THE COSY CORNER

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

VOILE AND EYELET EMBROIDERY

DOINGS IN THE WORLD OF FASHION

The coats which are made with the new coat suits are quite snappy in outline. They have immense collars running into wide revers to the waist, and white kid belts that run through slides which are held at the side seams by silver or mother of pearl or Irish lace buckles.

There is a growing tendency toward the Norfolk jacket style of coat, which means extra length and a belt that slips well down below the waist. Anyone who attempts to make a Norfolk jacket according to the average length of the newer coats is making a serious mistake, for the garment will be without style and staid for nothing. Other coats that do not have the plaits, but have the yoke effect and the raglan sleeve, also have the loose belt.

Black marquisette is a very serviceable fabric for the outer summer wrap. It can be braided with black soutache or beaded in elaborate designs with white porcelain beads. Wraps of this type are of various shapes. Some are fitted, some show high lines at the waist, others are draped in the old fashioned dolman style, while the kimono type is also still used.

WISDOM OF ORIENT

Head of Theosophists is a Fascinating Personality

Colonel Olcott, the president and founder of the great Theosophical Society, has headquarters, magnificently situated in the suburbs of Madras—Adyar, about three miles out. "What a dear and noble character I found the colonel to be," writes a lady who recently visited Adyar, "so good-hearted and magnanimous, so filled with a great desire to be of service toward his fellow-beings; and always earnestly at work in the great cause of uplifting and educating the poor, downtrodden outcasts of India called the pariahs. How little the Theosophist or this great doctrine is understood by the limited understanding we have of any religious sect or dogma; how ready we always are in our condemnation, which in our ignorance limits our wider comprehension and conception of things! Why is it that man always condemns what he does not understand, or what to his thinking capacity is incomprehensible and unintelligible? However, there is, nevertheless, the consolation to the great mind that he who works for the good of the whole remains unmoved by the opinions of the smaller parts, and this truth is only too obviously demonstrated in the trite saying of the following lines: "Knowledge is proud because he has learned so much, but Wisdom is humble because he knows no more."

Borden Will be Defeated

The great optimist in Canada today is The News correspondent in Nova Scotia. He says Borden will carry half the seats in that province. Borden will have only four seats in Nova Scotia out of eighteen, and he will be defeated personally in Halifax.—Toronto Globe.

Atlantic Terminus of Railway

The Grand Trunk Pacific Railway will erect division yards, machine shops and other terminals at Moncton, beginning with an expenditure of half a million dollars. Mayor Reilly informed the city council that the company would bring into Moncton forty or fifty families of work people, besides train men. He added that the company would use natural gas in their machine shops.—Moncton Times.
