EUROPE AGAIN SEES A LIVE ROYALIST REVOLT

TOMMY BURNS CHALLENGES WORLD'S CHAMPION JOHNSON

Under Marquis of Queensbury Rules With Clean Breaks and No Hitting in Clinches, Burns Believes He Can Beat the Big Black Bruiser in a Ten-Round Battle---Calgary Challenger Has Posted a Thousand Dollars to Back Up Challenge---Johnson's Reply Eagerly Awaited

(Special to Daily News.)

Calgary, July 8.—Tommy Burns today issued a challenge to Jack Johnson for a match for the heavyweight championship of the world.

If the challenge is accepted the bout will be a ten round affair under Marquis of Queensbury rules, with clean breaks and no hitting in clinches. Under these

conditions Burns claims he can beat the "big smoke," and has posted \$1,000 to make good his claim.

Best meal in town at Savoy.

DETECTIVE SHOT IN THIGH

Vancouver Police Officer Narrowly Escapes Death at Hands of Ruffian Whom He Still Successfully Arrests.

Special to Daily News
Vancouver, July 8.—Just as he was about to make the arrest of a man named William Morris, whom he suspected of being implicated in recent holdups, Detective Campbell was shot in the thigh by Morris. Despite his wound Campbell held his man and landed him in the station. The officer is in the hospital and will recover.

Loyal Order of Moose candidates are requested to attend a meeting in McIntyre Hall this evening at 8 o'clock. Important.

WORLD'S LATEST INDUSTRY IS PROMISING FOR RUPERT

Artificial Rubber Produced From Fresh Sea Fish is the Newest Commercial Product Devised to Meet Inexhaustible Demand ---British Consul Reports on the Erection of Plant Near Amsterdam to Utilize North Sea Fish---Immense Possibilities for Prince Rupert in Invention

In the latest weekly report of the Department of Trade and Commerce of Canada there is contained an item of information which points in the direction of an important new industry possible for Prince Rupert. The information is placed before the

Department of Trade and Commerce for the benefit of those interested in Canada by the British consul at Amsterdam, Mr. W. A. Churchill, who reports that a factory is in course of erection at the fishing harbor of Ymuiden for the manufacture of artificial rubber from fresh sea fish, the process being the patent of a doctor of medicine at Amsterdam.

Low Cost to Produce.
It is claimed that the product has the same qualities as vegetable rubber and is not affected by benzine or heat. It is calculated that fish rubber can be produced at a cost representing only about one-sixth that required for the manufacture of real rubber; the cheapness of the former is due to the simplicity of the process and to the manufacture of a valuable by-product in the shape of a concentrated tonic food containing phosphorus albumen.

POLICE MATTERS FOR WEEK END

Several Prisoners Taken South by the Prince Rupert Today to Serve Sentences—Two Passengers for Insane Asylum.

Three prisoners and two insane patients were taken south to New Westminster today on the Prince Rupert in charge of Chief Constable Owen and Constable F. C. Belson of Hazelton. The three prisoners were each under sentence of nine months' imprisonment. William Crosby received two terms of nine months each, to run concurrently, for stealing tools and oats respectively. William Mooney was sentenced for nine months for the theft of a gasoline light tank from J. D. Allen. There were six others stolen and found in the prisoner's possession, but the other charges were not pressed. William McKechnie was sentenced to nine months' imprisonment for forgery.

SUFFRAGETTE IN TROUSERS

Enthusiast for Woman's Rights Cause Got Rather Rough Handling Recently at Home Rule Meeting in Bristol.

New York, July 5.—A London cable says: "An exciting incident took place last night at the close of a home rule meeting in Bristol, at which the principal speakers were C. E. Hobhouse, chancellor of the Duchy of Lancaster, and William Redmond.

"Mrs. Dove Wilcox, leader of the local militant suffragettes, was found in an ante-room disguised as a man, wearing a soft felt hat, a dustcoat and trousers. She was discovered by the police and ejected.

"She was afterward followed through the streets by a large crowd and was roughly treated and kicked about the shins. Eventually she got away in a tram car.

Sixty Lives Lost.
St. Petersburg, July 8.—Sixty persons were burned to death in a fire which destroyed the sugar factory at Lipseks this morning.

