PROPERTY AND PERSONS ASSESSMENT AND PROPERTY.

A few years ago the tennis courts of Prince Rupert tennis club were the only ones in use in the city. Now the Canadian National and the Northern B.C. Regiment have courts and all are well patronized during the summer months. In fact on some of the courts games have been in progress all winter The addition of a few courts in other parts of the city would help considerably, and no doubt all would be well patronized. Several cities, in the west particularly, have municipal courts. which cost little for upkeep after once they are put in shape.

Chick Evans has been named "architect" for one of the most extensive golf course projects ever conceived-construction of a chain of approximately 50 golf courses that eventually will circle Chicago. For a salary of \$400 a month Evans, former national open and amateur champion, will devote his entire time to advising the Cook County Board as to the best manner of laying out the courses. These links, to be located in tracts totalling 15,000 acres, some of which are undeveloped and timbered, will extend from the North around the city and touching the lake just inside the Indiana-Illinois line. Evans' amateur status will not be impaired by his employment.

The address of Mr. Fulton was rather lengthy and he also quoted a number of cases in support of his contention. The magistrate said he would consider these cases and adjourned court until 10 this morning for further argument by council. This morning, Milton Gonzales, coun-

for defence, argued that various eases mentioned by counsel for the prosecution had no bearing on the case or confirmed the argument which he had already advanced.

Mr. Fulton, in replying, said that he would ask the court to examine the various references as there was evidently no dispute as to the law in the matter. He argued that if the court should find that it was not a bona fide club then the cases cited related to the case.
