DAILY EDITION.

TUESDAY, MAY 7

A SURPRISING BUSINESS SITUATION

It is an axiom among business men in the United States that hesitation and indisposition to make new ventures invariably characterizes the year in which the nation chooses its president. At the present time all theories of the correlation of dull times and elections are being knocked on the head. Business in the U. S. seems to be in a healthier condition, and expansion is apparent on every hand. If the forthcoming election is exercising any retarding influence there must evidently be some very great counter influence at work in the production of buoyancy.

It is probable that the real reason for the outbreak of industrial activity is the pressure of the accumulated savings of the people upon the means of investment. During the years of retrenchment following the panic of 1907 the people of the United States—save for the automobile fever—exercised the uncommon virtue of self-denial and saved a good deal of money. It has been accumulating now for two or three years, and, having pretty well filled the financial reservoirs left empty by the collapse of 1907, is beginning to flow over the spillways.

Even if Roosevelt is elected, which is not at all likely despite his momentary boom, the people of the United States will spend

a great deal of money during the next few years on the launching of long-deferred industrial enterprises, and on the luxuries of life that the most acquisitive people on the face of the earth will not long deny themselves.

That is why in a Presidential year we find bank clearings across the line increasing 34 per cent last week as compared with those of a year ago; the Steel Trust operating 93 per cent. of its maximum capacity, and taking in orders at a rate slightly in excess of shipments; and railway earnings of all roads in the United States over five per cent. greater during the first week of April than for the corresponding week in 1911.

These are basic facts, indicating that real business—the making and exchange of commodities—is on a solid basis. The speculative markets may have their flurries during the past summer and fall, as they always have during a Presidential year, but the great mass of the people across the line are steadily at work again. It will be a welcome experience for many who during the lean years were reduced to partial employment by the exercise of the virtue of thrift on a large scale. It was only by the exercise of thrift that the nation could recover from the evils of inflation and unsound finance. The completion of the cure will mean very general prosperity in the United States for a considerable time.—Toronto Globe.

S. A. REPUBLICS PLAN EXHIBITS

Anglo-Latin Trade Exhibition Arranged for London, England, This Year to Have Rich Contributions from South America.

London, May 6.—This year's exhibition at Shepherd's Bush, for which a license has just been granted, is to be known as the Anglo-Latin Exhibition, and it will combine British exhibits with exhibits from France, Spain, Portugal and Italy, and what are known as the Latin colonies of South America. British trade with these colonies has reached the figure of one hundred millions annually, and the respective governments have entered enthusiastically into the proposals which the exhibition involved.

TREK FROM FRANK

Residents of Town Threatened by Rock Slide Seek New Place.

Calgary, May 6.—The big trek from the town of Frank to escape the expected land slide from Turtle Mountain is on. For some time past, in fact, ever since the report of the commission to investigate the condition of the mountain and the possible danger to Frank, was made public there has been an inclination among the citizens to move, and now the men who are behind the biggest industrial movements have commenced operations toward locating a new town.

Hear Rev. Mr. Ray, F.R.G.S., in the McIntyre hall, Tuesday evening at 8.15 p.m. Subject, "Life Among Savages in Brazil," illustrated with curios and costumes. Admission—Adults, 25c., children 15 cents.

No tenders having been received by the Purchasing Agent for the printing of the new telephone directory, the matter of printing this has been referred to the Phone Committee with power to act.

SAME BANK AS RUPERT'S

The Bank of Montreal Will Continue to Act as Financial Agent of the City of Calgary.

Calgary, May 6.—A renewal of the agreement made last year between the bank and the city was authorized at a special meeting of the Council, held Saturday afternoon. By this agreement the Bank of Montreal will continue to hold the bonds of the city issued last year, which have not yet been sold, and agrees to advance to the city 90 per cent. of the value of the debentures of 1912.

Further, the bank agrees to advance to the city 90 per cent. of the value of the debentures of 1912. These sums advanced are to bear 5 per cent. interest up to the time the bonds are sold. The agreement last year proved satisfactory and the Council was unanimous in endorsing its renewal. By it the city is assured of sufficient money to carry on all required public improvements during the year.

