

The Latest and Best in Shoe-dom—Doubles the Life of Any Pair of Shoes.

PHILLIPS'
MILITARY SOLES
AND HEELS

For every member of the family—heavy or light weight for dad—medium weight for mother—the young people—a special stout for the youngsters—small sizes for the kiddies.

A set of rubber pads of indestructible toughness—attached to the shoe at every point where it strikes the ground.

No wet feet—Phillips' lifts even the leather sole out of the wet and damp—and that's what makes leather wear out fast.

Solid comfort—gives a springy step—takes the tiredness out of walking. It's rubber—you can't slip—it won't wear the floor.

Attachable to any pair of shoes—all sizes and weights—your shoe dealer or repair man can carry them and will attach them.

C. V. Evitt has taken out a building permit for \$80 to make alterations to the R. L. McIntosh building on Third Avenue for an electric bakery. D. H. Morrison has the contract.

DOES SHOULD BE PROTECTED

"National Geographic Magazine" Makes Convincing Appeal for Female of Species.

"The National Geographic Magazine," in a recent issue makes an appeal for the perpetuation of deer by the close observance of laws regarding the illegality of shooting does. In view of the fact that it is said that local hunters, in spite of game regulations, shoot does indiscriminately and that a great number of the female of the deer species are slaughtered annually, the information and advice contained in the magazine will not come amiss. It says:

The deer is the one big game animal. The first and foremost necessity is the protection of the females and fawns wherever the antlered animal is found. Just let it be understood that when a buck is shot the number for the following year is lessened by only one, whereas he who kills a young doe destroys, by a single shot, 151 bucks and 151 does. For it has been shown upon a strictly scientific basis and by accurate mathematical calculation that a doe and her descendants in a period of ten years, not counting out the natural casualties, will produce a total of 302 deer, and by the death of this ancestral mother the link is broken with the irrevocable loss stated.

Convincing Figures.

The same proportion holds true with a larger number, for ten does and their descendants will produce—1510 bucks and 1510 does, showing that when the female is protected more deer can be killed each year, beside having an increased number in the woods.

Such a result is not, after all so mysterious, if we keep in mind the methods of reproduction applicable to domestic animals; for if a farmer has as many bulls as cows, as many roosters as hens, and killed them indiscriminately of sex, he would of course be classed as demented.

Just because our wild animals bear their young in remote thickets, we seem to think their maintenance is based upon a different method, and go on killing the females year in and year out under the blind assumption that it can make no particular difference between extinction and perpetuation.

GOLDEN CORN WAS NEWMARKET WINNER

Filly Owned by Marshall Field Won Thousand Sovereign Stake.

LONDON, Oct. 14.—Middle Park stakes of one thousand sovereigns for two year olds over a six furlongs course at Newmarket was won by Marshall Field's filly Golden Corn. The second horse was Col. Joel's Poly Hystor and the third Kennedy Jones' Flying Orb. Only five horses started.

DAUGHTERS AND SONS OF ENGLAND SOCIAL EVENING LAST NIGHT

Pleasant Whist Drive and Dance Was Given in Knight of Pythias Hall.

The Daughters and Sons of England held a whist drive and dance in the Knight of Pythias Hall last night under the joint auspices of the social committees of the two societies.

There were 18 tables of whist and the first prize winners were Mrs. J. Oliver and W. G. Hughes, the latter having to contend with J. Jennings. The consolation awards went to Miss Mabel Viercek and J. G. Viereck, P. Joslyn having tied with Mr. Viereck.

Following the serving of delightful refreshments, there was a dance, music being provided by Sam Brail and Dave Fanthorpe. J. Day Bell was in charge of the card tables, Jack Cobb was master of ceremonies for the dance, and F. Grimble was on the door.

G. Sullivan arrived from Ketchikan yesterday afternoon.

Sport Chat

Now that the World Series is over what are the fans going to talk about during the next few months? That is an old question which was always asked about at this time of the year. October and November are generally an off season for sport and there is little doing anywhere. Baseball and football are practically over but hockey will soon be taking the stage. At the present time it looks as if there is to be more organized hockey in Canada this winter than ever before. The Pacific Coast Hockey Association will be active in the West as will the National Hockey Association in the East. On the prairies more ambitious plans than ever before are being formulated. Hockey will take the attention of the fans as far as outdoor sport is concerned while basketball will prove the home diversion. So let's start the hockey and basketball talk.

