

CONSTANT PAIN AFTER EATING

The Tortures of Dyspepsia
Corrected by "Fruit-a-lives"

Dr. MARTIN'S, N.B.

"For two years, I suffered tortures from *Severe Dyspepsia*. I had constant pains after eating; pains down the sides and back; and horrible bitter stuff often came up in my mouth.

I tried doctors, but they did not help me. But as soon as I started taking 'Fruit-a-lives', I began to improve and this medicine, made of fruit juices, relieved me when everything else failed."

THE FREEDOM OF THE SEAS FOR FISHING

"The sea should be free to all men of the country to exploit within the three mile limit," was advocated by Capt. James Stewart of Vancouver, in an interview published in The Province in a recent issue. "Let every man who is prepared to equip himself with the necessary gear go fishing when and where he chooses. The only government restrictions necessary are those to prevent the depletion of the spawning grounds and catching fish out of season. These laws should be administered by a Fisheries Board composed of practical men of British Columbia."

Captain Stewart thinks that Ottawa is incapable of handling the Pacific fisheries at such a distance. In this, he is not alone in his opinion. The headquarters of the Fisheries Board are too far away, and they are out of touch with conditions as they exist here. They are dependent for their point of view upon the members of the Advisory Board, who may be fishermen, but more often are not, and upon their local officials, who are not necessarily fishermen either.

"Do away with concessions or licences," continued Capt. Stewart, "and we shall soon have a development of the industry. Concessions are an absolute bar to development. I really fail to see why this government should claim any right to exact money out of the men of this country for either fishing concessions or licences to fish."

Anyone Can Have Whipped Cream

PACIFIC MILK is so rich in cream that it whips as easily as most of the fresh cream sold around the Province.

Mrs. McCary of New Westminster wrote in to say that she whips PACIFIC MILK regularly for a treat for the youngsters for breakfast.

All she does is to set aside the amount she wants, in a cool place, for a time and then beats it with a sieve egg-beater. She puts this on toast and gives it to the children for breakfast.

You'll find it is good on cakes and

Keep Chickens

This is National Service

They will help
Keep you

The cost of meat is the heavy item in the food bill.

Poultry and Eggs will help take the place of meat.

The food that goes to the garbage pail from the average table will provide one-third the feed for a flock of 8 to 10 hens.

Poultry will thrive where vegetables will not grow. The outlay is small. A few minutes a day is all the time required.

A small flock in your back yard will go far to keep you supplied with eggs, broilers and roasters.

How to go about it

BUY eggs for hatching or day-old chicks; borrow or buy a broody hen or an artificial brooder. A slatted packing-box will house the hen and chicks. Feed the chicks bread crumbs soaked in milk and squeezed dry. Feed five times a day, alternating with prepared chick feed, only as much as they will eat up clean. Remember that a hungry chick is a healthy chick.

CAUTION: Chicks must not be fed until at least 48 hours old, and then only sparingly.

If you can, start now with eggs or chicks; if not, arrange at once with the local poultry association for pullets in the fall.
