R. drew its profits from Dominion land grants, therefore the Conservative party was financed by the land grants made to the railway years ago by the same party. Go a step further and you get yourself into a maze and go crazy, so why worry?

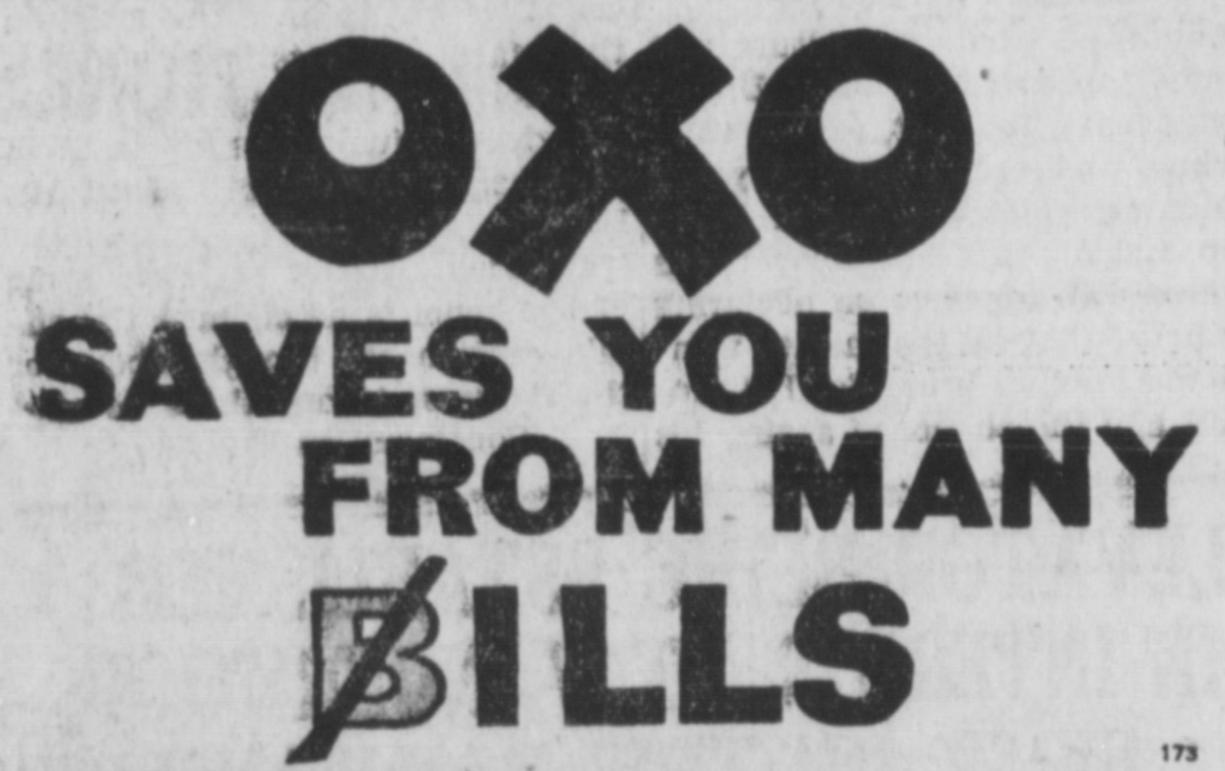

UNANIMITY

An effort was recently made to break up the Liberal party by inducing some of its members to accept cabinet positions in the Tolmie Government. The Tolmie effort brought great dissatisfaction to many of his followers. some of whom have been calling upon him to resign. On the other hand it seems to have knitted the Liberals into closer bonds, for in all the district meetings prior to the convention there was no defection reported from the party ranks and at the convention itself in Vancouver there was unanimity in regard to leadership and apparently so in regard to the platform.

The Liberal convention seems to have followed the suggestion first given publicity by this paper, that there should be union of all interests in the next cabinet but that the men who have failed to make good during the past few years could not expect to be represented.

ENGLISH CONVERSION

The British Government has recently converted securities amounting in all to approximately \$9,000,000,000 from five percent to three and three-quarters percent interest and the price of the converted stock has risen to par. That is an indication of how Great Britain is "coming back." It is a wonderful record and has been largely the result of the keen patriotism of the holders of the British stock not approve of cancellation of war at West Liberayt and was the guest whose reply to the government appeal was instantaneous. debts.
