WANT A WORLD WITHOUT ANY LOUD, UNNECESSARY NOISE

SCIENCE NOWADAYS IS BUSY WITH THE PROBLEM OF THE PRODUCTION OF SILENCE, OR RATHER OF THE ELIMINATION OF SOUND IN CARRYING ON WORLD'S AFFAIRS.

Cambridge, Mass., May 25.—Science is planning a comparatively noiseless world—a world in which clamor and clangor are reduced to a minimum. Men of learning, such as Dr. Clarence John Blake, professor of otology at Harvard medical school, says there is absolutely no reason why there should not be such a world in existence if the people of this and supposedly other civilized countries can be weaned away from the survivals of savagery. Noise, at least loud noise, he says is needless.

When five hundred distinguished physicians and savants from all parts of Europe and America meet in the halls of the Harvard medical school next August in the National Otological Congress this matter of noise will be one of the most discussed topics.

It is contended that the hustle and bustle of city life, the tooting of whistles, the roar of trains

and other noises are taking its toll from the health of the community. The ear is becoming abnormal and blunted, the sensitive mechanism of hearing, in an effort to exclude the never ending annoyance, is thickening. Gradually the roar of the city works upon the nerves and brain, producing irritation and exhaustion. Nervous prostration, a disease of cities, is one result; deafness another, and suffering to the weak and convalescent still another.

"Noise," Dr. Blake says, "is barbarous. Its presence in a community points to barbarism. If we pretend to a higher civilization something must be done to prevent it. The question of noise is a question of economics because the prominence of unnecessary noise is a much an indication of a waste of energy as the heating of a bearing in a machine."

The congress next August will go fully into ways and means of making the world noiseless.

NEW BRUNSWICK ELECTION DATE

Premier Fleming Goes to the People for the First Time on Thursday, June 20th—First Election Since 1908.

(Special to Daily News.) Fredericton, May 28.—The order for the dissolution of the legislature of New Brunswick was signed at Sackville Saturday by Lieutenant Governor Woods. Thursday, June 20th, has been named as polling day, with nomination proceedings a week earlier. The last general election in New Brunswick was the memorable one of March 3, 1908, when the old administration, in power for upward of twenty years, was defeated and Hon. J. D. Hazen called upon to form a new government. Last October, when Hazen became minister of marine and fisheries at Ottawa, Hon. J. K. Fleming became premier of New Brunswick, and now makes his first appeal to the people.

"The College Girl" Proved so Good a Show That the Audience Waited for More—May Roberts Company Makes Good.

Anyone who saw the splendid house attracted by the May Roberts Company at the Empress Theatre last night when they staged "The College Girl" will readily agree that it is a pity that this excellent company has got to take its departure northward rather earlier than had been intended. The company has been pleasing Prince Rupert thoroughly from first to last. In "The College Girl" last night a capital entertainment was provided. It was actually difficult to get the audience to go away after the play was ended. They sat still hoping for more.

While every member of the cast deserves extreme appreciation, there is special mention coming to Miss Ethel Corley, who filled a difficult role as Tutey Whitaker with great efficiency and to the thorough satisfaction of her audience. Miss May Roberts needs no praise. Her work is excellent. Mr. Gillard, too, is an actor assured of appreciation. His little speech to the audience between the acts, in which he mentioned that each member of the company is given "a chance to make good," accurately describes the situation and needs only the additional statement that each member of the company does most decidedly make good. Tonight, before embarking for Skagway, the company will stage "Divoreons," the steamer waiting to allow ample time for the performance.