Billiard and snooker tournaments are now under way at the Wanderers' Club. As was the case last spring they are being conducted on the elimination basis and the first round is now on. Handsome prizes are being offered. The present billiard champion of the club is Percy Tinker who won the handicap last spring. The following players are taking part in the present tournaments: Joe Howe, Ben Wearmouth, C. H. Maddison, A. Macdonald, Jack Hildite, Billy Fulton, Dr. Cade, Morris Condon, Sam Harper, Norri Pringle, Dick Lambie, G. S. Fitzmaurice, Dick Shockley, George Hill, Percy Tinker, D. H. McKay, Paul Aivazoff, Art Easson, Billy Vickers, E. A. Donohoe, Jimmie Farquhar, T. B. Hoopes, Fred Stephens, G. P. Armstrong, Bill Nelson, Harry Thrupp, Steve King, Bob Stewart, Froberge, Douglas, Stork, Wilson and A. Greenwood. The first round is to be over by next Thursday night.

The Smithers Athletic Club was established last week to carry on all lines of sport in the railway town and took after the establishment of a skating rink. All equipment of separate organizations in the town is to be handed into the association. Arrangements have already been made to have a skating rink established on the vacant lots adjoining the town hall. Electric lights and fresh water will be provided for it and very little work will be necessary to make the rink. The ground is to be prepared to take advantage of

the first freezing weather. Finances are being raised by means of membership tickets and a drive for their sale is now on. The temporary officers of the newly formed club are: president, L. B. Warner; vice president, N. P. Moran; secretary, O. K. Lord; treasurer, Jas. Reid, Committee, W. H. Woodson, J. E. Kirby, W. S. Enry, George Raymond and L. McGill. Besides these each member of sport is entitled to one member on the executive.

KNIGHTS OF COLUMBUS DECIDE TO ENTER IN BASKETBALL LEAGUE

At a meeting of the members of the Knights of Columbus interested in sport, it was decided to enter a team in the intermediate league which is being formed. The meeting was called by J. C. Gavigan, Jack Venables and U. LaCasse.

One of the members who has taken an interest in the team stated to the Daily News this morning that they expected to make a strong team and if they did not win the championship they expected to make a good standing at the close of the season. It is expected that the Fair

FAIR BUILDING FOR BASKETBALL

Delegation Waited on Association Last Night—Provision for School Children.

Negotiations are under way between the Fair Association and the Basketball League for the use of the Agricultural Hall this winter for the playing of games. Last night W. E. Willicroft, president of the Basketball League, and George Russell, secretary, waited upon the Fair Board to take up the matter. The Association expressed itself as favorable to the building being used providing proper safeguards are taken against damage that might be incurred to the premises. In this connection a letter was received from Harold Campbell, principal of the schools, asking for the use of the building for the school children. There will be a conference between the executive of the Fair Association and the Basketball League at an early date to go more fully into the matter and perfect arrangements. Provision will also be made for the school children. It is expected that the Fair

Association will take over the business and property of the defunct Prince Rupert Amateur Athletic Association which, last year, put in considerable improvements at the Agricultural Hall for athletics purposes. The quarters will be put under proper and business-like control for the protection of the property.

ROYAL MILLS HAVE STARTED CUTTING

Is Only Mill in District Which is Working Outside of Ocean Falls.

The Royal Mills at Pitman Spur, of which Olof Hansen and R. E. Allen are the owners and operators, resumed cutting operations a few days ago and it is proposed to keep the mill running as long as possible throughout the winter. Logging in the woods is also going on. With the closing down of the Buckley mill on Graham Island, Royal Mills is the only plant in the district which is cutting outside of the Pacific Mills at Ocean Falls.

The Kaien with 13,000 pounds of halibut was the only fish boat arriving in port this morning.

FOOTBALL WARRIORS PREPARING FOR LIVELY SEASON.

LINED UP FOR PRACTICE.

stitutions where big games draw well, notably Harvard, Princeton and Georgia Tech, are planning big sections to hold the crowds, so that crowds of 40,000 will not be a surprise if the interest keeps growing. Other colleges have engaged baseball fields in which to stage their games.

Intercollegiate games, once a novelty, are a growing feature of college intercourse, and double headers are being slated for early engagements. Harvard and also West Point Military Academy will entertain home fans with two games during one afternoon. The big three engagements will occur this year as follows: November 5, Princeton vs. Harvard, at Princeton; November 12, Yale vs. Princeton, at New Haven, and November 19, Harvard vs. Yale, at Cambridge.

LOOK AT MEN.

I gave my Love a rose to wear.
She took it with a smile.
I gave my love a heart to keep.
She kept it for a while.
I gave my Love a tender thought
She gushed with joy and glee.
I gave my Love my fortune—
Now, fellows, look at me.

TACKLING
the
DUMMY

THOSE GERMANS.

Two American girls visiting Paris, entered the Louvre, and caught sight of the Venus de Milo.

"My Gawd, Maggie," exclaimed one, "see what them Germans did to that poor Belgium Woman."
