LAND PURCHASE NOTICE

Skeena Land District—District of Coast Range 5
Take notice that Percy M. Miller of Prince Rupert, B.C., occupation Civil Engineer, intends to apply for permission to purchase the following described land:
Commencing at a post planted on the left bank of McNeil River at north west corner of Lot 4409 R.V., thence east 20 chains more or less to westerly boundary of timber limit 145 (old number 4036) thence northerly following said westerly boundary of timber limit 145 to the north west corner of said timber limit, thence westerly 20 chains more or less to left bank of McNeil River, thence southerly following said left bank of McNeil River 60 chains more or less to point of commencement, containing 100 acres more or less.

PERCY M. MILLER,
E. Flexman, Agent
Date June 19, 1911
Pub. Aug. 17, 1911

Skeena Land District—District of Coast Range 5
Take notice that R. H. Stewart of Vancouver, B.C., occupation truckman, intends to apply for permission to purchase the following described land:
Commencing at a post planted 40 chains south of Pre-mission No. 397 and 52 chains east from the Naas River (S. W. C.), thence 40 chains east, thence 40 chains north, thence 40 chains west, thence 40 chains south to the point of commencement, containing 160 acres more or less.

THOMAS CARTER,
James T. Fullerton, Agent
Date Aug. 1911
Pub. Sept. 23, 1911

Skeena Land District—District of Coast Range 5
Take notice that Harold E. Smith of Morey, B.C., occupation station agent, intends to apply for permission to purchase the following described land:
Commencing at a post planted at the south-west corner 100 chains east and 20 chains north from N. E. corner of Lot 1116, Harvey's Survey Coast District Range 5, thence 40 chains east, thence 80 chains north, thence 80 chains west, thence 80 chains south to point of commencement, containing 320 acres more or less.

HAROLD E. SMITH
Fred W. Bohler, Agent
Date Sept. 18, 1911
Pub. Sept. 23, 1911

Skeena Land District—District of Coast Range 5
Take notice that I. Thomas Carter, of Prince Rupert, B.C., occupation carpenter, intends to apply for permission to purchase the following described land:
Commencing at a post planted about one mile south from the mouth of Falls creek and about 150 feet back from the beach, thence 80 chains north, thence 40 chains west, thence 80 chains south, thence east 40 chains to point of commencement, containing 320 acres more or less.

THOMAS CARTER,
Charles Webster Calhoun, Agent

ITEMS OF SPORT

Captain Jack Williams, champion mile swimmer of the world in 1882, is in Canada today. Williams defeated Captain Matthew Webb, the first conqueror of the English Channel, in a great swim in the new basin of the Lachine Canal for the world's championship and a prize of \$1,000.

Captain Williams, who was 77 in April, recently distinguished himself by swimming 33 miles in August last, from Altham, Illinois, to St. Therese, Missouri. During the ex-champion's career he made many notable swims around Montreal, and for a time was swimming instructor at St. Helen's Island. In 1890 he swam across the San Francisco Bay against the cross currents, taking 2 hours and 10 minutes to cover the five miles. A short while later, in an exhibition swim, he went around the famous Seal Rock.

During his life he has saved no fewer than thirty-six persons from drowning, six of these being in Montreal, and in one instance he brought a drowning man back to life after he had been immersed for twenty-five minutes.

Captain Jack Williams is a Portuguese by birth, and came to Montreal in 1874, leaving again in 1882 for the United States, of which country he is now a citizen. In spite of his age, the ex-champion looks as hale and hearty as ever.

That the championship ball games will result in the establishment of new records for gate receipts is the opinion of McRoy, who predicts each member of the winning club will receive in the neighborhood of \$5,000 for his "hit." Last season, when the Cubs and Athletics broke all previous records, the amount received for the players totalled over \$79,000. Secretary McRoy expressed the opinion that the players share this year would be close to \$150,000.

Hughie Jennings, manager of the Detroit American League team, may become manager and a stockholder in the Washington American League Club. During the series between Washington and Detroit Jennings conferred with President Noyes of the Washington Club, who informed him that he would be welcome as manager and stockholder if he could be arranged with the Detroit management.

When we read that the price of radium has tumbled to \$80,000 a gram we are all out of patience with the chronic grumblers who are kicking about the high cost of living.

Abe Attell is the cleverest and craftiest little financier in the prize ring. Abe makes a specialty of stringing "firms" in one night stands by letting them draw with him in ten round bouts and then after their hopes and the hopes of their backers are aroused he gets another bout with them and puts them into dreamland in the early stages of the contest. Abe's idea in this procedure is to get the benefit of two gates and to pick up any easy money that the enthusiasts, backing the "corner," who made such a good showing against the champion in the first bout might be rash enough to place on their favorite. But when the issue is a big one Attell just gives the best possible account of himself and never in his career did he lose a decision till he took a chance with Matt Wells, the brilliant lightweight from over the pond. In spite of the fact that he is uncertain betting in many of his bouts of minor importance Abe is liked by the fight fans who recognize his wonderful skill and science and popular opinion conceded that he is the best lightweight who has ever worn the crown of that realm since the days of the incomparable George Dixon.

