CANADA GIVES A ROYAL WELCOME TO HER NEW GOVERNOR-GENERAL

Duke of Connaught's Arrival is Made the Occasion for a Great Ceremony at Ottawa—National Societies, Cabinet Ministers and the High Court Judges Were Represented—Ottawa People Made the Day a Holiday for Themselves

(Canadian Press Despatch)
Ottawa, Oct. 16.—Ottawa turned out in its numbers on Saturday afternoon and evening and did honor to the new Governor-General, the Duke of Connaught and his suite who arrived by special train soon after two o'clock.

The King's Uncle
Ottawa has had many Governors-General before, but not of Royal birth, and the coming of the Duke of the King of England was therefore made the occasion of more than usually gorgeous ceremony. The weather was fine, and the city was practically in holiday attire and spirit. All classes of citizens assembled at Parliament Hill, and here witnessed the grand spectacles.

Addresses of Welcome
A feature of the welcome was afforded by the national societies of Canada, the St. George's So-

ciety representing the English, the St. Patrick's Society representing the Irish, the St. Andrew's Society representing the Scotch, the St. David's Society representing the Welsh, and the St. Jean Baptiste Society representing the French-Canadian peoples. Each of the great national societies presented the Duke with a beautifully inscribed illuminated address; testifying to their allegiance and welcome.

Got to Work
Immediately after the imposing ceremonies were over, and while the rest of the citizens were still engaged in merry making, his Excellency plunged at once into work. The officials were in waiting at Rideau Hall, and as soon as he arrived, various official business was at once proceeded with. This included the signing of the order-in-council calling for the by-elections in those districts whose representatives have been elevated to the Cabinet.

Fortunes in Sharks
San Francisco, Oct. 16.—Fortunes in the developments of the shark-catching industry await the venturesome fisherman, according to reports along the waterfront here today. It is said that there are vast hordes of sharks along the coast, with a ready market for the skins, oil and fins in China. The fins sell at 25 cents a pound.

Weather Outside
Wireless reports today from Ikeda and Skidegate show the weather to be fair though cloudy, with smooth seas and light winds. Triangle Island reports sea rough and weather cloudy.

DEDICATED THE NEW BUILDING

Rev. F. W. Kerr Preached First Sermon in Presbyterian New Hall Sunday.

Sunday morning saw the first regular service held in the new Presbyterian Church Hall on Fourth avenue. Rev. F. W. Kerr preached from an appropriate text, and there was a large attendance of the congregation. The first gathering held in the hall was the banquet held there last week, but the first religious service was made the occasion for the dedication of the hall as a place of worship. Services will be held there every Sunday morning from now on, but the pastor will continue to hold his evening service in the Empress Theatre as the hall is hardly large enough to hold the evening audiences. The new hall which was the work of the young men of the congregation acting in conjunction with the capable contractors, Messrs. Mitchell, Currie and Watt, is a very substantial and convenient building for its purposes. It will be used as a gymnasium for the young lads during some evenings of the week this winter.

Court Will Sit Here on November 30th to Hear Cases—Civil Suits Will Be Tried Here—Does Not Refer to Criminal Cases

(Canadian Press Despatch)
Vancouver, Oct. 16.—As a result of an application made before Mr. Justice Morrison in the Supreme Court chambers this morning by Mr. W. M. An order was granted this morning by his Lordship for hearing Supreme Court cases in the north-

ern city. The date set for the opening of the Supreme Court in Prince Rupert is November 30, when some six or seven cases will come up for hearing.

The above decision does not refer to criminal cases, which are dealt with by the Attorney-General's department and do not come within the jurisdiction of the Chief Justice of the Supreme Court. Prince Rupert has had Supreme Court sittings here on two previous occasions.

POLICE SUSPENSION

Commissioners Have Talk Today. Return of Chief Vickers Awaited.

Some slight sensation existed in the city this morning over the rumored sudden suspension from the police force of Constable McArthur who has been taking charge in the absence of Chief Vickers. Asked about the case today Commissioner Kirkpatrick said the matter was held in abeyance until Chief Vicker's return tonight, but the constable was under temporary suspension. Acting Mayor Hilditch as chairman of the police commission held a brief conference with Commissioner Kirkpatrick on the matter this morning, but the decision to await the return of Chief Vickers was adhered to, and any charges to be laid or other action to be taken will take place then. Constable McArthur himself declared that as far as he could see it, the only charge to be laid against him was that he had been seen coming from a resort on Comox avenue, though the commissioners knew that he was only executing his duty by being there.

A man named P. J. O'Connor appeared before Judge Young this morning charged with having stolen a canoe at Hazelton some weeks ago. After hearing, he was found guilty, but sentence was deferred until this afternoon.

