## DANIEL LEACHY MAKES APPEAL

R. L. Maitland Makes Application for Writ of Certiorari for His Release.

Magistrate McMordie has received notice that Daniel Leachy, through his solicitor, R. L. Maitland, of the law firm of Maitland & Maitland of Vancouver, is making appeal for a writ of certiorari setting aside the conviction of Magistrate McMordie sending Daniel Leachy to Okalla Farm for nine months for offering to sell and exposing for sale intoxicating liquor. Leachy was one of the accused in the local Duff sensation and pleaded not guilty, putting up a plausible story in the police court of his ignorance of the proceedings.

The appeal is based on the following reasons:

1. That no legal evidence was adduced as to the guilt of the accused.
2. That there was no evidence that the liquor alleged to have been sold was intoxicating.
3. That the information laid included the charge of two offences.
4. That the alleged liquor sale did not take place in the city of Prince Rupert and, therefore, Magistrate McMordie had no jurisdiction.
5. That there was no evidence to support the conviction and, therefore, the magistrate had no jurisdiction.
6. And such other grounds as appeared on the face of the proceedings.

Three Democrat irreconcilables, twelve Republicans and 21 Democrats voted for the ratification, but the division failed by seven votes of providing the two-thirds requisite to ratify.

## LOW PRICE FOR CANNED FISH

H. O. Bell-Irving Warns Packers That British Government Control Prices of Product.

(Special via G. T. P. Telegraphs.)

VANCOUVER, March 20.—H. O. Bell-Irving has cabled from England a warning to canners advising curtailment of packing cheaper grades of salmon during the coming season. He says that the Government control of prices in the United Kingdom has set a low figure on canned fish and that B. C. Products cannot compete with the huge accumulation of war stocks carried in Great Britain.

W. D. Burlis, secretary of the B. C. Canners Association, in an interview here, said he considered the low price fixed by the English Board of Control was only temporary and a palliative measure to propitiate the popular outcry against the living costs and that the normal condition will be regained when the English stocks have been all allocated.

## LUMBER PRICES TO REMAIN HIGH

Dominion Government can see no Way of Interfering to Bring Prices Down.

(Special via G. T. P. Telegraphs.)

OTTAWA, March 19.—That the Dominion Government, while anxious to seriously consider any suggestion that might help the situation, is practically helpless in the matter of bringing prices of lumber down, was indicated yesterday afternoon, following a conference between a score or more of western members and Sir George E. Foster, acting prime minister.

Several suggestions of very minor importance were discussed but none of them are believed feasible, the only one that might have been taken up was that the Government assist the smaller mills to increase their output, but it was pointed out that all such mills by this time might have laid out their logging plans and would not be in a position to increase their capacity at least for another twelve months.

TORONTO, March 20.—Prominent lumber men state that lumber prices, even if the cost of production were to decrease at once, would not come down until 1922.

The force was such that Olsen was unable to continue and he conceded the bout to the Canadian light heavyweight champion.