THE COSY CORNER

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

DECAY OF THE TEETH

Lime Starvation the Basic Cause, Says a Chemist

"The almost universal decay of the teeth is proof positive that our nation is suffering from lime starvation," writes a chemistry lecturer in the Dietetic and Hygienic Gazette.

"Our dentists prescribe tooth washes and tooth pastes, advocate local hygiene, fill cavities and fit bridges, and all this time ignore the fact that the basic cause is lime starvation.

"Dentists will tell you that the sugar you take in your mouth acts directly upon your teeth. Dentists shut their eyes to the evident fact that decay starts first in the pulp beneath the intact enamel and honeycombs the interior tooth until the shell-like bridge of enamel breaks beneath the strain.

"The enamel gives absolute protection against the external attacks of acids and sugar. I have immersed sound teeth for months in a solution of fruit acids and sugar and have been unable to detect any erosion of either the enamel or the pulp.

"When you eat sweetmeats the sugar, with its irresistible affinity for soluble lime, combines with the calcium of the blood, and the blood retaliates by seeping the soluble from the pulp and substance of the teeth. Druggists make use of this affinity of soluble lime for sugar when preparing the official syrup of lime. Lime forms a solution thirty-five times stronger in simple syrup than in the same quantity of water. If you want your children to have sound, white teeth, see that their diet is rich in lime and poor in sugar."

A delicious vegetable dish is "corn and tomatoes." Skin and cook ripe tomatoes as for stewed tomatoes. When about half cooked add sweet corn which has been scored and scraped from the ear, so as to get as little as possible of the fibre of the grains. Stir frequently after adding the corn. Season with salt, pepper, sugar and butter to taste. Also add a small bit of fine-minced onion.

process of cooking, nothing is better than a piece of very coarse sandpaper.

A simple way to clean plain pieces of silver is by placing it in a pan in which have been put one quart of cold water and a tablespoonful of washing soda. When the water begins to boil the silver should be removed and immediately wiped.

Batters should be beaten well and then allowed to stand some time before using, in order that the air may pass into them. Use a hot oven for bread, meat and pastry; a moderate oven for buns and large cakes, and a slow one for milk puddings.

Handy Mirror

A substitute for a cheval glass may be provided in a little house by fastening an ordinary looking-glass to the inside of a closet door where there is a good light, so that the lower edge of the glass shall be almost level with the bottom of the door. In this mirror one may see very well how a skirt hangs.

Saves Carpet

Old stair carpet should not be wasted, for it will make good pads to go under the new stair covering. First shake the carpet and then cut away the bad parts; divide the remainder into short lengths, double them, and tack them at the edge of each step, where the thread comes, before laying the new carpet.

Helps Mother

A gate between two rooms has proved a blessing in one house. It is fastened in the doorway, between the nursery and "mother's room." There are times when the mother likes to watch the child without being right among them. Often sewing or writing may be done more easily with the gate between the mother and the little ones.

Soft Icing

In case your icing is too soft, try tying a hard of stiff wrapping paper a little higher than the cake, and see how nicely it sets the icing. There is another advantage in this bard. If left on the cake and stood in the cake box they are just as moist a week or two later as the first day baked.

Woman Diplomat

The first woman to enter the diplomatic service of any country is Miss Clotilde Luisi who has been appointed by the President of Uruguay an attaché of the Uruguayan Legation at Brussels. Miss Luisi recently obtained the university degree of Doctor of Laws.

PRINTING FOR CITY

Council Puzzles Over Technicalities in Printing Tenders.
Ald. Hilditch Regrets Having to Consider Tenders at All.

Tenders for printing advertisements for city bylaws now ready for the public were opened at Monday night's council. Following were the bids:

Daily News, \$13.40 for the whole job; Journal, 5 cents per line for first insertion and 2 cents per line for subsequent insertions.

After endeavoring with the help of Alderman Newton to discover which was the lowest tender, and calculating that at six words to a line, Alderman Newton's practical estimate of the job, the Journal's price would come to \$15.75 for one insertion the matter was left to the City Clerk to figure out again. The Evening Empire did not bid.

"I am sorry this came up while I am in the chair," said Acting Mayor Hilditch. "If I were not in the chair I would certainly advocate the straight and narrow path and put this advertising where we know it is safe and not break into new ground."

COAL NOTICE

Skeena Land District—District of Queen Charlotte Islands
Take notice that Austin M. Brown of Prince Rupert, saddler, intends to apply to the Chief Commissioner of Lands and Works for a licence to prospect for coal, oil and petroleum on and under the following described lands on the West Coast of Graham Island:

Commencing at a post planted three miles east of the northeast corner of C. L. No. 4474 thence south 80 chains, thence west 80 chains, thence north 80 chains, thence east 80 chains to point of commencement.