Commissioners Accept

Letters from Rev. Warren H. McLeod and Mr. H. P. Wilson accepting their appointment as Park Commissioners were received and read at the Council meeting last night. No word was received from Mr. F. S. Clements.

Everything for the launch or boat at Howe & McNulty's, 2nd Avenue.

Easier Grade

At a cost estimated at \$100, the city engineer could construct access between the Westholme Lumber Co.'s premises and the city by way of Third Avenue, near the light plant by an easier grade. This the Westholme people wish done. The Board of Works will consider the matter and act.

Best room in town at Savoy.

THE DOMINION'S GROWING TRADE

Great Increase in Canada's Trade—During Twelve Months the Exports and Imports Amounted to \$847,372,738.

Ottawa, May 6.—During the past twelve months Canada's total imports amounted in value to \$537,282,607, 342, an increase of \$9,455,768. On the basis of total imports and exports (including foreign produce and coin and bullion) the aggregate trade for the period was \$847,372,738, as compared with \$735,940,560 for the corresponding twelve months of last year, an increase of \$93,432,178.

The duty collected upon imports for consumption totaled \$86,019,865, an increase of \$14,119,543.

Exports of Canadian produce to the United Kingdom for the twelve months totaled \$147,268,630, a betterment of \$12,892,110. Imports from the United States during the same period totaled \$348,478,262, an increase over the corresponding twelve months of 1911 of \$169,534,447. On the other hand, exports of Canadian products to the United States show a decrease of \$5,952,207, namely from \$105,747,370 last year to \$99,795,163 during the twelve months ending February last. The duty collected on imports into Canada for the period amounted to \$86,019,865, an increase of \$14,119,543.

PRESIDENT OF THE G. T. P.

Many Important Minds Are Now Engaged in Deliberating on Hays' Successor, but Appointment May Be Delayed.

London, May 6.—As a result of careful enquiries made concerning the probable successor to the late Charles M. Hays, the Financial Times says: "There is no likelihood of an appointment being made for a considerable time, but when it is made it will be with the full approval of the Dominion government. The desire of the board is to select a present Grand Trunk Railway official who has passed through all grades of the service. It is also quite certain that the position of the new president will be less autocratic than that enjoyed by the late Mr. Hays. Many matters hitherto supervised by the president in person will be delegated to other officials."

"The company's financial policy will in future be a matter more generally discussed among the board than has been the case during recent years and particularly in regard to fresh borrowings."

"Communications which have been exchanged during the past few days indicate that the Dominion government may be prepared to take a more active part in any future financing of the system if it is more fully informed as to what is going on."

Very large stock of general hardware. Sole agents for Sherwin & Williams paints, at Howe & McNulty's.

THE ROSS RIFLE IS ALL RIGHT

Bisley Dispute Settled—the Canadian Marksmen Will Go to England as Usual This Season—Sight Trouble Adjusted.

Attawa, May 6.—The difficulty which existed as to rifle sights between the Dominion Rifle Association and the National Rifle Association has been settled following a conference between Colonel John Barlow and Colonel Grosse, representing the latter body. They came across for the purpose of allaying the difficulty and it is satisfactorily settled.

A Canadian Bisley team will proceed to England shortly and the announcement as to the commander of the team will be made in a few days, following a conference between the Governor General and the Minister of Militia and Defense. Colonel Barlow and Colonel Grosse will leave for Toronto on Sunday.

WATER NOTICE

FOR A LICENCE TO TAKE AND USE WATER

NOTICE is hereby given that the Queen Charlotte Fishing Company, Limited, of 207 Carter-Cotton Bldg., Vancouver, B.C., will apply for a licence to take and use four cubic feet per second of water out of Edward Creek, which flows in a south-westerly direction through unsurveyed Crown lands and empties into Two Mountain Bay near Tassoo Harbor. The water will be diverted at Third Falls and will be used for industrial purposes on the land described as shown in sketch at Water Recorder's office, Prince Rupert, and situated on the East Coast of Two Mountain Bay.

This notice was posted on the ground on the 10th day of April, 1912. The application will be filed in the office of the Water Recorder at Prince Rupert. Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.
