What Next Regarding The Peace Treaty?

The United States Senate has refused to pass the Peace Treaty. It required a two-thirds majority to carry the measure and there were seven votes short of the required number. That means that the United States is not a party to the treaty, unless they should reconsider their action.

Republicans blame the president for the failure of the measure. They claim that he acted in a high-handed manner. They suggest that, knowing the power of the Republican party in the Senate, Wilson should have taken the leaders of that party into his confidence and consulted with them before committing the country to any line of policy. It was largely because he did not do so that the Senators voted against the treaty. There was the difficulty of the president being leader of the Democratic party, yet having to submit his plans to the Republicans.

Real Difficulty One of Politics.

Perhaps the real difficulty is one of politics. There is a presidential election in sight and the German-Americans have to be placated and the president has to be defeated. Many politicians are willing to sacrifice the well being of the country for the peace of the world for a party victory. We have had the same thing in Canada on more than one occasion. It is not a question of how to serve the country but how to serve the party and get into power and retain it.

Germany is Still In the Limelight.

Germany is still in the limelight. Fortunately the reactionaries have been held back by the flowing tide of democracy in that country. There is a seething sentiment of restlessness, which has been fanned by the recent attempt to capture the Government by revolution. Hundreds of people have been killed and much suffering has resulted for those who are innocent. That is always the case. The innocent suffer and the criminals escape.

It is to be hoped that the failure of the United States to become a party to the Peace Treaty will have no ill effect on the condition in Germany, Turkey and other countries. It seems to indicate that the allies are divided.

New Prohibition Act Interesting.

It will be interesting to note what will be the effect of the new prohibition measure on the country. It is not yet law, but undoubtedly will pass. As it is a government measure, the feeling of the party will have been tested on it before it was submitted. That is one of the methods of party government.

In this prohibitory legislation it has to be remembered that all of it is more or less experimental. Conditions arise as a result of certain action which is often wholly unexpected. In order to overcome these conditions it is often necessary to modify the laws from time to time, to increase their stringency or moderate them in some respects. This is the reason for the present change.

Prepare Now for Summer Sports.

Spring is coming and those who like outdoor sports are preparing for them. It does not mean that all indoor sports are over, for there may be a good deal of bad weather yet. Organization for summer games, however, will now go steadily forward and it looks as if this would be a banner year for sport.

GUARD AGAINST THE 'FLU

Serious Outbreaks of Influenza all over Canada

GOOD HEALTH IS THE SUREST SAFEGUARD

"FRUIT-A-TIVES" Brings Vigor and Vitality and Thus Protects Against Disease

There can be no doubt that the situation regarding the spread of influenza throughout Canada is one of grave concern. It is quite true that the number of cases does not constitute an epidemic such as caused the suffering and sorrow during the terrible days of 1918. Yet there is no disguising the fact that everyone should be on their guard against the disease.

In Montreal alone, from January 20th to February 21st, three thousand, one hundred and twenty-two cases of influenza and 189 deaths from the disease were reported to the Health Department.

If the outbreak had come at the beginning of the winter instead of the end, we might reasonably feel that the very cold weather would check the spread of the disease. But coming as it has, at the end of the winter, there is grave fear that an epidemic may occur. For spring, with its slush and rain under foot, its dampness and chill, its constant changing from cold to warm and back again, is a prolific source of coughs and colds, pleurisy and pneumonia.

The best protection, in fact, the only safeguard against the 'Flu, is, GOOD HEALTH.

Those who are not as well and strong as they should be; those who are underweight; those who are "run-down" through overwork or sickness; should build up at once. What they need is a blood-purifier, a body-builder, a strength-giver, like "Fruit-a-tives", the wonderful fruit medicine.

"Fruit-a-tives" regulates the kidneys and bowels, causing these organs to eliminate waste regularly and naturally as nature intended. "Fruit-a-tives" keeps the skin active, and insures an abundant supply of pure, rich blood. "Fruit-a-tives" tones up and strengthens the organs of digestion, sharpens the appetite, brings restful sleep and renews the vitality of the nervous system. "Fruit-a-tives" contains everything that an ideal tonic should have; to purify the blood, to build up strength and vigor, and to regulate the eliminating organs, so that the whole system would be in the best possible condition to resist disease.

Now is the time to build up your health and strength, not only as a precaution against the ravages of influenza, but also to protect you against "spring fever" and the inevitable reaction which comes with the appearance of warmer weather. Get a box of "Fruit-a-tives" today and let this fruit medicine keep you well.

"Fruit-a-tives" is sold by all dealers at 50c a box, 6 boxes for \$2.50, trial size 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.
