

KIDNEY DISEASE WAS KILLING HIM

Until He Used "Fruit-a-tives" The Great Kidney Remedy

HAGERSVILLE, ONT., Aug. 26th, 1913.
"About two years ago, I found my health in a very bad state. My kidneys were not doing their work and I was all run down in condition. Having seen 'Fruit-a-tives' advertised, I decided to try them. Their action was mild, and the result all that could be expected. My kidneys resumed their normal action after I had taken upwards of a dozen boxes and I regained my old-time vitality. Today, I am as well as ever."

In the Letter Box

Editor, Daily News,

Dear Sir:—Since the auto accident of the other day, there has been considerable criticism of the auto drivers of the city. Some of this criticism has been well merited, as we think this accident might have been averted by a little more care, but there is also another side to this question. The regular taxi drivers of the city have considerable cause of complaint against some children who hang on to their cars, and who think it sport to run out in front of an on-coming car and then, when the car approaches, to run away again.

Speaking for ourselves we are glad to receive any just criticism, and, if our drivers are not complying in every respect with the law, we shall be only too pleased to have them reported to us. Our instructions to our drivers are for them to use the greatest care, to run slowly, to be continually on the watch and to constantly sound their auto horns, but we do think the public should co-operate with us in this respect and parents should try to help us by teaching their children to keep away from autos as much as possible. We have nothing but condemnation for those auto drivers who drive furiously along the narrow streets of the city and who never take the trouble to sound their horns.

Yours truly,

FORD TAXI SERVICE.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

the new "Papiertuch," which the German scientists have invented in order to replace woollen fabrics. This military cloth consists of thin, specially treated sheets of cotton, or some other fine textile, between which is a sheet of cellulose cloth. The cellulose cloth will not stand a hard pull, but it retains wonderful bodily warmth. The thin outside sheeting prevents tearing. One story is that the outside layers are made of nettle-cloth. These coats are airtight, and they have to be ventilated with rows of small holes. Germany has sold 100,000 of them to Bulgaria. The Austrian military blankets are of the same material.