THE VISIT OF CHINA'S CONSUL

On Thursday, the 11th inst., at the T. P. Inn the Canadian Club of Prince Rupert will hold its second luncheon this season and the guest of honor will be Dr. Chang Kang Jen, the Chinese consul in Canada. The importance of the Chinese consul's visit and address to the Canadian Club is great. Not only is Dr. Chang Kang Jen a most interesting and cultured speaker, but he is essentially in touch with the great trade conditions of the Orient which count so high in the calculations for the future prosperity of Prince Rupert, the nearest port to the Orient of all Canada. A big attendance of citizens vitally interested in the welfare of the city is assured for Thursday's Canadian Club luncheon, which will be held between 1 and 2 p. m.

Warm, clean rooms at Savoy.

STRIKERS SHOT AT LAKE CHARLES

All Night Clashes Result in Fatal Firing by Guards of Mills on Molesting Laborers—Four Are Killed, Four Wounded

Lake Charles, La., July 8.—Clashes lasting all night between the union and non-union mill workers have already resulted in four being killed and four seriously wounded. Guards who were protecting the mills fired on the strikers.

PRINTERS HAD OUTING

Enjoyable Launch Trip Around Harbor Yesterday.

In the swift and beautifully equipped power boat Alice B the members of the Typographical Union had another splendid outing yesterday. The boys were delighted with the facilities provided by Captain Thomas for pleasure jaunters in his pretty boat. Just about sunset the party returned to Prince Rupert.

Mrs. E. Demers left this morning on the Prince Rupert for Vancouver and Victoria on a short business trip.

FIRE OUTBREAK IN PREMIER

Hotel Staff Quenched Blaze in Kitchen Roof—Brigade Made Smart Turnout, but Fire Was Out Even Quicker.

A little excitement was caused at the Premier Hotel last evening by a small blaze starting up on the roof of the kitchen. It was noticed immediately and promptly put out by the efficient action of the hotel staff with their own apparatus. In conversation this morning with a News representative they spoke very strongly about the low water pressure obtainable. The water furnished was almost useless and it would have been the same for the city fire brigade. They consider it a merciful dispensation of Providence that the fire was checked at the moment it was, or nothing could have been done to save the place from being burned to the ground.

RED REVOLT IS LOOSE IN LISBON

Long Expected Royalist Struggle Breaks Out—Revolutionists Kept at Bay in Outskirts—Bombs and Bloodshed.

(Special to Daily News.)
Lisbon, July 8.—The long expected Royalist movement began yesterday, but the outbreaks were confined to small districts in the north and the Royalists were kept beyond the border. The telegraph wires have been cut and it is impossible to get accurate details. A bomb exploded today in the centre of this city, killing two men and destroying the roof of a house. It is believed that the victims were making bombs ready for an uprising.

TRIBUTE TO DEAD

(Special to Daily News.)
Ligonier, Pa., July 8.—Every store and factory remained closed here from 10 o'clock this morning until 4 this afternoon, while the town paid a last tribute to the victims of Friday's train wreck.

THREE HUNDRED THOUSAND QUIT CHICAGO

Frightful Conditions in the Great Lake City During Scorching Heat Wave---Terrible Electric Storm Breaks, Firing Homes.

(Special to Daily News.)
Chicago, July 8.—Damage aggregating \$150,000 was caused by an electrical storm which beat upon Chicago last night, when five inches of rain fell. The storm brought relief from the heat wave. Lightning struck a tenement in West Lake street and twenty families were made homeless by the fire which followed.

Chicago, July 7.—Ten deaths from the heat and twenty-two prostrations were reported today.

NOT OUR LINE

From Vancouver to Fort George Road Will Be Started Soon.

Vancouver, July 6.—The first sod of the Pacific Great Eastern Railway was turned at North Vancouver by Sir Richard McBride on July 1. This road is to be built by Messrs. Foley, Welch & Stewart, to connect this city with Fort George and is eventually to be used as the Vancouver connection of the Grand Trunk Pacific. The railway is to be built under a guarantee of bonds for \$35,000 per mile for 450 miles of its length.

CANADA TO BE CENTRAL POINT

Whole British Empire Will Revolve About the Dominion Before Long is Startling Prediction of Scientific Expert.

London, July 6.—That the increased efficiency, due to climatic conditions, of the transplanted Britisher will soon make Canada the central point of the British Empire, is the statement with which Professor Willis Moore, chief of the United States Weather Bureau, has startled Londoners.

Professor Moore declares it can be scientifically demonstrated that the climate of the North American continent is producing a race which in mental and physical energy promises to be distinctly more efficient than any past nation of the Northern Aryan race. He bases his theory on the fact that the northwest winds of the American continent, blowing with great velocity from an extreme altitude of vast electrical potentiality release more ozone in the proper state for human breathing than in any other place in the world. Consequently the American weather expert maintains that the Canadian can no more control that nervous energy which is the marvel of Europe than he can stop his own breathing.