By wireless message flashed to the Triangle station the C. P. R. Princess Royal last night the Princess Beatrice is ashore at Noble Island, half way between here and Vancouver. The Princess Royal stood by her last night, but proceeded on her way north passing Pine Island at 11.30 p.m. The Royal will not be in to Rupert until late this evening. No apprehension was felt for the safety of steamer, cargo or passengers, when the

STARVING SAILORS REACH PORT AFTER SUFFERING GREAT PRIVATION

Two Terrible Tales of the Sea—Schooner Bender Bros. on Trip from Nome to Seattle Had Explosion in Her Gasoline Tanks—Schooner Nottingham Dismasted and Waterlogged in Last Sunday's Gale—Starving Crew Lived for Four Days in the Rigging

(Canadian Press Despatch)
Seattle, Oct. 16.—Two terrible tales of the sea and its hardships came to light yesterday, when the crews of the schooners Bender Brothers and Nottingham came into port. There were thirty-seven of them, all suffering from exposure and starvation, while two of them are severely burned and require hospital treatment.

Voyage from Nome
The schooner Bender Bros. was making the trip from Nome, Alaska. She is a gasoline driven craft. All told she had twenty-five men on board. When but 160 miles from Cape Flattery her gasoline tank exploded, enveloping the ship in flames. After heroic efforts the crew managed to save themselves from being burned up at sea, but the chief engineer and Captain Knaflich were badly injured in the flames.

ACTOR MADE SPEECH
Mr. W. S. Van Dyke of the Williams Co., Gives Address on Labor Organisation.

In the Majestic Theatre which was crowded last night, Mr. W. S. Van Dyke of the Dave Williams Stock Company, now playing at the Empress, gave a popular address on Labor Organisation under the auspices of the I. W. W. branch in this city. Mr. J. Shaw occupied the chair, and A. O. Morse, organising secretary, took a share in the evening's proceedings, ushering those who attended to their places. Mr. Van Dyke is a personal friend of Mr. Morse, both men holding strong views regarding the organisation of labor for the emancipation of the worker.

In his address last night, Mr. Van Dyke laid emphasis on the imperfections of organisation as practised at present, and showed how the efforts made by those whose interests are opposed to those of the workers have tended to disrupt and render non-effective many unions of workers by the insidious process of separating big unions into smaller individual groups, thus enabling one union to scab upon another indirectly or even directly during times of labor strife. The remedy was, of course, universal union for the wage-workers irrespective of trade, calling, class or training. Mr. Van Dyke who is suffering from a very severe cold, spoke well and proved a popular exponent of his convictions.

Food Gave Out
The vessel was then entirely dependent on her sails. After terrible suffering the men managed to navigate their craft in the teeth of the gale, right into port. The last few days were made more terrible by the fact that their food had given out. They were all in a starved condition when they reached Seattle.

Exposed Six Days
The men rescued from the schooner Nottingham had undergone an equally trying experience. Their vessel which is owned by the Globe Navigation Company had left Westport, Washington, for Callao with a cargo of lumber. All went well until they reached the Oregon coast last Sunday and a great gale rose.

Masts Carried Away
The gale carried masts and sails away, and almost capsized the

schooner. The water broke open the hatches and poured in, and the vessel became waterlogged. She lay wallowing in the seas day after day. It was impossible for the men to stay on the decks, as the furious seas broke over them.

In Rigging Four Days
Captain Svenson and his eleven men were obliged to cling to the shattered rigging for protection. For four days and nights they survived, suffering agonies from the exposure. They were unable to obtain any food, as their stores were locked up inside the water filled vessel.

Rescued at Last
At last, driven northwards by the gale, the men were picked up by the schooner David Evans, which cared for them and brought them into port after their long sufferings.

DEATH OF OLD-TIMER

Mr. T. C. Birnie Passed Away This Month. Pulpit References Last Night

News reached the city last week of the death of Mr. T. C. Birnie, former partner of the firm of Birnie and MacLachlan in this city, and a well known old-timer of Prince Rupert. Mr. Birnie left this city this spring, and was then in poor health. He went to New Westminster to pursue his business as a real estate agent, and was awaiting the opening up of Port Mann interests when his health grew worse. His death was brought about by the disorders induced by an attack of typhoid fever which seems to have been impending for some time.

Deceased was a strong churchman, and no fewer than four Baptist pastors acted as pall bearers at his funeral at New Westminster. Last night in the McIntyre Hall Rev. W. H. McLeod made a special reference to the late Mr. Birnie, a staunch member of his church while in Rupert. At the close of the service Mr. Davey played the Dead March. Deceased leaves two daughters and two sons besides a widow. They were popular residents of Rupert in the early days.

FIND RICH GOLD IN LABRADOR

Two Men in a Small Steamer Who Went on Prospecting Trip There Return with Some Rich Samples.

(Canadian Press Despatch)
St. Johns, Nfld., Oct. 14.—What is declared to be the richest gold find since the days of scattered pockets in California, was made by two men who returned today in the small steamer Kite from a voyage to northern Labrador and Baffin Land.

The men, R. S. Elmsley of Ottawa, and Richard White of St. Johns, chartered the steamer three months ago, ostensibly for a trading voyage. They returned with five tons of mineral which they declared at the customs house. The mineral was enumerated as gold quartz, placer gold, iron, mica, plumbago, porphyry, dolomite, rhyolite, labradorite and schist. One member of the steamer's crew exhibited a three-ounce nugget of almost virgin gold.

The men refuse to discuss their discoveries. Two patrons of the flowing bowl paid each five dollars and costs at the bar of the police court this morning. They were no old offenders so they shall be nameless.
