1915, Mr. White says it will be \$140,000,000. For the year ending March, 1916, he estimates that it will be the same amount.

Now what does this mean to the taxpayer? Setting aside all war expenditures and all expenditures on capital account, the Borden government, less than four years in office, has increased the cost of operating the ordinary services of the country and of paying interest on the country's debt from \$87,774,000 to \$140,000,000. Assuming that there are now eight and a half million people in Canada, this means additional expenditure of \$6.14 for every man, woman and child in the Dominion. Not all of this additional expenditure comes out of the taxpayer's pocket. Postal revenue has increased almost four millions, and receipts from government railways and kindred services over three millions. The great bulk of this colossal increase of fifty-two millions in ordinary expenditure, however, has come and must continue to come from taxes. In the year ending March, 1911, the country's revenue from taxes was \$89,835,000. In 1914 it was \$217,478,000. In the current year ending March 31 there will be a great falling-off in customs revenue, and as a result an enormous increase in the public debt. In the year ending March, 1916, the people of Canada will have to contribute in taxes at least \$140,000,000 if they are to pay their ordinary current expenditure, apart entirely from the cost of the war.

This amazing increase in taxation has been brought about by utter recklessness in the conduct of the business of the country. An illustration of how expenditures are increased may be found in a return tabled in the House of Commons on Friday showing dismissals from and appointments to the Civil Service since the present government came into power. Although the return is not complete, and is dated last spring, the total number of dismissals given is 2,115, while the appointments reached the enormous total of 10,576. In the Agricultural Department there were 45 dismissals and 579 new men engaged. In the Customs, 271 dismissed and 1,649 engaged; in the Department of Indian Affairs, 135 dismissed and 295 engaged; in the Department of Inland Revenue, 73 dismissed and 291 engaged; in the Interior Department, 309 dismissed and 1,651 engaged; in the Immigration Department, 110 dismissed and 343 engaged; in the Department of Justice, 20 dismissed and 258 engaged; in the Labor Department, 21 dismissed and 60 engaged; in the Department of State, 20 dismissed and 287 engaged; in the Department of Railways, 363 dismissed and 2,076 engaged; in the department of mines, one dismissed and 103 engaged; in the Department of Trade and Commerce, 13 dismissed and 49 engaged; in the Royal Northwest Mounted Police, 124 dismissed and 527 engaged. Here we have a great army of over 8,000 additional office-holders quartered on the public. Some of them were required to conduct the public business efficiently but it is not too much to say that thousands of them owe their places to an abuse of the patronage system and were not required for the carrying on of the country's business.

An example of reckless squandering of the country's money is found under the heading "Railway subsidies." During the Laurier government's term of fifteen years in office it granted railway subsidies totalling \$25,140,000. In the years 1912, 1913, and 1914 the Borden government granted railway subsidies totalling \$24,830,000—almost as much for the railway promoter in three years of Borden and White as in fifteen years of Laurier and Fielding. Column after column the figures show the same thing. The government of Canada has been spending money like a drunken sailor, and now the people must pay for the debauch. They will have to keep on paying long after the present generation has ceased to bother about taxes. The year the Laurier government came into power the interest on the public debt was \$10,645,000. When it went out fifteen years after-ward it was \$12,535,000. Mr. White tells us that in the year ending March, 1916, it will be \$21,000,000. Before such figures it is to be wondered at that the country stands amazed?—Globe.

Make Monday Ironing Day

LET Sunlight Soap do your washing Monday morning and you can do the light ironing Monday afternoon. The rub, rub, rub at the board has no place in the Sunlight way—so with the hardest part of washing cut out you'll feel like making it a good day's work by doing at least part of the ironing.

Follow the directions that cut your work in half and remember there's nothing in Sunlight to injure fine fabric or dainty hand. A \$5,000 guarantee backs this statement.