RECORD JUMP BY SIFTON'S HORSE

Seven Feet Five and a Half Inches Cleared at International Horse Show—Blue Ribbon Secured Over Competition of the Best.

London, July 6.—Confidence, the splendid jumper from the stable of Hon. Clifford Sifton, continued its successes, winning the high jump in the International Horse Show at Olympia, clearing the great height of 7 feet 5½ inches, breaking the world's record. The performance is all the more notable as the show is the largest in the world and all the best jumpers of continental Europe take part in the competition.

Confidence has always been a reliable jumper and has a long record of blue ribbons at American and Canadian horse shows. It was only at Montreal about a month ago that he established a record and since arrival in England won the high jump at the R. I. show. He was not extended at that time, clearing only 6 feet 5 inches. Confidence has made the trip across the pond before and has figured in the summary of most of the big shows in Europe. The record made here is the world's record in competition.

MINE DISASTER

Nine Foreigners Meet Death in Nevada Explosion.

Reno, Nev., July 8.—Nine were killed and several injured this morning when a premature explosion took place in the Nevada Consolidated Mine, near here. All of the killed were foreigners.

PATIENCE REWARDED

Brothers Waited 70 Hours to Get Choice Land.

Edmonton, July 6.—After waiting on the steps of the land office from last Friday night until Monday, two men of some fifty-five years, Max and Alb. Greenberg, brothers, from Carrington, North Dakota, filed on a coveted half section just one mile north of the town of Edson on the Grand Trunk Pacific.

Pantorium Pioneer Cleaners.

BRITISH SHIP CLIPS RECORD

H. M. S. Conqueror, Britain's New Vessel, Beats the Fastest of the German Dreadnoughts—Exceeded the Contract.

London, July 6.—All speed records for dreadnought battleships were smashed the other day when H. M. S. Conqueror, on an eight hour trial at full power, made a speed of 23.25 knots, instead of the 21 knots as stipulated in the contract.

