## THE POWER AT OUR DOORS.

Amongst the most valuable of all the tremendous resources available for Prince Rupert in Northern British Columbia are the water power of the district. One of these water powers—a tiny one it is true, but still a water power—Prince Rupert has secured for the city's own exclusive use. It cost the city some \$30,000 to purchase the sole use of that water power, and before it can be developed and put to work within the city limits a good deal more money must be spent, provision for which has already been made against the city's credit. It is not likely that Prince Rupert will be ready to supplant the city's own 2,500 horse power Woodward water power by hastily handing over the power franchise to the 25,000 horse power water power which the owners of the Hecsal power can offer, with the many times greater power which the Khatada proposition can place at Prince Rupert's disposal. And yet, while holding on to her own power proposition and taking all possible pride in it, may not Prince Rupert possibly have use before very long for rather more than twenty-five hundred horse power from water?

## APPLIES CLOSELY TO PRINCE RUPERT.

While the problems of municipal government on this continent are such that they present no mean task to the most capable men, few would venture to suggest that the best men are giving themselves to this service.

Among the best governed cities today are those of Germany, where the social standing of the officials who correspond to our aldermen is such that the position is sought by some of the ablest and most successful men in the community. The mayor is chosen as a railroad president is chosen here, because of his proved abilities in administration, and is frequently not a resident of the city whose affairs he is chosen to direct. Permanent officials are also better trained for their work there than here, as it customary for them to choose the municipal service as a life profession and to undergo special training, for which adequate provision is made in the schools and colleges of the country.

The public life in the older countries gains by the presence of a leisured class. Men of ability, who have retired from business and who are willing to devote their energies to the public service, are more numerous there than here. On this continent fewer men retire from business until they are forced to do so by declining years.

Our main hope must be that some of our abler business men will recognize that it is a duty, none the less insistent because it involves some sacrifice of valuable time and energy, to give their services to the community in which they live.—Calgary Albertan.

## WANTED—A PATH TO GOD'S ACRE.

Editor of The News, Prince Rupert.

Dear Sir: May I, through your columns, draw the attention of the citizens to a most urgent requirement, viz., a way of easier access to Fairview Cemetery? Suffice it to say were the difficulties encountered on reaching it—which some of us learned for the first time recently—generally known, public sentiment would demand the necessary improvement. Many are the needs of a city such as yours, destined undoubtedly to be of world wide importance; but should not God's acre be cared for and adequate provision made for the reverent interment of the victims of that common enemy of mankind which was here before the earliest settler and will remain, defying banishment until the strongest and the youngest of Prince Rupert's residents are gone.

Sincerely yours,

W. HARDY ANDREWS.

## HON. COCHRANE FOR ENGLAND

Minister of Railways is Appointed Delegate—Will Attend International Good Roads Congress in England.

The announcement was made the other night at a complimentary dinner tendered by the Ontario Motor League to Mr. W. Rees Jeffreys of the Road Board of Great Britain that the Dominion government had appointed

Hon. Frank Cochrane as their delegate to attend the third International Road Congress, to be held in London, England, next June. Representatives of the Provincial governments and some of the larger municipalities also will attend. Invitations have been extended to every nation in the world, and it is expected about forty will be represented.

The modern, high class place for billiards and pool. Seale's, Third avenue.

## ITALY'S HONOR MAINTAINED

Adolphe Azzali, Champion of the Land of Art and Music, Proves Himself an Athlete of Mettle—Walks Away from Rivals

There were doubts regarding the walking race on Dominion Day, and Adolphe Azzali, champion walker of Italy, challenged the decision as he maintained a level walking pace throughout the race in accordance with rules, while rivals had trotted. The race was re-walked on Tuesday night in good order, and Azzali is today adjudged officially the winner. His time for two miles was eighteen minutes. The course was over two miles long by

1102 feet. Azzali covered the whole distance in twenty minutes. His rivals were Youngman and Olesen. Olesen was only ten seconds behind the winner.

## CHILDREN HAD GLORIOUS TIME

Anglican Sunday School Picnic to Porcher Island in Charge of Rev. W. T. Rushbrook Proved a Signal Success—Youngsters Had Time of Their Lives

Tuesday the Anglican Sunday schools of St. Andrew's, Centre Street, and St. Peter's, Seal Cove, picked up at Warner's Beach, Porcher Island. This is probably the largest, finest and safest beach in the neighborhood of

Prince Rupert. Much of the success and unalloyed happiness of the event was due to Capt. McKroskrie, who had arranged a roomy-fenced, canvass covered scow, so that the sea trip to and from the beach—over a sea of glass—had every moment filled with pleasure, round games, skip ping contests, etc.

One little Seal Cove lass expressed the feelings of at least the children, when she exclaimed on leaving the scow, "Gee, I wish we were going again tomorrow, don't you?"

Mr. C. G. LeBree, passenger agent of the Canadian Northeastern Railway Company, with terminus at Stewart, Portland Canal, is in the city, en route to the latter place after a visit east as far as Toronto.

## You Do Not Know

## Where to Invest?

Let us tell you. There should be no difficulty about a matter of this kind if you take the trouble to exercise ordinary care and common sense. You would not select an old decaying city whose pulse has almost ceased to beat, would you? NO, you would put your money into a going concern where there is life and hope!

## Well! Why Don't You Try the West?

We suggest the west, because the west spells Progress! Here are the cities of the future, where hamlets existed a few years ago. Here are the towns which possess both sea and rail transportation facilities! Here are the towns whose strategic positions ensure them becoming large commercial distributing centres in the near future! Here is Alberni, the future Liverpool of Canada.

## A Seaport Town of no Small Renown

So situated at the head of Alberni Canal on the west coast of Vancouver Island, its importance as a seaport town cannot be doubted, or too strongly emphasized. This canal opens itself out into the Pacific Ocean, after its long locked course from Alberni, extending for a distance of 26 miles. Its water is of great depth, permitting of safe navigation to the year round. The canal is the largest of its kind in the world, being one to three miles in width. An investment in a place possessed of such enviable features.

## Must Surely be One of the Best!

Yes! Without a shadow of a doubt it is one of the best! Don't be asleep to these great chances, which do not come too often. Remember, Alberni is at present served by one great transcontinental railway system, the Canadian Pacific Railway, and by the end of the year the Canadian Northern will have completed its track into Alberni. Then will come the dredging of Seymour Narrows, connecting the island with the mainland. Mail and passengers from the Orient and other routes via the Panama Canal, to be opened next year, will be landed at Alberni, and transported by rail to Vancouver, saving from eight to twenty-four hours to the present route. ALBERNI therefore is where you should invest.

Lots can be bought for \$150, inside the town limits. Easy terms, 10% cash, 5% per month.  
Test it for yourself. Buy a lot today and help to develop the west.