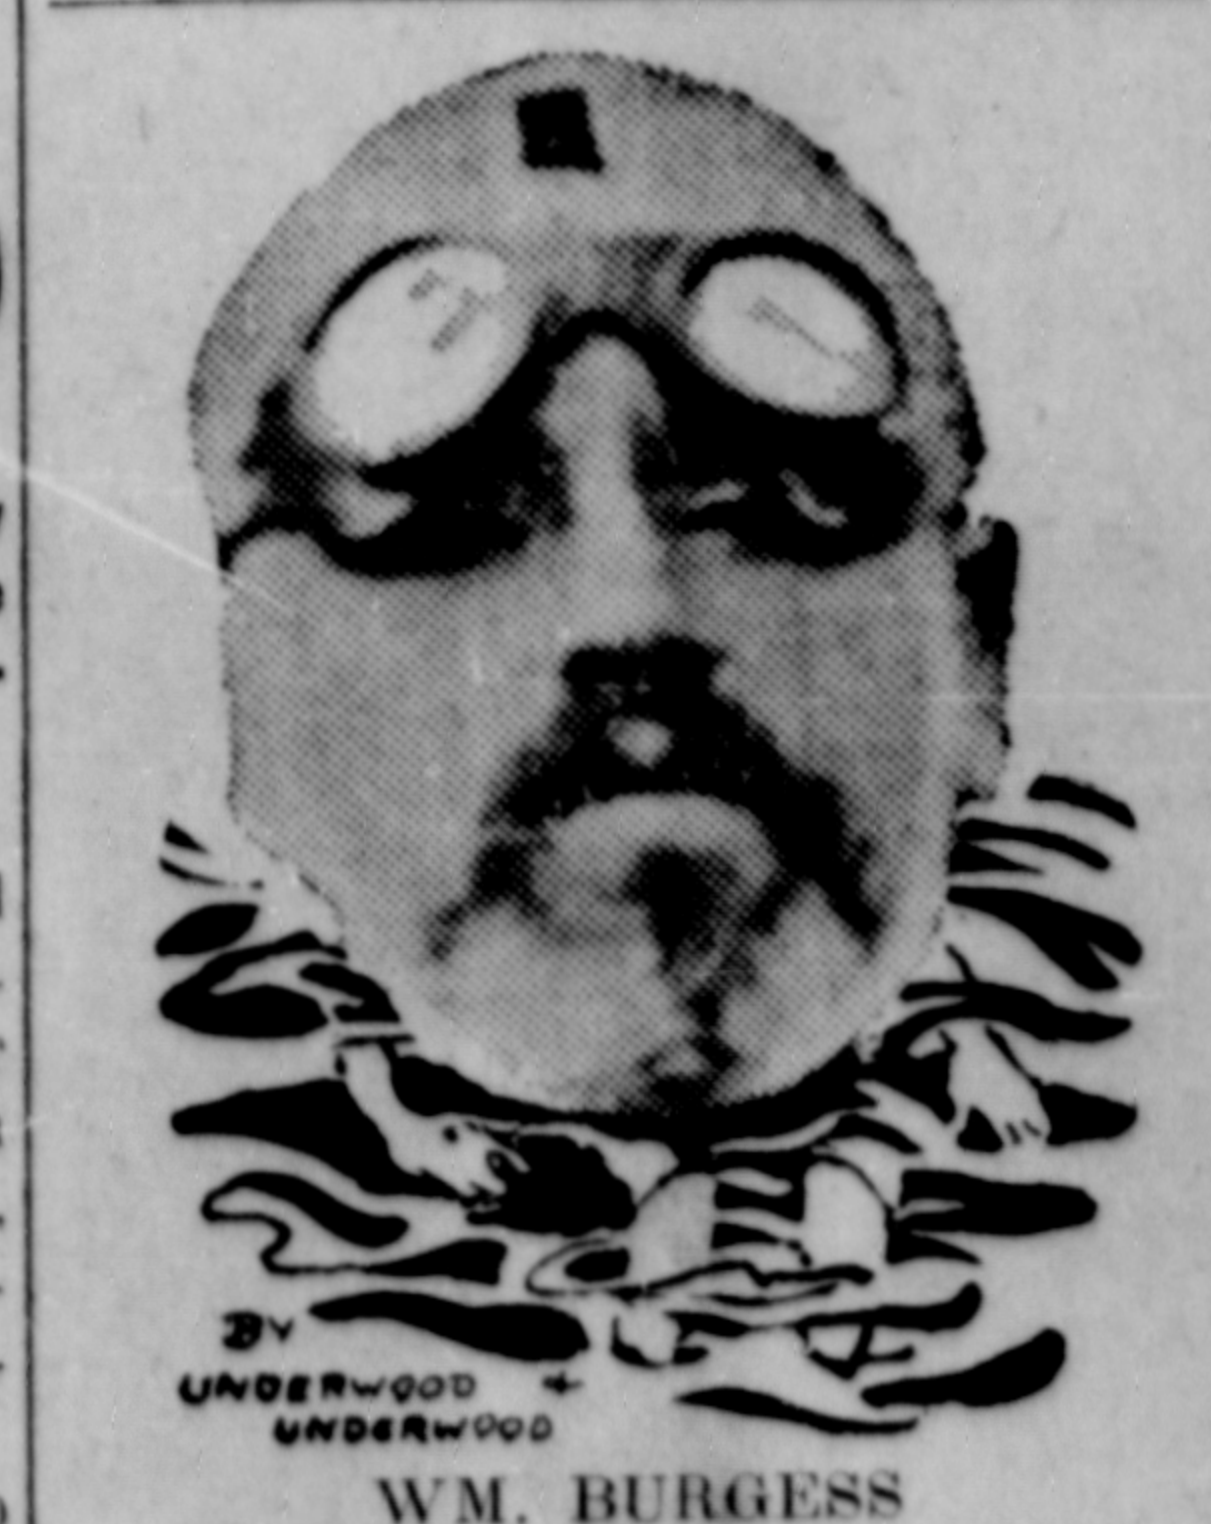

The fastest British battleship hitherto was the Vanguard, which did 22.1 knots on her trial two years ago.

The fastest German dreadnought is the battleship Oldenburg, which had her trial recently and attained a speed of 22.4 knots.

DISTRUST CANADA

Old Land Investors Seeking Protection Against Land Sharks.

London, July 6.—The Canadian Chamber of Commerce in London, with a view to protecting land investors from buying worthless lots near new western towns, have asked the leading firms dealing here in Canadian land to pledge themselves to refuse to sell unless the plans follow certain detailed conditions.

The stalwart Yorkshireman, and channel swimmer, who is now coaching several ambitious aspirants after the honor first achieved by the celebrated Captain Webb.
